 30 Turquoise	 19 Black Lake	 90 Portrait Pink			

FABRIC PAINT: **JACQUARD'S LUMIERE METALLICS** / PAGE 32 / MEDIUM CONSISTENCY

 533 Rose Gold	 547 Indigo	 553 Brass	 562 Met. Olive	 568 Pearl White	 573 Pearl Magenta
 542 Citrine	 548 Old Brass	 554 Sunset Gold	 563 Met. Silver	 569 Pearl Violet	 574 Hi-Lite Red
 543 Bright Orange	 549 Metallic Rust	 555 Halo Pink Gold	 564 Met. Copper	 570 Pearl Blue	 575 Hi-Lite Violet
 544 Crimson	 550 True Gold	 556 Halo Blue Gold	 565 Met. Bronze	 571 Pearl Turquoise	 576 Hi-Lite Blue
 545 Burgundy	 551 Pewter	 557 Halo Violet Gold	 566 Met. Russet	 572 Pearl Emerald	
 546 Grape	 552 Bright Gold	 561 Metallic Gold	 567 Super Sparkle		

Printing can't replicate Lumiere's metallic luster. "Halo" are color paint pigments with suspended light gold metallic. "Hi-Lite" are white pearlescent with a hint of color.

FABRIC PAINT: **JACQUARD'S NEOPAQUE OPAQUES** / PAGE 32 / MEDIUM CONSISTENCY

 450 Volt	 454 Fire Red	 580 Yellow	 584 Blue	 587 Green	 590 Ochre
 451 Miami	 455 Navy	 581 Gold Yellow	 585 Turquoise	 588 Black	 591 Russet
 452 Gamma Blue	 456 Tanned Leather	 582 Magenta	 586 Violet	 589 White	 592 Brown
 453 Military Green	 457 Concrete Grey	 583 Red			

This is the most opaque paint we carry! Covers even on black! The Lumiere paint above this is also just as opaque. Both work great on leather as well as fabric.

MARBLING INK: **JACQUARD MARBLING INK** / PAGE 26 / THIN CONSISTENCY, DENSE PIGMENT

Men's (Unisex): 98-103

HOW TO PLACE YOUR ORDER

We specialize in FAST, FRIENDLY service at FAIR prices.

We keep our catalog & our operation simple & economical which allows us to keep our prices low. We've been doing this for over 50 years. This is a small, personal company. The owners & their children work here & they answer the phones, take orders, & sweep up in the warehouse. We are real people at this end. We have a good solid reputation - ask around!

Wherever you live, we can get it to you fast. We fill orders very quickly & usually ship within 24 hours of receipt of your order except for weekends and holidays. If you call **before 12 noon (PST)**, your order will go out the same day- no extra charges - this is just our regular service. If you call after 12 noon, it will go out the next working day. Keep in mind, the day it ships doesn't count as a shipping day. Also, sometimes we do get overwhelmed & fall behind. Then we have to catch up in the shipping dept. Doesn't happen often. For most addresses in the USA, you can choose to have it delivered as soon as the next day if you have a deadline. See pg. 144 for shipping information, and our website for even more details. You can get shipping quotes at any point during ordering on our website as well, for any of the shipping options.

DON'T WORRY!

WE NEVER SELL OUR MAILING LIST - YOUR NAME IS SAFE WITH US!

CREDIT CARDS ARE NEVER HELD, HECK, WE DON'T EVEN SEE 'EM!

YOU WON'T BE OVERCHARGED FOR SHIPPING & HANDLING - ALL CHARGES ARE EXPLAINED RIGHT HERE IN THE CATALOG!

YOU WON'T GET "STUCK" WITH BAD STUFF. NO GOOD? NO PROBLEM. SEND IT BACK FOR A REFUND!

MONDAY - FRIDAY 8AM - 5PM PST : CALIFORNIA TIME (THAT'S THE SAME AS 11 AM - 8 PM EST : EAST COAST TIME)

KNOWLEDGEABLE CUSTOMER SUPPORT STAFF ARE AT THEIR PHONES & READY TO ANSWER YOUR QUESTIONS, MAKE RECOMMENDATIONS, TAKE AN ORDER & JUST BE DARN HELPFUL. OUR WEBSITE IS OPEN 24 HOURS/7 DAYS A WEEK WITH AN ABUNDANCE OF INSTRUCTIONS & INFORMATION. YOU CAN PLACE ORDERS ONLINE 24/7 & HAVE ACCESS TO A GREAT COLLECTION OF TEXTILE CRAFT INFO & PROJECTS.

IMPORTANT RESALE INFORMATION ABOUT SALES TAXES:

Do you resell our products? Then you have or should have a Resale License and Number. In order to not collect sales taxes from you, in the United States, most anyway, and now Australia, we need to have your Resale License # on file, and in California, a filled out Resale Certificate.

5 WAYS TO PLACE AN ORDER!

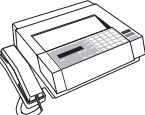

- 

CALL OUR TOLL FREE NUMBER (800)-542-5227 AND USE MASTERCARD, VISA, DISCOVER or AMERICAN EXPRESS. Outside of the USA & Canada please call **(707) 283-0390**. First go through the catalog & decide what you want to order, then call. We are here Mon - Fri, from 8am- 5pm PST (West coast - 3 hours earlier than East coast time). Your card will be charged the day we ship your order for the cost of the items we ship, plus shipping. Tax will be added **only** if you live in California. We'll email an itemized receipt, and a packing slip will be in your package. **PAYPAL** is accepted on our website **ONLY**.

- 

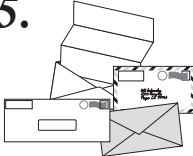

ORDER ONLINE on our website at www.dharmatrading.com using the Online Shopping Cart. Web orders are downloaded each **WEEKDAY** morning until noon & are shipped that same day **before all other orders**. Orders finished at or after noon (PST) are downloaded later for shipping the next business day. We take the same payment methods as above, **plus PAYPAL (!)** on our **SECURE** website. Please include a valid email address & phone number in case we must get hold of you.

- 

FAX YOUR ORDER TO US. Our FAX number is **(707) 283-0379**. Use any sheet of paper 8.5" x 11". Start with your name, street address, daytime phone number, & email address if you have one. List the items you would like & include your credit card number, billing address information & signature.

- 

GOVERNMENT FUNDED SCHOOLS AND INSTITUTIONS **only** can mail, fax or call in orders with a P.O. #. We bill Net 30 terms. **Catalog prices do not include shipping.** Pro-forma invoices including shipping can be self-created & printed on our website using the "hold & print" option - we will **NOT** ship the order until we get your PO.

- 

MAIL IN YOUR ORDER WITH A MONEY ORDER. Use any sheet of paper 8.5" x 11". Start with your name, street address & phone number. List the items (including Stock #s) you would like & their prices. Add tax if you live in California. Estimate the weights & then the shipping cost by using the shipping charts in the back of the catalog. We'll charge you only for your order total & refund the difference with your order. **Over estimate the shipping cost!** **Better yet,** you can now enter your order on our website, get an exact total, print it using the "hold & print" option at the end of the shopping cart, & then mail us the printed order with your payment. We ship when payment is received. **U.S. Funds Only.** A \$5.00 service charge will be charged for checks drawn on a non-US bank. Non-US funds will have to be returned as exchange rates vary too much.

DHARMA TRADING GIFT CERTIFICATES

AN EASY AND WELCOME GIFT FOR FIBER ARTISTS & CRAFTERS IN YOUR LIFE!

Easy to order by phone or on our website! Same payment options listed to the left.

1. Tell us the amount & name & address of the recipient. We'll send a neat certificate & a catalog to them with a note explaining that it comes from you.

or

2. Tell us the amount & we'll send the neat certificate & catalog to you for you to give personally. Either way it makes a great gift, & one that will be appreciated beyond the moment.

We're easy. No restrictions. No time limits or deadlines. Any amount from

\$20 to \$2000.

**WE'VE GOT THE STUFF,
YOU MAKE IT ART!**

THE FINE PRINT ABOUT BEING SATISFIED.

We want you to be pleased with our service and products. If something is not right, tell us & we'll try to fix it. We try to treat all of our customers the way we like to be treated ourselves. We're here to help. Just examine the contents of your order when you get it & let us know if you want to return or exchange something. You have 30 days from the invoice date to return it. Please do check out our return policies below.

THE FINE PRINT ABOUT PRICES.

We do our best to keep prices low. First we discount from retail list price & then we add further discounts as the quantities in your order increase. These are our prices for everyone - big company, small company, teacher, indie art person - this is it. No secret agenda, no magic words which cause other pricelists to pop up. The prices that we have to pay to our suppliers can change without notice, & therefore our prices to you also have to change without notice. When we pay more, we have to charge more. When suppliers charge us less for a product, we drop our prices and pass the savings onto you. The paper catalog gets out of date. Our website (updated daily) will always reflect all current pricing: www.dharmatrading.com

Read this if you want to save money!

Something very unique about our service is that you can combine cotton & rayon clothing types & styles to get the biggest discounts. Your discount is figured on the basis of the total number of cotton & rayon items we ship, not how many of each type. That means, for example, that you can order one each of 12 different T-Shirts & tops & get the 12 or more price on every item. Or you could order 12 each of 5 sizes of Tank Tops & get the 60+ price on everything.

Due to the increases in the cost of Silk (everything made in China is going up these days), & with the aim of keeping our Silk prices among the lowest in the country, Silk items have their own discounts & are not included in Cotton & Rayon discounts. Most Silk items are discounted when buying 12 or more - of each individual item - not combinable.

SPECIAL SALE ITEMS & INDIVIDUALLY DISCOUNTED ITEMS ARE NOT COUNTED IN ADDING PIECES FOR DISCOUNTS.

THE FINE PRINT ABOUT SPEED (OR, "HURRY, I'M DESPERATE!"):

Our goal is to ship all orders placed on our website before noon PST or by phone by 12 noon on the same day. Orders which arrive after those deadlines ship the next business day. Usually, that's exactly what we do. Sometimes we fail, because stuff happens. One day we may get swamped with orders beyond our wildest dreams, or several people get sick the same day, or equipment breaks down, or more often, everything at once. In those cases there might be an extra day, maybe even two before we ship. If you're on a deadline where a day or two matters, explain your time concerns very clearly when you call, & we'll try to help you. We offer every service, from "snail mail" to Overnight AM to help you meet your deadlines.

THE FINE PRINT ABOUT MINIMUMS, UPCHARGES & HIDDEN CHARGES:

There are none.

THE FINE PRINT ABOUT ADDING ON TO OR CHANGING YOUR ORDER LATER:

It's really a problem for us! We'd have to search through hundreds of orders looking for yours. To ship orders the same day, we have to move fast. Maybe your order is already being picked, packed, or picked up by UPS & loaded onto their trucks. We're sorry, but once your order is in our ginormous warehouse for processing, we cannot retrieve & change it.

THE FINE PRINT ABOUT BACKORDERS:

We might input your order for something & then find the inventory was off. Rare, but it can happen. We'll hold the order & email or call you if it's a significant part of your order. If it's just an item or two, we will ship your order without it (shipping will adjust to reflect the new weight) & when it comes back in stock, we will send you an email so you can order it if you still want it. Discounts from the original order will apply to the item(s). We do have to charge shipping on the backorder; whatever the shipping company charges us. If you want an item automatically shipped as soon as it comes in, you can place a new separate order for it for us to hold, then ship when the item arrives.

THE FINE PRINT ABOUT MONEY:

We can't extend credit. Payment is by Credit Card (Mastercard, Visa, American Express, Discover), PayPal (web orders only - including Bill Me Later), Check or Money Order (sent in with your mail order), or by Wire Transfer on larger orders. If your check bounces, the bank charges us, we have to start collection efforts, and we have to charge you \$30 to cover it all.

THE FINE PRINT ABOUT LIABILITY:

Like most companies, we have to limit our liability to a replacement or refund for a defective item, so it's **best practice to test the suitability of a product, color of a dye or paint, etc., before using it extensively**. We just can't take financial responsibility for time or other materials. We make no guarantees about how products will work in your situation. **TEST!!!**

THE FINE PRINT ABOUT CLOTHING DYEING EVENLY OR THE EXACT COLOR YOU WANT :

We cannot guarantee that all parts of a garment will dye the same even color, or the exact color you had in your mind's eye. We just can't. We don't control all the fabric manufacturers. Only 1 or 2 guarantee dyeability anyway. It's rarely a problem, but it does happen. Procedure greatly effects even dyeing as well as color, which we cannot control. Dyelots can vary, and dyes respond differently to different fabrics, etc. Closely following our detailed instructions is best, and **TESTING!!!**

THE FINE PRINT ABOUT RETURNS:

If you need to return or exchange something, no problemo. You can request a refund or an exchange or a credit, as you wish. **Please examine the contents of your order upon arrival & let us know right away if you need to return something for any reason.** You have 30 days from the invoice date to get a Return Authorization number (RA#). **After 30 days no returns are possible.** Call or email, we're here. Please don't just send back returns with no RA#.

Exceptions: Books & DVDs (unless defective): books must be returned within 10 days in brand new condition, & DVDs are not returnable. Special orders, steamers & heat presses, swimsuits, underwear & sale items are also not returnable, unless defective. Opened dyes & paints are not returnable unless defective. Shrinkage varies with every fabric - undyed clothing and fabric are NOT pre-shrunk, and shrinkage is not considered a defect. Cut fabric returns are subject to 20% restocking fee, unless defective. You must have a RA# or there will be confusion! Returned items must be in resellable, original condition.

SHIP ALL RETURNS TO US AT: DHARMA TRADING COMPANY, 1805 SOUTH MCDOWELL BLVD. EXT. , PETALUMA, CA 94954. PLEASE DO NOT SHIP ANYTHING C.O.D. OR WITHOUT AN RA#

We'll refund the shipping or pay for the shipping to replace items when we make a mistake or the item is clearly defective. If we didn't do anything wrong, then we have no problem with a refund or exchange but will not refund the shipping. If your return reduces your order to a lower discount level, naturally we will have to recalculate your original invoice. We also reserve the right to charge a restocking fee to cover our expenses for refused shipments, fabric that we cut for you & arbitrary returns for reasons not involving an error on our part, a defect or a straightforward exchange. That seems fair.

USEFUL INFORMATION

WHICH BRAND IS BEST? Which product do I need?

You'll see that we offer a number of products in each category which seem similar to one another - there are half a dozen brands of silk dyes and as many brands of fabric paints. And you wanna talk T-shirts?! We now have a mega selection of T-shirts! The truth is that they are all good (or we wouldn't offer them) and each brand has its fans and users who'll swear that it's the greatest thing since ice cream and that the other brands don't work, are bad and smell funny. Our solution is to offer them all to you, point out, where we can, the qualities, differences, pros & cons & trade-offs, and leave it to you to develop favorites which work for you and for the kind of work that you do. Our website offers tons of free information, instructions, examples, measurements, etc. to help you make your decisions.

DHARMA'S ENVIRONMENTAL SCORECARD

WE'RE WORKING AT IT. HERE'S SOME OF WHAT WE HAVE BEEN ABLE TO DO SO FAR:

- We have implemented a new system of electronic customer orders for the warehouse utilizing e-tablets and thereby eliminating the use of gazillions of pieces of paper and tons of printer toner!
- We gave up styrofoam packing peanuts and replaced them with packing material made from potato starch which is all natural & biodegradable. Does a good job of protecting jars and can be dissolved in water afterward or added to the garden. Potato starch peanuts cost us a lot more, but are worth it.
- We now yell at suppliers who still send us styrofoam peanut packing.
- For packing our dyes, we use black containers made 100% from ground up recycled plastic.
- When possible, our shipping boxes are now either partly or 100% made from recycled cardboard or we use boxes another company is going to throw away. So if it says "candy" on it, don't be fooled!
- We use plastic garment bags that are made from at least 30% recycled materials.
- Whenever possible, we use soy inks & recycled paper in printing our marketing materials.
- We reuse or recycle our incoming cardboard boxes.
- More of our clothing products are made without the use of chemicals.
- We recycle our waste paper and cardboard and use only fluorescent lighting.
- We use 95% post-consumer recycled content toilet paper, napkins and paper towels.

DHARMA'S SOCIAL RESPONSIBILITY SCORECARD

WE'RE WORKING AT IT. HERE'S SOME OF WHAT WE HAVE BEEN ABLE TO DO SO FAR:

We focus on providing income producing work for those in need, and we increasingly like the idea of helping give the world's poorest children a chance at a healthy and productive life. See more at: www.dharmasocialprojects.com
In 2003 we began organizing and financing sewing cooperatives in Bolivia and Indonesia. Products from these co-ops can be seen on our website selling at little or no profit in order to keep their goods competitive and provide more work.
In 2004 we became aware that cataracts were a problem for the poor in the Andean region of Bolivia, so we organized & provided the funding for free cataract surgery. 100 surgeries done. Later they became available through Cuban doctors.
In 2005, we began funding open heart surgeries for poor children in Bolivia. These are children with life threatening heart anomalies whose parents have no possibility to pay for the surgery. As of the end of 2017 we have "fixed" about 157 little hearts giving these kids a chance at life. We continue at the rate of about 1 per month.
In 2006, we began funding annual school fees for 10 children in Indonesia, and the program continues today.
In 2007 we started a Children's Vision Project to provide free eye exams and eyeglasses to poor indigenous Bolivian children. In 2009 we screened 15,000 children, sent 2000 to an ophthalmologist and provided glasses for about 1600.

SAFETY INFORMATION

We are completely open and honest with you about any health hazards related to the products we sell. We ourselves are not chemists so we pass on to you the information given to us by the manufacturers. If you're a school or need or want to see an SDS (Safety Data Sheet) for any dye, paint or chemical we carry, you can download them from our website from the SDS link toward the bottom of each web page. If you don't see what you need, give us a call.

We hide nothing intentionally. It doesn't matter to us which product you decide to use - we try to have them all so you can choose. Each person has their own opinion and their own standards as to what is "safe" - we think that's just fine, and we don't interfere. We will gladly and freely tell you everything we know about any product we sell and allow you to decide if you wish to use it or some other product. See the precautions below and use good common sense safety procedures!

We've always been careful to provide you with good informational labels on all the products we package. We've avoided selling products we think are serious threats to your health and encourage our suppliers to do the same. Nowadays, to conform to Federal laws, our labels make everything sound like a deadly poison, even simple things like sawdust and seaweed. The law says you have to warn everyone about everything, regardless of how obvious, stupid or remote the possibility. Anyway, we are now labeled to the "max". Please don't hold it against us. You may find the same product from another supplier without any warning label at all. Same product, different label.

California Proposition 65 requires that products sold in California which contain, in any amount, any chemical on what is called the "Prop 65 list" be labeled as follows: "Contains chemicals known to the State of California to cause cancer." On that list are many things including alcohol and cigarette smoke. Some of our products bear that label because they contain alcohol. California has cancer warnings at bar entrances. Some bear the warning because they contain traces of Formaldehyde. Some dyes have a copper atom in each molecule of dye to give them a turquoise hue. Copper is on the list.

In general, follow these common sense precautions:

- Wear an approved dust mask or respirator (pg 52) when handling ANY powders so you don't inhale dye or chemical dust.
- If there is any chance of getting the dyes or chemicals in your eyes, wear protective goggles (pg 52).
- Wear rubber gloves (pg 52) so that you don't wreck your skin.
- Provide adequate ventilation if fumes are present - cross ventilation or an exhaust fan, not just an open window.
- Don't breathe fumes. Dust masks don't help with fumes. Respirators with fume filters do help (pg 52).
- Don't use cooking or eating utensils. Have dedicated tools and containers for your arts & crafts products.
- If you are going to store anything in the fridge, tape the container closed and label it clearly.
- Keep the dyes and chemicals away from unsupervised children and pets. There is no telling what they will do.
- Use good housekeeping, clean up spills, prevent powders or dried liquids from becoming airborne.
- Pregnant women must be particularly alert. Discuss the use of dyes and chemicals with your doctor.
- If you experience an adverse reaction from using any product, stop using it at once. Allergies are unique to individuals.
- Use your common sense and pay attention to what you are doing. Like don't open your dye jars over your carpet.
- Our clothing is not treated with fire retardants and therefore is not suitable for use as sleepwear!

The biggest safety threat in using any craft material is to children & pets. You just can't predict what they'll do. And they are not reasonable. If you don't anticipate & prevent it, they will eat & drink everything in your studio.

DHARMA'S FIBER REACTIVE PROCION DYE

Use To: Tie-Dye, Shibori, Batik, Serti Silk Technique, Ikat, Tub Dye or Handpaint

Use On: Cotton, Viscose Rayon, Linen, Hemp, Silk, Paper, Wood - All natural fibers

VERSATILE: Fiber Reactive dyes are used on all natural fibers: cotton, rayon, tencel; even silk, wool, wood & paper. They will not dye synthetics. They can be used as a tub dye (for solid colors), to paint with, or sprayed, splattered or squirted on. This is the dye of choice for tie-dye!

TESTED: They've been in use around the world since 1956 and we've been selling them ourselves since 1969. If you're wearing cotton clothing, there's a good chance that it was dyed or printed with Fiber Reactive dyes, since the dyes are widely used in industry. It's also the dye that's most widely used by professional tie-dyers and batik artists.

BRILLIANT COLORS: The intensity of the colors can be made to range from light pastel to deep vibrant, almost neon colors. You control the intensity. Mix 'em up!

EASY TO USE: Warm tap water for most colors (105°), no heating, use a plastic pail or a washing machine or squirt bottles (for tie-dye). On the following pages are instructions for some of the many methods of using the dye. As you will see, there's a way to use it to suit almost any situation. In addition, you can discharge or use our paints, foils & markers over Fiber Reactive dyed items for fabulous effects.

COLORFAST: Fiber Reactive dye will not wash out! The molecules of the dye chemically combine with the molecules of the fabric to create a permanent bond. The color becomes part of the fabric. (This is why it's great for baby clothing!)

ECONOMICAL: These are the most economical of all our dyes to use. This is a powdered, highly concentrated dye which you add to water by the teaspoon. A 2 oz. package of a typical color can dye more than 10 adult T-Shirts.

STORAGE: Store the powdered dyes in a closed container in a cool, dry place - they will remain usable for several years, although will gradually weaken over time, every color being a little different. Once mixed with water, they should be used within a week, because the liquid dye solution produces less brilliant colors as each day passes.

SAFE: Fiber Reactive dyes are considered relatively non-toxic, but, as when using any dye or chemical, use common sense. It's a fine powder and repeated inhalation of the dye powder can cause an allergic reaction in some people and isn't good for you anyway. Therefore, avoid breathing the dust by wearing a dust mask and providing proper ventilation. Some colors contain faint traces of Formaldehyde and/or copper which in California requires a special warning label. Although the dyes are not absorbed through the skin, you should wear rubber gloves. Dye stains on your skin can be removed easily with Kresto hand cream, which we sell. Keep dyes and chemicals out of your eyes. Soda ash is a caustic: don't breathe the powder, get in your eyes or on your skin. See pg. 52 for safety products, like gloves and masks or respirators.

Supervise children & pets! There is no telling what they might do. We know of no specific risks, but pregnant & nursing women need to be particularly careful with all chemicals. Best to discuss the matter with your doctor first.

CLEANING UP: Clean tools, buckets and washing machines with soap and water. You can add a little chlorine bleach if you like. Clean your skin with Kresto Kolor hand cleaning cream; it's the easiest way to remove stains.

DISPOSAL: Fiber Reactive dyes do not require any special disposal. You can safely pour them down the drain. Do not dispose of on the ground or in waterways!

If you have a septic system: If you've added Soda Ash to your dyebath; it's alkaline (high pH) & can be neutralized by the addition of a little white vinegar (low pH). If you used vinegar or Citric Acid in your dyebath, some Baking Soda will neutralize the acid. Highly acidic or alkaline waste water could upset the PH balance in a septic tank. We have pH test paper to test the pH before flushing it down the drain. If you are in a rural or farming area and plan to go into large scale dyeing production, consult a septic specialist. Consider filtering and re-using "dyewater"

DYE EXPECTATIONS

Most people find dyeing is so easy that a child can do it! And thousands of children do! They get great, bright colors that make them happy. For most people a nice blue result that's close to what they expected is just fine. On the other hand, for those trying to match a color exactly, or repeat a previously created color, you need to know that dyeing is a craft & like all crafts there is a learning curve and many variables; one needs to read the information we provide, and testing is required.

Be advised - we do not guarantee the color result you wind up with will be what you wanted! Each Fiber Reactive color will produce a range of shades from pastel to vivid in its range. The color also depends on several factors that you control: the amount of dye used, the amount of time the fabric is in the dye bath, temperature, the type of fabric, etc. For example: fuchsia can vary from pale pink to dark magenta by varying the quantity of dye used. Water chemistry can vary the color from city to city. Undissolved dye causes problems too, so paste up & filter as necessary. Different cotton & rayon fabrics can dye different colors even in the same dyebath, especially with mixed colors. **Also, colors can vary from dyelot to dyelot. To repeat a color exactly, you need the same dyelot, same proportions, same procedure, same everything.**

Our color chart is for cotton fabrics, not silk fabrics. On silk, the colors shift especially in dye mixes containing blue. Blues are weak on silks. In the extreme, the blacks on silk will yield shades of maroon or brown, forest green on silk yields chartreuse, purple yields raspberry, etc. Best to use a silk dye on silk for black & test the other colors first on your silk. This is why the colors shown on our charts and website should be used only as a guide in developing your own favorite colors.

WHAT YOU WILL NEED

HAND DYEING IN A TUB

Dyeing 1 lb. of cotton, linen or rayon fabric (maybe 3-6 Sq. yds) or about 3 T-Shirts, all one color using a bucket, tub or big pail.

- 3 gal warm, not hot water
- 1/2 oz. (1-4 tablespoon) of dye *
- 1/3 cup (2 oz.) of Soda Ash
- 3 cups Plain Salt
- 2 tps Calsolene oil (optional)

DYEING IN A WASHING MACHINE

Dyeing 8 lb. of cotton, linen or rayon fabric (maybe 24-48 Sq. yds) or about 24 T-Shirts, all one color, using a 20 gal. machine.

- 20 gal warm, not hot water
- 4 oz. (1/2 cup) of dye *
- 2 1/2 cups of Soda Ash
- 20 cups Plain Salt
- 2 Tablespoons Calsolene oil (opt)

DIRECT APPLICATIONS

(tie-dye methods, handpainting, silkscreening, block printing, etc.)

- 1 cup Soda Ash per gal of water for pre-soaking fabric
- 2 teaspoons of dye per cup of water for making liquid dye*
- 1-3 Tbs Urea per cup of water for making liquid dye
- Some Thickeners to thicken the liquid dye (optional)

Full instructions for different techniques like tie-dye and painting with the dye, and other helpful products, including chemicals you will need are on pages 8-13. Safety tools, and other handy dyeing tools are on pgs. 52 & 53.

*Technically, when dyeing all one color, the amount of dye used is a percentage of the weight of goods being dyed (%owg) which we show on the next pages for every color to *approximate* the color chart (on cotton). For those who don't want to mess with weighing & calculating, we estimated the rough equivalent in tablespoons, cups, etc. An * by the name of the dye means use twice as much, & for dark colors with **, use four times as much (like Black).

FOR EVEN BETTER PRICING ON 50 LBS. OR MORE OF ONE COLOR : GIVE US A CALL! (1-800-542-5227)

5 BLACK DYES: Each has a different color cast. Our **NEW #275** works best in hotter temperatures, as does #250, which is **BACK!** Rest of blacks are lower temperature dyes. Paste blacks up carefully when dissolving to avoid colored freckles! You'll see differences depending upon which dye # you use & your particular situation & techniques.

#200 Raven Black -NEWest Now our darkest "cold" water black! Tub dyes with purple-blue cast & edges are purple & blue in tie-dye, also ice dyeing. This has quickly become our best selling black! Try it! You'll like it!

#44 Better Black Tub dyes with green-blue cast & edges are green blue in tie-dye. Long a popular black.

#250 Jet Black A much deeper black than the "cold" water blacks IF used in HOT (130-150° water. Not for tie-dye. Greenish at room temperature.

#275 Hot Black - Deep bluish Black if used in tub dyeing with HOT water (150° to 180F). Even though this is a "hot water" dye, it worked good in tie-dye too as long as room temp. for curing was well over 80°F. Silk - gave us a deep brownish black color dyed with soda ash, but gave us bluish lighter black tub dyed on the stove with vinegar, lighter on wool. This makes it the best Fiber Reactive Black for silk. Acid dye is, of course, true black on silk.

#300 New Black Tub dyes with blue cast & edges are blue in tie-dye. Some tie-dyers & batikers combine blacks, but before you try that, try our new Raven!

TIPS FOR BEST BLACKS:
PASTE UP CAREFULLY AS MENTIONED ABOVE. FOR SOLID BLACK, USE DHARMA DYE FIXATIVE IN A FINAL HOT WATER SOAK BEFORE RINSING. BLACK IS A TOUGH COLOR - USE A LOT OF DYE & WHEN TUB-DYEING, DOUBLE THE SALT.

FIBER REACTIVE PROCION DYE COLORS, SIZES & PRICES

DYEING BY WEIGHT gives more accurate & repeatable results. See affordable scales on pg. 53! The " % dye to weight of fabric" (%owg) tells you how much dye by weight to use to approximate our color chart based on the weight of fabric being dyed - i.e.: dyeing 1 lb of fabric with #4 requires 2% of 1 lb. or .02 x 16 oz. = .32 of an oz., about 1/3 oz. We've included also conversion to oz. for each color. Less accurate: use estimated tablespoons or cup dry ounces in our recipes: each color varies in number of tablespoons in an ounce, and may even change from lot to lot. For folks who just can't weigh stuff, we've invented the ** system below so you can partially compensate.

COLORS WITHOUT A STAR require 1 level TBS (1/4 to 1/2 oz.) for each lb. of fabric to very roughly match the color card. For tie-dye - 2 tsp in 8 oz of water.

Colors with * require 2X as much dye, like reds.

Colors with ** require 4X as much dye, like blacks.

COLORS MARKED (T) contain #25

Turquoise:
(A) Warmer water (up to 130° F) when tub dyeing, can sometimes yield deeper shades.

(B) Using Glauber's salt instead of plain salt when tub dyeing darkens Turquoise, and also brings it out in mixes.

(C) Turquoise contains a small amount of a copper compound to give it that incredible color, the only one w/metal..

REDS & MIXES WITH REDS are sometimes harder to dissolve & the particles can result in annoying red "freckles". Carefully pasting up the dye with warm Urea water works best. Additionally, you can filter dissolved dye solution through thin fabric to be safe when dealing with problematic colors. We test reds for solubility & reject the worst, but pasting & filtering as needed are still the best practice to prevent freckling.

POSTER available! #FRP - larger color chips of all the colors! **IF YOU DON'T SEE IT HERE** - check our website for more colors, plus disco colors are available in 5 lbs and up!

NEW!

NEW!

USING DHARMA FIBER REACTIVE PROCION DYE

TIE-DYE • BATIK • TUB-DYE • ICE DYEING • SERTI SILK PAINTING • SCREEN PRINTING

Professional in quality & strength, there's no better dye for natural fabrics than Dharma Fiber Reactive dye. Regardless of what project you have, there's a way to use Dharma's dyes. Much brighter, more brilliant, deeper, and way more permanent than "grocery store" dyes. Clothes wear out before the dye does!

TIE-DYE: This is the dye you've seen on all those shirts on the street and at rock concerts - the colors are brilliant and permanent, and can be made quickly and efficiently, whether you're doing one or a hundred at a time. We have kits to make it easy on pg. 14 or a choice of 130+ colors on pgs 6 & 7.

• **USE THE "SODA-SOAK METHOD" ON PG 9.**

BATIK: Fiber reactive dye has long been the choice of batik artists. It's used in lukewarm water so it won't melt your wax. It's permanent and the colors mix well. The results of over-dyeing are (usually) predictable and exciting.

• **USE "TUB DYEING" ON PG 8 OR "COLD BATCH" METHOD ON PG 10.**

SCREEN PRINTING, PAINTING, & DIRECT APPLICATIONS:

Fiber Reactive dye is often used for screen printing in place of fabric paints. Dyes become part of the fiber of the fabric. There is absolutely no feel on the fabric - it's not on the fabric, it's in it! Even the best fabric paints have some feel to them. Also, there's a difference between the nature of the color in dyes as opposed to paints. Paint has very straight forward colors; dye is transparent and the color has depth and character. Colors can be layered in infinite ways.

• **USE THE "COLD BATCH METHOD" - PG 10, THE "PRINT BASE KITS" - PG 13, OR THE #DDF & #RET- PGS 12 & 13.**

SERTI TECHNIQUE: Fiber Reactive dye can be mixed into a thin solution and used to paint on silk, either in a water color technique or the popular French Serti Technique. The colors are as brilliant as the best of the liquid silk dyes; the color range is exciting and interesting, and easy mixing makes the possibilities limitless. The only difference is that the colors strike differently on silk than cotton - some blues strike weakly on silk, so in a mix the other colors take over - this is why you should test test test!

Dharma Fiber Reactive dye is less expensive than any of the liquid dyes because they are extremely concentrated and don't cost the extra shipping weight of liquid. The former is, of course, the drawback for some people - it comes in powder form and you have to combine a couple of ingredients yourself. But the advantages can be well worth the extra work, especially if you're in business where cost and permanence are very important.

• **USE THE "COLD BATCH METHOD" ON PG 10.**

EVEN MORE: You can dye wood, cane & rattan with these dyes (pg. 10), you can dye on silk with vinegar & heat for different results (pg. 11). See our website for tutorials, easy and fun "Ice Dyeing" & "Bread Bag Dyeing" techniques and tutorials, what other artists do (inspiring!), expanded directions & much more!

WHAT FOLLOWS HERE THROUGH PG 11 ARE INSTRUCTIONS FOR POPULAR METHODS OF USING DHARMA FIBER REACTIVE DYES.

TUB DYEING

THE BASIC METHOD FOR DYEING SOMETHING IN ONE UNIFORM SOLID COLOR.

ALSO CALLED VAT DYEING OR GARMENT DYEING. USED FOR BOTH FABRIC & GARMENTS.

1. Best to always pre-wash fabric in HOT water with Synthrapol or our Professional Textile Detergent to remove any dirt, grease or starch. Strong enzyme detergent removes sizings or heavy starch. **Skipping this step can cause uneven dyeing!**
2. Dissolve the salt in the required amount of WARM (about 105°F) tap water. (Hotter, around 130-150°F for #250-Jet Black, & #275-Hot Black, also times salt by 1.5 - 2 for Blacks & to get the deepest shades.) Add Calsolene Oil for the best & most even results. If you have hard water add Water Softener, as hard water can make colors come out more dull.
3. Paste the dye up first in a little WARM water (like you would flour for making lump free gravy), then dissolve the dye **completely** in a cup of WARM water, then add to the tub & stir to dissolve evenly. Stubborn colors & colors with red in them benefit from pasting with some Urea in the water, & possibly need to be filtered (see our notes at the side of the dye price list). A few drops of the Calsolene Oil can help dissolving too.
4. Add wet fabric & stir constantly (or at least every 3 or 4 minutes) for 20 minutes.
5. Dissolve Soda Ash in WARM water, enough to get it all dissolved, & add slowly over 15 minutes to dye bath, while stirring. Don't pour directly onto fabric - move it aside. Then stir frequently - 30 min. for light colors, 1 hour for deep colors.
6. Remove & rinse out excess dye using COLD water until runs fairly clear (cold rinses out Soda Ash without reactivating).
7. Wash in HOT water using Synthrapol or Professional Textile Detergent - final rinse should be clear.

If you don't have or don't want to use a scale, for medium shades of most colors (see color chart for * indicators), add 1 tablespoon of dye per 1 lb. of fabric (in 3 gallons of water), or 1/2 cup of dye per 8 lb. washing machine load (20 gallons). Colors marked with * on color list require double those amounts, & those marked with ** require 4X those amounts. For lighter shades, reduce the amount of dye, & for deeper shades, increase the dye. Scales are more precise for professional dyers. On pages 6 & 7 it shows how many oz. of dye per lb. of fabric used to get our color chart on cotton. Or use the % dye of weight of fabric as a formula. For replication of results, ONLY weighing is accurate, and dyelots can vary, so TEST!

The amount of Salt & Soda Ash are a function of the amount of water used. For each lb. of dry fabric you will need about 3 gallons of warm water. The water must cover the fabric with enough room for thorough, tangle free stirring; this is another way you can get uneven dyeing & streaks. For each gallon of water use 1 cup of plain salt & 1/8 cup Soda Ash. **For the Black dyes, or to get really deep colors, you can improve the yield of the dye by using 1.5 to 2 X the amount of salt.**

1/2 lb. DRY FABRIC

1 1/2 gallons of water
1 1/2 cups plain salt
1/6 cup Soda Ash Fixer
1 tsp Calsolene Oil (optional)
1 Tbs Water Softener (optional)

1 lb. DRY FABRIC

3 gallons of water
3 cups plain salt
1/3 cup Soda Ash Fixer
2 tsp Calsolene Oil (optional)
2 Tbs Water Softener (optional)

8 lb. MACHINE LOAD

20 gallons of water
20 cups plain salt
2 1/2 cups Soda Ash Fixer
2 Tbsp Calsolene Oil (optional)
1 cup Water Softener (optional)

Follow the same basic procedure for washing machines. Front loaders are a bit different - search "front loader" on our website. Remember to set the machine to "manual operation" or keep resetting to "wash" so it doesn't drain too soon.

Make sure there is enough water for the fabric to move freely, otherwise you'll get streaks and blotches. This is more difficult in the new HE (High Efficiency) machines and front loaders, but folks are figuring it out.

If you're doing less than a full load, set the water level to a lower level & adjust the amounts above like a cookie recipe.

The dye should not hurt or remain in the washing machine, but running a load of old towels with bleach added is a good idea.

INSTRUCTIONS PAGE 1

DYEING IS A CRAFT. IF YOU MUST HAVE AN EXACT COLOR, YOU MUST TEST AND ADJUST FIRST!

IF EXACT IS NOT YOUR THING, THEN NO WORRIES, GO FOR IT AND HAVE FUN! "MISTAKES" CAN BE GREAT DISCOVERIES!

SODA-SOAK TIE-DYE METHOD

Tie-dye is a pattern of color made by preventing the dye from reaching some areas of the fabric while dyeing the exposed unrestricted areas. Folding, tying, stitching, crumpling, clamping or otherwise preparing the fabric inhibits the flow of the dye. Nowadays most folding, scrunching and twisting is done starting with the soda ash soaked wet garment laid flat on a plastic covered table (wear gloves!). The pattern of the folds, etc. and where the colors are squirted dictates the resulting design. Multiple colors are squirted on. With experience, the end result can be predicted and controlled to some extent, but surprise is part of what makes tie-dye an exciting, interesting art form - and there will be plenty of surprises. For determining how much to mix up, figure about 4 oz of liquid dye total per average L adult T-shirt. So more for dresses, less for kid's sizes, etc. **We have group tie-dye instructions both on our website and in the book 'Tie-Dye', also photos and more complete directions!** CAUTION! The soda ash solution is mildly caustic - Wear gloves & eye protection. See pg. 52 for all of our safety gear! Rinse off at once to avoid skin irritation. Flush eyes immediately & rinse well. Call eye Dr. if irritation persists!
Wear your dust mask when working with all powders! Adults (not children) should mix powders & do the soda soak.

1. FOLD & TIE THE FABRIC

(Tie it damp for crisper designs)
 First, pre-wash fabric in HOT water & Synthrapol, or Prof. Textile Detergent, especially if water beads up on it.

2. THE SODA SOAK:

In a solution of 1 cup (about 8 oz.) of Soda Ash Fixer (SA) per gallon of warm water, soak tied garments until saturated. (Use qtr. strength SA on Silk) Reuse solution until gone. Gently wring out excess, never rinse. Apply dye while damp with the SA.

3. APPLY DYE ANY WAY YOU WANT:

Squeeze bottle, paint brush, sponge, spray bottle, etc. As many colors as you want. Mix about 4 oz of liquid dye total for every adult size T-shirt. See hints below for dissolving dye.

DYE FORMULA:

- 8 oz. cup of 105 ° warm water (NOT hot: -body temperature)
- 2 to 8 tsp. dye
 (Colors with no * = 2tsp.
 One * = 4tsp.
 Two * = 8 tsp)
 Each color is noted with * on pages 6 & 7
- 1 Tbsp. Urea
 (dissolve in a little warm water first - use to paste up dye).
- 1/4 tsp water softener (if needed)
- Super Clear or Sodium Alginate Thickeners "to taste"
 (A little to slow spreading & control color, if desired).

FOR BLACKS, USE A LOT OF DYE AND A TBSP. OF PLAIN SALT/8 OZ MIX, AS WELL AS THE UREA.

4. PUT FABRIC (STILL TIED) IN A PLASTIC BAG:

(the idea is to keep it wet and chemically active - any method of keeping it wet is OK) and let sit for at least 4 hours but preferably 24 hours to "cure". Place the bag in a warm area for deeper & brighter colors, especially in the winter time. Under 70°F is not great.

5. RINSE AND WASH OUT:

Remove from bag & while still tied, rinse off excess dye under COLD running water, then keep rinsing while you untie, until water runs fairly clear. Keep each shirt separate, don't stack them on one another. Add items to a washing machine pre-filled with HOT water & Synthrapol or Professional Textile Detergent (page 13). Not too many items per load or the water gets too muddy, & so will your tie-dyes! Delicate items, especially Rayon, are better hand washed or should go into a mesh bag so the agitation doesn't shred them.

VARIATIONS AND HELPFUL HINTS:

- Use **Water Softener** if you suspect you have "hard" water, which can dull colors. Water chemistry does effect final colors.
- **DO NOT USE HOT WATER.** Hot water to dissolve powder kills many colors! The dyes work best in **warm** (tepid) water (105°). Exception: #250 & 275 Blacks best used with hot tap water - as hot as you can get it, & kept warm while curing.
- **Rinse well in COLD** water after dyeing to get out the fixative and a lot of the excess dye, then wash in **HOT** water & Synthrapol or our Professional Textile Detergent to get out all leftover dye. This is important with tie-dye because it keeps the white and light areas from being stained by other colors. Adding Milsoft to the final rinse restores softness.
- **Completely** dissolve dyes & chemicals in small containers first, then add to the dye bath. Always add liquid to powder.
- Colors that are hard to dissolve (especially reds & mixes with red in it) can cause little "color explosions" on the fabric. To avoid this, dissolve dye completely! Carefully paste the powder up by gradually adding lukewarm Urea water, smashing and stirring; You can also strain dissolved, already liquid, reds & red based colors through some fine fabric, like silk.

TIE-DYE (see our website at dharma trading.com for complete tie-dye trouble shooting):

- In step 3, if weighing dye, use charts on pgs. 6 & 7 - use the oz. recommended per lb fabric for each 8 oz of mixed dye.
- In step 4, any method of keeping the fabric wet is OK (a sealed plastic bag, cover with plastic, plastic box with lid, etc). Keeping the tie-dyes in a warm spot (80°-85° is ideal) helps the batching process to yeild brighter deeper colors.
- Mass produced squeeze bottles can leak sometimes, just a fact of life. Plumber's Teflon Tape is a tie-dyer's best friend!
- To get the best blacks in tie-dye or direct application, use #200, #44 or #300 or a 50/50 mix. #275 needs warmer temperatures. 1 TBS salt per 8 oz. dye solution will darken the black. Use urea & mix the dye strong (4X the dye).
- Optional: after tie-dyeing item, re-tie & use Discharge Paste to bleach out a contrasting pattern. Fancy - add color back in!
- Sprinkle pure dye powder onto tied and pre-soaked items for a different effect (super intense). Check out "Ice Dyeing" & "Bread Bag" dyeing on our website. Shibori is an ancient form of tie-dyeing with the fabric scrunched up on a pole!

TUB DYEING

- For the darkest solid blacks, use one of the "hot water" blacks, #250, 275 or our new HWD #815 on pg. 21, with **1.5 to 2 times as much salt.** Results are even better if you do this: After dyeing, drain & use Dharma Dye Fixative or Retayne (1 oz/lb fabric) in a **HOT** 20-30 minute soak before rinsing & washing. Wash at **LEAST 2 X** to get all the excess black out.
- Extra salt also improves the depth of other dark colors, Glauber's Salt instead of regular salt enhances Turquoise, and brings it out in the mixes containing it (colors marked with a (T)). Heavily chlorinated water inhibits blues.

USING DHARMA FIBER REACTIVE PROCION DYE

THE COLD BATCH OR DIRECT APPLICATION METHOD:

FOR APPLYING & PAINTING THE DYE DIRECTLY ONTO THE FABRIC LIKE A PAINT.
EXCELLENT FOR THE SERTI TECHNIQUE ON SILK, SCREEN PRINTING,
WARP PAINTING, HANDPAINTING, BLOCK PRINTING, STAMPING, STENCILING, ETC.

This is one of the best ways to apply dye directly onto fabric using Dharma Fiber Reactive dye. Dye can be thickened with **thickener** and used like a fabric paint or ink. Without thickener, dye can be used for watercolor, wash effects, and for the French Serti technique of painting on silk. This method does not require any pre-treatment of fabric except your usual pre-wash with HOT water and Synthrapol or our Professional Textile detergent to remove oils and dirt. The fabric must still be "cured" after dyeing, as with tie-dye. After mixing up dye solution, dye must ideally be used up that same day (unless you use our new "hot water" dyes -pg. 21, which keep better in solution but need heat to cure). Some colors go weak within hours. The first step is to make a cold batch chemical water which can be stored a month or more in the refrigerator. Make sure it's sealed and labeled!

The CHEMICAL WATER is made by mixing the following ingredients together:

3/4 cup Urea (dissolve in hot water if necessary)

1 quart water (add a little Water Softener if needed)

Optional: Add Thickener (Sodium Alginate) **gradually** to suit your use, from 1- 4 tsp. Start with one tsp and add more very gradually while you stir to avoid lumps. Easiest in a blender! Allow to set for 2 hours or overnight as it will continue to thicken. Pour off the amount of chemical water needed for each color. Super Clear (pg. 12) is an easier thickener, but it doesn't get as thick.

When you're ready to dye: To each cup (increase or decrease recipe as needed) of chemical water add:

1 tsp. Soda Ash Fixer (use a dust mask and be sure it dissolves)

Dye "to taste" (try a pre-dissolved concentrate and drip & stir until color is right) - use more dye for blacks and dark colors.

Do the above for each color you intend to use. Wear a dust mask when mixing powders. Don't mix more than you need for one work session as the addition of the Soda Ash Fixer starts the chemical reaction and the dye begins to set; the mixture gradually loses strength & 4 to 6 hours later the dye is about half exhausted. Darker colors like black exhaust quickest. Using the freshly mixed dye colors: paint, stencil or print directly onto fabric. Let fabric dry until damp: cover or wrap fabric in plastic to "batch" or otherwise stop the drying process and let sit for:

6 hours for pastels and silk or wool**

12 - 24 hours for deep shades on cotton and other plant fibers

After "batching" for times indicated above, rinse out excess dye in running **COLD** water until it runs pretty clear, then wash using Synthrapol or our Professional Textile Detergent and HOT water to avoid back-staining.

FOR SILKS: **Soda Ash is a mild alkali, & as such, will weaken silk or wool fibers over time. Therefore, don't leave dye/soda ash on the silk longer than 4 - 6 hours. Use 1/4 the amount of Soda Ash on Silk or wool. For those with steamers, use acetic acid (vinegar) or baking soda instead of the Soda Ash above and steam for 30 - 45 minutes, eliminating the risk of degrading the silk.

The color card is for the Procion dyes on cotton. On silk, many colors shift. Best to TEST 1st. Blacks generally **do not yield black on silk. Use a black silk dye like our Acid dyes, or try our new #275- Hot Black, with vinegar and steaming. If you do soda ash and room temp. with Hot Black, it yields a bluish black on silk, gunmetal on wool. Blues don't strike well on silk, so blue mixes shift.

NOTE: Once Soda Ash is added to dye, the mixture has a limited life - it begins to decrease in strength & eventually (some hours later) becomes worthless. If this is inconvenient for you, there is a way around it (except with silk or wool). Follow the tie-dye method: pre-soak & saturate the fabric in a soda ash solution (1 cup per gallon of water). Now leave the soda ash out of the dye mixture. (Dye mixture is water, thickener, dye, urea). Then paint the dye mixture on and set as above. The dye, mixed as above without the soda ash, can be saved for a week or two if refrigerated. Again, label it! Looks too much like tasty punch!

DYEING WOOD, CANE & RATTAN

FOR WOOD CHIPS, SMALL PIECES OF CANE, REED, & ANYTHING THAT CAN BE SUBMERGED:

1. Uncoil or untie so the dye can reach all surfaces. Wash the reed if needed. There cannot be any finish on the material to prevent the dye from seeping in.
2. Determine the amount of lukewarm water needed to completely cover the material and for the material to move around freely. Then for each gallon add one tablespoon of dye (pre-dissolved) and 1/2 cup plain salt. Stir to mix thoroughly.
3. Put the material into the dyebath and agitate (turn) frequently for 20 minutes.
4. Add 1/3 cup of Soda Ash for each gallon of water used.
(Pre-dissolve in hot water and add slowly).
5. Leave in dyebath for up to 2 more hours or until the desired shade is reached.
Remember that the color will be lighter when dry.
6. Rinse under cold running water to remove all excess dye and allow to dry.

FOR WOOD OR OTHER CELLULOSE MATERIAL THAT WILL BE SEALED:

If you are going to apply varnish, Verathane, or another finish coat: The dye need not be "set".

Just mix the dye with water and apply to the wood with a brush or rag. Let dry and seal.

Run tests first so you can get the desired result. Look on our website at our Featured Artists for a couple of examples of wood dyed with fiber reactive dyes. If you do wash the excess off, what is left is absolutely permanent, so has been used on bowls, as well as toys made of wood (toys for children that are dyed wood are subject to CPSIA testing however).

DYEING IN PLASTIC BAGGIES:

A TYPE OF LOW IMMERSION DYEING; VISUALLY VERY TEXTURAL (SIMILAR EFFECTS OF ICE DYEING)

For dyeing small batches of fabric in small containers or plastic bags. Lots of wonderful color "splitting" (into component colors) if you use mixed colors. Useful for those needing lots of small dyebaths, for quilters planning custom fabrics and fabrics that graduate from light to dark or one color to another. Books/DVDs on pg.140-143 describe this well, incl. "Color by Accident" by A. Johnston & "Tray Dyeing" by Morgan & Benn. We have tutorials on our website too.

TIE-DYEING SILK IN A MICROWAVE WITH VINEGAR:

EASIER ON SILK THAN USING SODA ASH

Mix the dye solutions the same as in the SODA SOAK METHOD. Pre-soak the silk in pure white vinegar for 5-10 minutes. Squeeze out excess vinegar and tie the silk into your desired patterns or scrunch. Squirt on the colors as you like. Dye spreads so quickly on silk that you may want to use less dye and/or thicken the dye slightly with Superclear or a TINY amount of Sodium Alginate. Put the silk into a locking sandwich bag large enough to allow for steam expansion. Microwave at full power for 2 minutes. **To prevent bag from exploding**, stop microwave ~every 45 seconds and allow steam to subside. **Be careful** - if bag pops open, it will make a mess! After, let the whole thing cool before handling. Rinse and wash in warm water and Synthrapol or Textile Detergent.

WARNING! The bag and its contents are boiling hot and even the steam can cause burns! Do not handle until cool! This method not recommended for children or people who cannot understand these instructions!

ICE DYEING - TAKING THE WORLD BY STORM: SEE OUR WEBSITE FOR FULL INSTRUCTIONS!

USING DHARMA FIBER REACTIVE PROCION DYE

TUB (SOLID COLOR) DYEING WOOL AND SILK

Silk can be tub dyed with cool water using same method as for cotton which was explained on pg.8. Colors on silk & wool are not as predictable nor the same as on cotton. Mixed colors tend to shift one way or another. Easy compared to hot dyeing - so it's worth trying. Go easy on Soda Ash - limit exposure. **Wool cannot be dyed with the cotton method.** Method below yields beautiful colors on both wool & silk. Fiber Reactive dyes give best results when used on high quality, white, pure virgin wool that's been properly scoured, or 100% white silk. Reused fabrics or yarns may contain impurities which will interfere with dye process. Oils or gum on fabric or yarn will prevent dye from taking uniformly. Silk or wool should be prewashed in HOT water & Synthrapol or our Professional Textile Detergent. Pre-dyed fabric or yarns will be blended with over-dyed color used. Color card is for dyes on cotton. On silk and wool, colors shift, because they are protein, not cellulose. Do a test first as you can get some real surprises! Fiber Reactive blacks generally **do not yield** black on silk or wool. Use a black silk dye like our Dharma or Jacquard Acid dyes, or try our new Fiber Reactive #275- Hot Black. Recipe below is per 1 pound (450 gm.) of dry weight of wool or silk:

1. Place 1 to 5 teaspoons (3-15 gm.) of dye (depending on the shade desired) into a one quart Pyrex measuring cup, add a small amount of warm water & work into smooth paste with stainless steel or plastic spoon. Add 1 cup water at 140 degrees F (60 degrees C) to this dye paste. Stir well to dissolve all dye & pour into dyebath container (should be stainless steel, glass, or enamel, not aluminum or copper).
2. Dissolve 3 to 9 tablespoons (180-270 gm.) of plain salt (depending on the intensity desired) in 2 cups of warm water & add to dyebath. Add fabric. Add enough water to cover material plus a little extra to allow yarn or fabric to move freely in the dyebath.
3. Place dyebath container on stove and heat gradually to simmer (just below boiling) & hold there for 10 minutes, stirring frequently. Add 2/3 cup white vinegar and continue to simmer for another 10 minutes, stirring occasionally.
4. Remove from heat, rinse in hot tapwater and wash with Synthrapol or Professional Textile Detergent. Rinse until free of dye, gradually lowering temperature of rinse water to that room temperature. Remember that sudden changes in temperature can damage the wool and cause it to felt up. **Heat & cool slowly!** Milsoft in the final rinse restores full softness, and then some!

DISCHARGING DYED FABRICS

Get great effects by discharging (removing color from) fabric or clothing in designs & patterns. Discharging can be incorporated into more complex designs by over dyeing other colors or painting, printing or stenciling with opaque fabric paints like Lumiere, Neopaque, & Setacolor. Screen, stamp or stencil discharge pastes on in complex designs! Below are some of the chemicals used for discharging. Fabrics discharge with different chemicals depending on type of fabric & dye used. Different chemicals give different colored results also, depending on dye used as well. Some dyes won't discharge at all. Always provide good ventilation & best to use our Gas/Vapor Cartridges on page 52 when discharging with any of the products below.

DISCHARGING

Some Dharma black garments, scarves & fabrics to consider:

Black Tees & Black clothing ~ Pgs. 98, 99, 100, 101, 104, 106, 109, 114, 122 & 127

Black: Cotton Kona, Pimatex, Lycra Cotton fabrics ~ Pg. 62, 63

Black Silk scarves & Black Silk fabrics ~ Pgs. 69-71, & 73

Black Rayon scarves & fabric ~ Pgs. 64 & 66

Overseas suppliers change dyes they use and as a result we can never tell exactly how each shipment of black items will react to each of the chemicals below. On occasion, they don't, especially silk! Sometimes they go grey, sometimes brown, you never know! As any experienced discharge artist will tell you, be prepared to be surprised! ALWAYS TEST before doing your project!

BLEACH-STOP

SODIUM THIOSULFATE CRYSTALS

Use this to stop the action of bleach. Bleach just keeps on bleaching (rots the fabric!) regardless of rinsing. Better to use this. Use 1 oz. per gallon of warm water & agitate for 15 minutes then rinse.

8 oz. (1/2 cup) 2.59 **#BSTOP8**
 1 lb. (1+ cups) 3.95 **#BSTOP1**
 1 lb. (3+ cups) 10.15 **#BSTOP3**

BLEACH THICKENER

Synthetic thickener for bleach which stays stable for about 24 hours. Other thickeners can be broken down by bleach quickly, and can also foam up. To use bleach to selectively remove color, or discharge designs you should try this paste. Use for screening, stamping, stenciling, etc. Bleach can rot fabric - limit exposure. Not for silk or wool!

8 oz: \$12.95 **#BTH**

DHARMA COLOR REMOVER

THIOUREA DIOXIDE (THIOX)

Reducing agent used to discharge Fiber Reactive dyes & sometimes acid & direct dyes from a whole piece of fabric. Use to remove color all over, or tie fabric in a pattern or Shibori, then immerse in Thiox bath. Can be used to make your own discharge paste. Used with Indigo dye vats. More info on web.

2 oz. _ 2.99 8 oz. _ 6.65
 1lb. _ 10.99 5 lb. _ 49.95 **#CR**

JACQUARD DECOLOURANT

FORMERLY KNOWN AS JACQUARD DISCHARGE PASTE
 NEW IMPROVED

JACQUARD DECOLOURANT

Screen on, brush on, stamp or stencil on for design work, or use for spot touch ups. Gives great interest to tie dye and Shibori. Works best on Fiber Reactive (Procion), Acid, and Direct dyes. Doesn't always remove all of the color - depending on color and type of dye. Safer for silk & wool, & much easier on Rayon than bleach. Releases ammonia, so work in well ventilated area. Apply, let dry, iron with steam, and watch color fade away. Wash afterward. In our tests, this is the best pre-made paste.

8 oz: \$5.49 32 oz: 20.49 Gallon: 71.22 **#DDP**

WHITE DECOLOURANT MIST SPRAY

#DECM: 4 oz.

List: \$7.99 / Dharma: \$6.95 / 5+: 6.39

Works best with dyed natural fabric and non-glossy papers. Spray desired design using stencil or found object. Or tie it up and spray. Allow to dry and iron. More info on our website.

WORKS GREAT ON OUR FRUIT O'THE LOOM BLACK TEES, WHICH WERE MADE WITH DISCHARGING IN MIND! SEE PG. 101

MORE INFO IS ON OUR WEBSITE!

JACQUARD SCREEN INK DISCHARGE

Used with Jacquard Professional Screen Inks to achieve bright, vibrant color on dyed dark fabrics! Add to your screen ink, screen and steam. Gets rid of the dye under the paint. Works only on dyed fabrics. TEST to see if dye used in fabric is dischargeable. Used as a discharging agent on its own, it seems to work better than, or better used in addition to, our regular Discharge Paste on some stubborn colors. See website for more. TEST first!!!

#JSID: 8 oz. bottle:

List: \$13.59 / Dharma price: \$11.99

OTHER INGREDIENTS FOR DYEING

ABOUT THE LABELS ON PRODUCTS WE PACKAGE:

We've always been careful to provide good informational labels on all the products we package. We've avoided selling products we think are serious threats to your health & encourage our suppliers to do the same. Now, to conform to federal laws, our labels make everything sound like deadly poison, even simple things like sawdust & seaweed. The law says you have to warn everyone about everything, regardless of how obvious, stupid or remote the possibility. So, we are now labeled to the "max". Please don't hold it against us. You may find the same product from another supplier with no warnings at all. Same product, different label. The main thing is to use good old fashioned common sense! Use a dust mask when mixing powders, don't get stuff in your eyes, don't eat or drink it, or let your pets & kids snack on it, & ventilate your work area with fresh air. Keep your work areas clean, wear gloves - you know the drill.

SODA ASH FIXER: SODIUM CARBONATE - MILDLY CAUSTIC, SO DO TREAT THIS ONE WITH RESPECT

Fiber Reactive dye must be "fixed" (made permanent) with soda ash. It's a mild alkali that aids the reaction between the dye & the cellulose fibers. About 1 lb. per 4 oz. of dye is needed when garment dyeing or per 3 lbs of fabric as a pre-soak. If you don't use enough, the dye won't yield full strength. A ph of 10.5 is ideal. Also used to "scour" cottons in prewash with Synthrapol. Use with care on silk & wool - 50-70% less, & for less time.

1 lb.: 1.69 **5 lb.:** 5.95 **10 lb.:** 11.25 **25 lb.:** 22.95 **#FIX**
USE CARE WITH PROTEIN FIBERS LIKE SILK AND WOOL. USE LESS, LIMIT EXPOSURE.

UREA: ORGANIC NITROGEN

Recommended for use with Fiber Reactive dye when doing tie-dye, silk painting & printing. Urea is a "moisture drawing" agent which keeps fabric damper longer during fixing process, making for deeper, brighter colors. Need about 1/4 - 3/4 cup per quart of dye solution, depending on technique. Urea is also an excellent dissolving agent - use warm Urea water to dissolve more difficult colors of dye powder to help avoid "freckles", especially with any mixes that have red in them, also for colors like black which need to be very concentrated.

1 lb.: 2.15 **5 lb.:** 8.25 **10 lb.:** 14.25 **25 lb.:** 29.95 **#UREA**

DHARMA DYE FIXATIVE

ANTI-BLEEDING, WASHFASTNESS, WETFASTNESS, ANTI-FADING, ANTI-PERSPIRATION RINSE

Can "fix" some loose dyes & prevent bleeding in commercially purchased cotton or other natural fibers when they're washed. Increases washfastness, resistance to perspiration staining, & resistance to seawater fading. Works with several kinds of dye on natural fabrics or blends. Works great with Fiber Reactive dyes on newly dyed items like tie-dyes as well as store bought colored fabrics that bleed or fade. For tie-dye, after washing & rinsing out any excess dye & soda ash, add 1 oz. per lb. of fabric to new COLD water bath, soak for 15 minutes, rinse, then dry. To stop bleeding or increase depth of shade of solid colors (like black) when tub dyeing, drain dye bath, add HOT water & fixative then soak (agitate occasionally) for 30 min, then rinse & wash in Synthrapol or Professional Textile Detergent.

4oz.: 1.95 **16 oz.:** 4.35 **32 oz.:** 7.95 **Gallon:** 27.95 **4 Gallons +:** 24.49 **#DDF**

SODIUM ALGinate THICKENER: MADE FROM SEA WEED

Sodium Alginate is pure kelp (sea weed). Commonly used to thicken food. Recommended thickener for Fiber Reactive dyes & works as a thickener for other dyes as well. Sprinkle thickener into chemical water slowly, mixing continuously. (Easier in a blender!). Let sit for 2 hours or so to thicken before use. Refrigerate to store. Don't over thicken: thinner is better. We have 2 kinds: **HV** = High viscosity / low solids for cotton, & **LV** = Low viscosity / high solids for silk. The silk one allows you to draw finer lines but requires you to use more for the same thickness. Specify which one you prefer. **If steaming, use with distilled water for ease of removal!**

4oz.: 5.95 **8 oz.:** 9.95 **1 lb.:** 17.95 **5 lbs.:** 79.95 **25 lbs.:** 349.00 **#SA**

SUPERCLEAR®: LIQUID DYE THICKENER

Use this gel to thicken dye solutions when applying directly onto fabric, as in tie-dye or printing, to reduce dye from spreading. Rinses away during wash out of the dyes. To reduce spreading: add 4 or more tablespoons to 8 oz. of concentrated dye solution. To stop spreading: add dye powder to a mix of 2/3 Superclear & 1/3 water. Not as economical as Sodium Alginate, but easier to use!

16 oz.: 6.95 **32 oz.:** 14.35 **Gallon:** 39.69 **4 Gallon+:** 35.75 **5 Gallon bucket:** 144.00 **#SCLR**

CALSOLENE OIL: WETTING AGENT

Liquid wetting agent is very helpful when dyeing tightly woven fabrics or for increasing evenness of dyeing. Calsolene Oil breaks surface tension of water & "wets-out" fabric making it dye more uniformly. 2 Tablespoons per 8 lb. washing machine load (1/2 teaspoon per gallon of water). Add at the start. Can also be added to concentrated dye solutions for direct application as in tie-dye & handpainting - is the opposite of thickener - causes the dye to spread out more - use only drops per 8 oz dye solution.

8 oz.: 3.95 **32 oz.:** 11.65 **Gallon:** 31.98 **4 Gallon+:** 28.89 **#CAL**

DYE LOCK FABRIC SHEETS

Protecting colors in the laundry is always a challenge when dyeing. These 100% American Cotton sheets have been treated to attract loose dyes in water & protect your garment's true colors. Sheet will turn darker after each wash but the top & bottom of the sheet are left untreated so that you can tell just how much dye the fabric has collected! Each unscented sheet is 9x4 inches & good for about 30 washes. Great for daily laundry, too!

TIE-DYE KITS

FIBER REACTIVE PROCION DYE TEENY TINY TIE-DYE KIT

An economical way to try the fun art of tie-dye! Everything you need, except clothing blanks, with easy detailed instructions. It's fun and a good way to spend a day with kids, friends, or family. Party time!

1 kit: \$14.95 each **10+ kits:** \$13.66 each
20+ kits: \$12.36 each

#TTTDK

EVERYTHING YOU NEED FOR TIE-DYEING ABOUT 6 T-SHIRTS

- # 1 Lemon Yellow 1 pair Rubber Gloves
- #13 Fuchsia 3-8 oz Squeeze Bottles
- #25 Turquoise 1 Dust Mask
- 8 oz. Soda Ash Fixer 30 Rubber Bands
- Urea Complete Instructions
- 2 oz. Prof. Textile Detergent

DYE IS FRESHER, BRIGHTER, STRONGER THAN HOBBY SHOP OR CRAFT STORE KITS!

FIBER REACTIVE PROCION DYE SERIOUS TIE-DYE STARTER SET

Everything you need to get started in tie-dye in a serious way, including instructions for various ways to use the dyes. It's not a bad idea to add a few more colors if you like, and maybe a book or DVD, like "Tie-Dye" or "Tie-Dye 101" to expand your design options. It's great fun and a good way to spend a day with kids, friends and family. Dyeable clothing blanks and accessories start on page 65. We have a HUGE selection at great prices, incl. lots of T-shirts! Check it out!

1 kit: \$25.95 each **10+ kits:** \$23.65 each
20+ kits: \$21.36 each

#PROSS

EVERYTHING YOU NEED FOR TIE-DYEING ABOUT 20 T-SHIRTS

- # 1 Lemon Yellow 1 oz.
- #13 Fuchsia 1 oz.
- #25 Turquoise 1 oz.
- 1 lb Soda Ash Fixer
- 1 lb Urea
- 4 oz. Prof. Textile Detergent
- 1 pair Rubber Gloves
- 3-8 oz Squeeze Bottles
- 1 Dust Mask
- 100 Rubber Bands
- Complete Instructions

FIBER REACTIVE PROCION DYE THE LITTLE GROUP KIT

This is intended for a group of up to 50, if each person is dyeing one garment blank or adult t-shirt. Dyeing small stuff? Will do more. The three primary colors will mix into many other colors of your choice. The book provides detailed step by step instructions, photos and help organizing and keeping your dyeing event at low stress when you have lots of people. It produces a super experience with rewarding results!!! Go for it!

GREAT PRICES ON T-SHIRTS! \$47.95 per kit
SEE PAGES 94-106 #PROGK50

** YOU CAN ALSO **CHOOSE YOUR OWN COLORS** FROM 150+ AVAILABLE, OR SELECT (ONLINE) ONE OF OUR 32 SPECIAL COLOR GROUPINGS-#FRDCP - USE #PRSK50 \$36.95 per kit + cost of dye

EVERYTHING YOU NEED FOR TIE-DYEING ABOUT 50 T-SHIRTS

- # 1 Lemon Yellow 2 oz.
- #13 Fuchsia 2 oz.
- #25 Turquoise 2 oz.
- 3 lb Soda Ash Fixer
- 1 lb Urea
- 8 oz. Professional Textile Detergent
- 6 pair Rubber Gloves
- 6-16 oz Squeeze Bottles
- Dust Mask
- 250 Rubber Bands (approx)
- Tie-Dye Book (includes group instructions)

FIBER REACTIVE PROCION DYE THE BIG GROUP KIT

This baby is for the really big group, or group of groups, like at camp, school, scouting, fundraiser or mondo family reunion. Everything said above is true, only more. You can mix an endless variety of colors or customize these 2 kits by choosing your own colors (see below). It's easy and almost no similar activity has such a high probability of producing a positive experience for the kids while being one that the organizer can survive. Enjoy! It's great fun!!!

GREAT PRICES ON T-SHIRTS! \$72.95 per kit

TIE-DYE CORDS CORDS IMPREGNATED WITH DYE!

Package of 30, three foot lengths of cord. Use on any cotton or rayon clothing. Just tie up the fabric using the cords and drop into simmering HOT water. Complete instructions included. No mess, no fuss - fun & safe for gloved children over 12 with adult supervision. Each T-Shirt can be done using 6 to 9 cords, so each package can do as many as 3 to 5 T-Shirts. Vary the colors used, and every shirt is an original.

NOW 2 DIFFERENT COLOR GROUPINGS!

#TDC: Tie-Dye Cords 1 colors: Red, Orange, Yellow, Green, Blue and Violet

#TDC2: Tie-Dye Cords 2 colors: Pink, Violet, Black, Blue, Turquoise

Each package of 30 cords: \$10.82 each **10 + packages:** \$9.84 each

TUMBLE DYE TIE-DYE NON-TOXIC

USE FOR: TIE-DYE, SPRAY DYEING, DIPPING, ETC.
USE ON: ALL NATURAL FIBERS (COTTON, RAYON, HEMP, SILK)

Ready to use right away in a spray bottle! Pre-mixed pigment dye eliminates need for fixatives & rinsing. Easy & permanent, for use on fabrics, ribbon, lace, trims, silks, dried flowers, baskets, wood, & paper. Design by spraying, dipping, or painting. After dry, heatset in dryer for 20 minutes or iron with a hot iron. On small projects a heat gun would work. Like all pigment dyes, there's a little fading with first wash. Non-toxic. 10 colors. Mix colors or dilute with water. Demo video is on our website. **Just remember, the Pros use the Fiber Reactive dye. This will not look the same, but it is fun, and fast.

MARBLING CLASS KIT

Technique of marbling involves creating a multicolored pattern of paint that floats on the surface of a gel-like medium. Fabric or paper is then laid on the surface to pick up the floating paint and transfer the design. Jacquard Products has created a Class Pack that allows students to experience this exciting craft. This kit allows students to create elegant patterns on fabric or paper. Kit contains:

- 9 (2 oz.) bottles of NEW Jacquard Marbling Colors (pg. 26)
- 1 lb. of Alum (for pre-treating the paper or fabric)
- 2 oz. bottle of Synthetic Gall
- 4 oz. of Carrageenan (quick-wetting marbling medium)
- Cotton fabric (2 yds. of 61" cotton sheeting)
- 10 droppers for applying paint
- Easy to follow instructions.

You will need to supply: Newspaper strips, shallow pans/trays, a pail & water. Depending on the number of students, you may also want more fabric/paper & eyedroppers.

"EASY DYES" & PIGMENT DYES

"IDYE"

QUICK EASY DYE JOBS

USE FOR: SOLID COLOR DYEING, SINGLE COLOR TIE DYE, QUICK EASY DYE JOBS

USE IDYE NATURAL: ON ALL NATURAL FABRICS LIKE COTTON, SILK, RAYON.

USE IDYE POLY: ON SYNTHETIC FABRICS LIKE POLYESTER AND NYLON.

iDye comes in 38 colors - 30 colors for 100% natural fabrics (such as cotton, silk, rayon, wool, & linen) and 16 colors for polyesters and nylons. Good for quick and easy dye jobs. Easy for beginners. Better than grocery store dyes, NOT as good as our other professional quality dyes, i.e. shouldn't be used on items for infants or very young children. Synthetic fabrics can really vary in the color you get, especially black, which is the hardest color. Very important to read product description and instructions on our website, to see if it will work for your situation. Each iDye packet contains 14 grams (about 1/2oz.) of dye powder & will dye at least 2 to 3 pounds of fabric. For darker colors, more intense color, blends & synthetics, simmer dye bath on stove for best results. Otherwise, dye in a washing machine with regular hot water. Packet dissolves in water, just throw it in.

IDYE FIXATIVE

For use with iDye for natural fabrics. Increases wash fastness, helps to stop bleeding & helps prevent back staining. Instructions on our website. Note: While Dye Fixative will aid in wash fastness, it is recommended to launder dyed fabrics in cold water with like colors.

#IDYEF: 3 oz. List \$4.69 Dharma \$3.49 / 10+ 3.15

DHARMA PIGMENT DYE SYSTEM

TIE-DYE HANDPAINT MARBLE AIRBRUSH BATIK SILKPAINT SERTI TECHNIQUE NO HEATSETTING REQUIRED

Kind of like a dye and kind of like a paint. Use on Cotton, Rayon, Silk, Nylon, Polyester, Synthetics & blends. Fabrics must be without coatings or treatments. Can be used for: painting on silk & responds to salt & alcohol and to tie-dye without chemicals. Squirt, spray, brush or dip, then completely air dry (24 - 48 hrs), to produce washfast results. Also to get low immersion "crinkle" effects. Use for faux tie-dye too! For marbling: play with dilution & use Versatex dispersant (page 27). Add pearlescence using the Pearl Base. For darker, brighter results, put in a hot dryer for 30 minutes on the highest setting or iron fabric briefly. End results usually have a unique "stonewashed" look that is characteristic of pigment dyed fabrics.

DYE (#10 - 80): Concentrated liquid pigment! Mix 1 part pigment to 2-4 parts water. 4 oz. of pigment becomes 12-20 ozs. of full strength dye. Make it up as you need it - more economical! When you require pastel shades, add more water. As with dyes, be sure to wash out the excess. (Must be allowed to totally dry!)

#80 White Base can be added to lighten the color without thinning the dye further. Makes it more like a paint.

#PDYEA: 4 oz.:	9.49	16 oz.:	33.16	#PDYEGAL: 128 oz.:	242.00
5+:	8.65	5+:	30.15	10+:	208.00
10+:	7.92	10+:	27.65		
15+:	7.42				

#85 PEARL BASE: Can be added to make any of the colors Pearlescent. Thicker, so makes it more like a paint.

#PDYEPB: 4 oz.: 9.49 16 oz. (Pint): 33.16
15+: 7.42

#90 RETARDING AGENT: Used to slow the drying time down as when silk screening or when the design idea requires the fabric to stay wet longer.

#PDYERA: 4 oz.: 9.49 16 oz. (Pint): 33.16
15+: 7.42

#95 THICKENER: A powerful thickener used to adjust the consistency of the dye to your taste. It must be mixed into diluted dye with an electric or hand mixer.

#PDYET: 4 oz.: 9.49 16 oz. (Pint): 33.16
15+: 7.42

TUMBLE DYE TIE-DYE

NON-TOXIC

USE FOR: SPRAY DYE EFFECTS, EASY TIE-DYE

USE ON: ALL NATURAL FIBERS:

(COTTON, VISCOSE RAYON, LINEN, HEMP, SILK)

Ready to use! Tumble Dye is a pre-mixed pigment dye that eliminates the need for chemicals and tubs of hot water, squirt bottles, etc. Easy and permanent, it's for use on fabrics, ribbon, lace, trims, silks, dried flowers, baskets, wood, paper, and more. Create your design by spraying, dipping, or painting. After article is completely dry, simply heat set in a dryer for 20 minutes or iron with a hot iron. Non-toxic & environmentally safe. Mix colors or dilute with water for more color options. Good for quick and easy children's tie-dye parties! You should not expect the brilliant colors that are achieved with our professional quality Fiber Reactive dyes.

ACID DYES

2 OZ. DYES UP TO 8 LBS OF DRY FIBER OR FABRIC

DHARMA ACID DYES

USE FOR: SOLID COLOR (TUB, VAT) DYEING AND DIRECT APPLICATION (WITH STEAMING)
 USE ON: PROTEIN FIBERS SUCH AS WOOL, SILK, FEATHERS & HAIR, AND ALSO NYLON

Dharma Trading's own line of Acid Dyes for Silk & Wool! We can give you better prices when we package our own line, as we do with Fiber Reactive Dyes. You have more choices & better prices! Acid dyes are concentrated powdered dyes for dyeing protein fibers & nylon, including silk & wool fabric, yarn, feathers, etc. Paint with it if you fix it by steaming. **Complete directions are on our website.** Use on stovetop or in washing machine. Requires very HOT water to work properly. Use white vinegar as the fixative, or, go odorless with Citric Acid (pg. 13). Acid dyes react fast, most exhaust well, & results are very lightfast & washfast! To develop our color swatches, we used 1.5% of weight of goods (~2.25 tsp or .25 oz dye/lb. fab), except for Black* & Dark Navy*, which took 4% OWG. Use more or less to get darker or lighter colors. Colors will look different on silk than wool, so always **test!** See chart on website for properties of individual dyes. Few of the colors are more difficult to get an even dye job & benefit from Ammonium Sulfate (pg. 13) as a "leveler". Comes in: 2 oz., 8 oz., and 1 lb. jars, or, for bulk savings, you can order 5#, 10#, etc.

INDUSTRIAL DYES

Dyes widely used in laundries, state organizations, prisons, hospitals, industrial sites where large quantities of cotton, rayon, linen, etc. clothing, rags, or towels need to be colored or color coded. Water soluble 8 oz bags get thrown into a hot water washing machine load for 15-30 minutes. Use 1 lb. per 100 lbs. of fabric. Not as long-term washfast or as bright as our other dyes, but these are easy & cheap. **The Black** is an easy way to return faded black clothing items to looking blacker again! HINT - Soaking after the dye bath with HOT water & Dharma Dye Fixative (pg. 12) helps the color to be more washfast. Wash dyed items in cold water (after dyeing & future washes) to remove excess dye. 9 COLORS: Red, Orange, Yellow, Green, Blue, Navy, Violet, Black, Brown. See Color Card 2 in front of catalog for color swatches.

1 lb (in 8 oz paks) Dyes 100 lbs \$6.89 #ID-1
 30 lb. Case (in 8 oz paks) \$185.55 #ID-30

INDUSTRIAL POLYESTER DYE

USE FOR: Tub Dyeing large quantities for quick color, where brilliance & longevity is not an issue. More info on our website!

USE ON: Polyester, Nylon, Acetate & other synthetics that are not fireproofed, waterproofed, or otherwise treated.

Does not work on Gortex, Kevlar, Teflon or similar fabrics. Industrial Dyes for Polyester are used anywhere that large quantities of synthetic clothing (Uniforms), rags, towels, etc. need to be colored or color coded. Toss dissolvable dye packs (at ~1.5% OWG) & liquid Carrier (at 4% OWG) into a HOT washing machine with goods to be dyed. No messy powder to measure. Can be combined with Industrial Dyes (#ID) above in same load for 50/50 blends, etc. Color swatches on Color Card 2 in front of catalog.

ACID DYES

JACQUARD ACID DYES

USE FOR: SOLID COLOR (TUB, VAT) DYEING
USE ON: SILK, WOOL, ANY HAIR AND NYLON

*ONE HALF OUNCE DYES UP TO 2 LBS OF DRY FABRIC.

SEE COLOR CARD PG 2 IN FRONT OF CATALOG

Powdered dyes made for dyeing protein fibers, nylon, feathers, skeins of yarn, and tub dyeing silk fabric yardage. Complete directions on our website. Use on top of your stove or in a washing machine, but they do require very hot water to work properly. Also needed is white vinegar or citric acid as the fixative. Very economical. React fast, exhaust well, and results are brilliant, and fairly washfast. (Always launder in COLD water) *For darker colors use more dye than above, up to 3 oz per lb for darkest blacks, etc.

3 sizes: 1/2 oz., 8 oz., & 1 lb. jars. If you buy 5 or more of the SAME color in the 1 pound size, we offer a price break on each pound.

#AD : 1/2 oz. : all colors / List price: \$4.99 / Dharma price (1-9) : \$3.39

NATURAL (PLANT/BUG) DYES

Dyes must be used with a mordant to prepare fabric so that dye does not wash out. Not better for the environment; depends on the mordants used. We try not to carry the most toxic mordants. Use these dyes with a good book (see back of catalog book section)! Color results vary depending on fabric, mordants used, temperature & time. Work on all natural fabrics. Indigo is a Vat Dye & has to be reduced, then oxidized. See our website for instructions. You'll also need Soda Ash & Color Remover (Thiox) with Indigo.

***IMPORTANT: KAMALA: DOESN'T WORK ON PLANT BASED FIBERS.

"BOTANICAL COLORS" NATURAL DYE POWDER & LIQUID EXTRACTS

The Natural Dye Powder & Liquid Extracts from "Botanical Colors" provide unique qualities of natural dye with a much greater ease of use. Instead of having to pre-soak or grind your dye stuffs, you can simply measure out your powder or liquid. Liquid & Powder Extracts are much more predictable than starting from raw plant material, so they make repeating colors and dyeing on a larger production scale more feasible. For both powdered & liquid Natural Dye extracts, you'll still need to mordant your fabric. Alum and sometimes Cream of Tartar are recommended, also the new mordants below. Instructions & colors on our website. Larger sizes - 1 lb powdered or 16 oz liquid, are available by special order only - allow several weeks production time for special order sizes.

NATURAL DYE EXTRACT KIT - POWDER: #NDKP

5 natural dye extracts plus alum & cream of tartar. Perfect starter kit for an easy introduction to natural dyes. Each extract is in a concentrated, easy to mix powder & comes with complete instructions. Will dye approx. 2-4 lbs. of natural fibers. Kit includes: Cochineal, Logwood, Cutch, Fustic, Saxon Blue, Alum, Cream of Tartar. #NDKP: \$53.95

NATURAL DYE EXTRACT KIT - LIQUID: #NDKL

Convenient & easy to use. Dye is concentrated liquid extract that comes from leaf, root, bark or other natural source. Kit includes: Lac, Pomegranate, Himalayan Rhubarb, Indigo, Cutch, Pom-Tannin Mix, Alum, instructions, liquid dispersant. #NDKL: \$53.95

***IMPORTANT: AQUARELLE SAXON BLUE: DOES NOT WORK ON PLANT BASED FIBERS.

THE REAL DEAL!

DHARMA LANASET DYES FOR PROTEIN FIBERS

NEW, for Wool, Silk, Nylon & other protein fibers & fabrics. The real deal, pure, fresh from the manufacturer, no subs, not cut. More permanent than regular Acid Dyes, washfast even in hot water, and completely intermixable to get any color or shade you want. Very concentrated mix of 1:2 metal complex, acid & reactive dyes with the highest wet & lightfastness. A lot of wool dyers prefer Lanaset to regular Acid Dyes, as do felters who use hot water in their felting process, as the Lanaset won't bleed, but the Acid Dyes will. Comes in sizes: 2 oz., 8 oz., 1 lb., 5 lbs. & 10 lbs.

Dyeing with these superior Acid Dyes does not have to be a big mystery. We have complete instructions on our web site. What is different in procedure between these and our "regular" Acid Dyes is that they are more difficult to get even and level for solid color dyeing because they can "strike" so quickly. That is where the AlbeGal Set comes in, and sometimes, Glauber's salt (pg.13). Also, frequent, especially steady stirring helps a lot. But if that is not the effect you are going for, you can actually use these just the same as the regular Acid Dyes. You can dye on a stove in a bath, or paint and steam.

* means use two times as much dye to get it dark. So if using 2% OWG (of weight of goods) to achieve medium depth of the rest of the colors, use 4% for *

ALBEGAL SET

Chemical formulated for use with Lanaset Dyes. Affinity for both dye & fiber. For all shade depths 1% AlbeGal Set is used at liquor ratios from 8:1 to 25:1. Below 8:1 amount should be reduced to 0.5%, above 25:1 it should be increased. AlbeGal Set improves compatibility of Lanaset dyes, promotes migration & exhaustion, & helps to ensure fiber & surface levelness. Effects can be improved further by addition of 5-10% Glauber's salt (recommended for dyeing yarn & piece goods). Lanaset dyes are a bit more complicated to use than regular acid dyes, so see our website for complete instructions. Comes in sizes: 16 oz., 32 oz., 1 gallon.

- #ALSET16: 16 oz. : \$13.95
- #ALSET32: 32 oz. : \$23.95
- #ALSETGAL: 1 Gallon: \$79.95

DHARMA HOT WATER FIBER REACTIVE DYES

Here's a selection of some different Hot Water Fiber Reactive Dyes that "play well" together. Have chemical reactivity in the presence of Soda Ash (pg. 12) like the "cold water" Procion type Fiber Reactive Dyes. Because of the heat requirement (dye baths should ideally be 130-150° F), these dyes work better for solid color "tub dyeing" than for colder water techniques like tie-dye & batik. BUT, you can use them for tie-dye & low immersion techniques if you batch (cure) them really warm, like all day in the sun under black plastic, or under an electric blanket (in the winter). More time makes up for less heat. Otherwise, use them just like our other Dharma Fiber Reactive (Procion type) dyes, same recipes. Use all the colors at 2% OWG for a medium shade, except the blacks** (8% OWG). See more info & instructions on our website. Comes in sizes: 2 oz., 8 oz., 1 lb., 5 lbs., & 10 lbs.

SEE COLOR CARD PAGE 2 IN FRONT OF CATALOG

EXCEPT BLACK, ONLY 2% OWG REQUIRED FOR MEDIUM SHADES!

- #HWD2: 2 OZ.
- #HWD8: 8 OZ.
- #HWD1: 1 LB.
- #HWD5: 5 LBS.
- #HWD10: 10 LBS.

ADVANTAGES OF USING THESE DYES:

- *They store longer (up to 6 months!) than "cold water" dyes once mixed with water. (Powder has a longer shelf life too.) No need to toss unused dye stock!
- *Blacks are darker (if you have used our Procion 250 or 275, they are of this type actually - we have always wanted folks to have the option of darker blacks)
- *NEW Ebony Black - adding to our stable of blacks - a VERY dark reddish black
- *NEUTRAL GREY - what you have all been asking for - NOT a mix, doesn't split! Can be used for tie-dye or ice dye if cure long enough. Same with the Red Violet, and every color where it doesn't say "mix" after the name - rest are pure, uncut!
- *BRILLIANT BLUE is the closest dye to a perfect Blue we have EVER seen!
- *Some dye houses have switched to this dye instead of Procion type dyes because these dyes use less water to wash out the excess, if they are well fixed with enough heat, & you're not using too much, so if you are conserving water...
- * Will also dye silk & wool using acid, hot dye baths or steam, just like Procion
- ** means use 4 times as much dye to get it dark. So if using 2% OWG (of weight of goods) to achieve medium depth of the rest of the colors, use 8% for **

FOR NATURAL DYEING!

JACQUARD POTASSIUM ALUMINUM SULFATE

Preferred by some natural dyers to mordant fabric for natural dyes over our regular Alum (Aluminum Sulfate). Some experts say it gives brighter stronger colors for natural dyeing. Directions for use are the same. Use 1.75 tsp per lb. of fiber for natural dye baths.

- 1 LB: List \$7.59 / Dharma \$5.95
- #JACAL: 5 LB: List \$31.99 / Dharma \$24.95

JACQUARD SODIUM HYDROSULFITE

Handy reducing agent for your indigo vats! Tired of waiting for your indigo vats to produce a flower? Want to jump into dyeing fast? This reducing agent will give you a quicker reaction and better color performance (especially on silks & wools). Comes in 1 lb. size. Lots more info on our website.

- #JACSH: 1 lb.: 1-4: \$8.49 / 5+: \$7.75

PRE-REDUCED INDIGO CRYSTALS

Indigo color in an easy to use form! Natural Indigo takes a huge amount of effort to get into a working dye bath. As an alternative, try this Pre-reduced Indigo. Add Sodium Hydrosulfite, or Dharma Dyehouse Color Remover; aka Thiox; aka Thiourea Dioxide. Lye is replaced by Soda Ash (a milder alkali). See our website for complete instructions.

- #PRIC: 3 Sizes: 3/4 oz: \$5.89 8 oz: \$25.19 1 lb.: \$48.95

THE INDIGO DYE KIT

Fun! Great group activity! Brings ancient art of Indigo dyeing to home dyer in a user friendly formulation. Each kit contains: Pre-Reduced Indigo 20 grams, Reducing Agent 150 grams, Gloves - 1 pr., Rubber bands, 2 wood blocks, Quick Start Instructions, Instruction Booklet with dye patterns & historical & cultural overview of Indigo.

- #JIDK: List: \$13.59 / Dharma price: \$8.72

"SUNPAINTING" DYES

JACQUARD™ SOLARFAST DYES

SolarFast dyes (in 14 colors) are used to create photograms, continuous tone photographs, shadow prints, & ombres on fabric & paper. SolarFast is also great for painting, tie-dyeing, screen printing, stamping, batik & more! You can't see the color until it develops in the sun. Fun to watch, like MAGIC! Permanent on all artist papers & natural fabrics, including cotton, linen, canvas, silk, hemp, & wool. Color is washable & lightweight, leaves fabric completely soft. Non-toxic, safe for kids. Make the coolest quilts or t-shirts using old photo negatives. Great as gifts for the family & family reunion projects! Takes a little practice - see detailed instructions, video & helpful tips on our website!

SEE COLOR CARD PG 2 IN THE FRONT OF OUR CATALOG. FOR COMPLETE INSTRUCTIONS & FREE VIDEO SEE OUR WEBSITE!

JACQUARD SUPER FAST ACID DYE FOR WOOL

For difficult to dye protein fibers like wool, mohair, feathers or nylon. Unlike typical acid dyes, Jacquard SuperFast Acid Dyes are all premetallized (also known as "metal-complex dyes"). Premetallized dyes strike faster than other dyes & have excellent washfastness & lightfastness properties, making them especially well suited for wool. Colors don't migrate once fixed so it's especially important to agitate constantly when immersion dyeing. **Please Note: These dyes are Special Order items. If a total of 6 or more are ordered we can have them Drop Shipped & there will be no delay. Otherwise, for special orders, up to two weeks delay.

SEE COLORS ON OUR WEBSITE.

JACQUARD BASIC DYE

USE ON: Acrylic, wood, reeds, straw, hemp, potpourri, wigs, buttons, shell, bone, dried flowers, bamboo!

For difficult to dye substrates. Developed especially for acrylic fibers. Easy to use dyes! NOT intended for use on anything used to serve food or toys for infants or children or pets. May be used to color a variety of fibers (including silk & wool), but because they tend to have poor lightfastness & washfastness ratings, they're generally only used when other dyes (such as acid dyes or fiber reactive dyes) are not an option. Much more lightfast on acrylics, which is what they were developed for. **Only available in 1 lb. sizes & through our Special Order program. If a total of 6 or more are ordered we can have them Drop Shipped and there will be less delay. Otherwise, for special orders, up to two weeks delay. **See our website & read description tab for special safety precautions when using this dye.

SCREEN PRINTING KITS & SUPPLIES

Screen Printing (serigraphy or silk screening) is the preferred way to print a logo, text or artwork repeatedly on fabric (or almost any flat surface). A screen is imprinted with your design and then placed on fabric, then paint is forced through the screen mesh onto the fabric. Several methods of creating screens each with its pros and cons. Below are kits & supplies for all the methods. More info & example photos of different techniques on our website. We also have a few great books that get into the details. The kits below come with instructions.

ADVANCED ALL-IN-ONE SCREEN PRINTING KIT

USE ON: ALL NATURAL & MOST SYNTHETIC FABRICS, WOOD, PAPER, & CARDBOARD

Photo emulsion method is one of most exciting techniques of screen printing, offering a wide range of possibilities. Allows for fine line drawings, various lettering techniques & photographic half-tone positives. "Can I screen print straight out of the box?" Yes you can! This box comes with everything!

- 10" x 14" Screen Frame
- Printing base unit with hinges & kick leg
- 9" Squeegee
- Lamp & clamp
- 250 Watt Photo Flood Bulb
- 4oz Photo Emulsion
- 1g Diazo Sensitizer
- 4 oz. Photo Emulsion Remover
- 4oz Black Fabric Ink
- 4oz White Fabric Ink
- 4oz Red Fabric Ink
- 4oz Blue Fabric Ink
- 4 - Craft Sticks
- 2 - 8.5" x 11" Transparency Films
- 9.75" x 13.75" Black Paper
- Instructions

JACQUARD OPAQUE SCREEN PRINTING KIT

Pro quality screen printing kit. For use on darker backgrounds, superior quality opaque inks have longer open time in the screen in comparison to other waterbased products.

Fabrics must be heat set for permanence. Kit includes:

- 10" x 14" prestretched silk screen with lacquered wood frame
- 9" wood handled squeegee
- 4 oz. jars of Jacquard Professional Screen Inks (1 each: Opaque Blue, Opaque Red, Opaque Yellow, Super Opaque White)
- 4 oz. photo emulsion
- 1/3 gram diazo sensitizer
- 3 acetate sheets
- stir stick
- instruction booklet in 3 languages (English, Spanish, French)

JACQUARD PROFESSIONAL SCREEN PRINTING KIT

Semi Transparent Colors is a pro quality kit suitable for beginners & pro screen printers alike. For printing on lighter backgrounds, superior quality inks have longer open time in the screen in comparison to other waterbased products. Ideal for use on fabric, vinyl, metal, leather, paper, wood, plastic, & canvas. Fabrics must be heat set for permanence. Kit includes:

- 10" x 14" prestretched silk screen with lacquered wood frame
- 9" wood handled squeegee
- 4 oz. jars of Jacquard Professional Screen Inks (1 each in Red, Blue, Yellow, Black)
- 4 oz. photo emulsion
- 1/3 g diazo sensitizer
- 3 acetate sheets
- stir stick
- instruction booklet in 3 languages (English, Spanish, French)

JACQUARD SCREEN LIFE

An additive for extending the length of time a waterbased screen ink or paint can remain wet while screen printing (also referred to as "open time"). Add 1 teaspoon of Screen Life per 16 ounces of paint or ink and mix well before using. Works great with Versatex Printing inks! Check out Jacquard's video on our website!

#JACSL: 4 oz.: \$4.49 / 5+: \$3.95
 8 oz.: \$6.49 / 5+: \$5.76

JACQUARD SCREEN FILLER & BLOCK OUT

Used to fill in tiny holes mesh screen so that ink can not pass through. Can be used to repair existing emulsions screens or hand paint a design negative directly onto a screen. Formulated to work with Jacquard's Drawing Fluid. More info on our website. **#JACSF:** 8 oz.: \$8.39 / 5+: \$7.69
 16 oz.: \$14.49 / 5+: \$13.29

ALUMINUM SQUEEGEES

Jacquard's high-quality, lightweight graphic squeegees in 2 sizes: 9 inch & 12 inch. 80 durometer, polyurethane squeegees with contoured aluminum handles for comfortable grip & consistent printing. Polyurethane blades are firm, durable & impervious to acids, turpentine, thinners & other chemicals, making them ideal for all types of ink, as well as dye & chemical systems. Made in the USA!

PHOTO EMULSION SHEETS

We knew there was a need for less expensive emulsion sheets in greater quantities. So, we tested a bunch of different types and settled on this one. Sheets are 38 microns thick, same as Yudu Emulsion Sheets, and they're green (though color of emulsion is important only aesthetically). Available in 11"x14", 15"x17", and now 8"x10" and 4"x5". Sheets can also be cut down to smaller sizes. Exposure times will vary depending on exposure unit, but with the (now discontinued) Yudu exposure system we found that 14 minutes is the sweet spot. Sheets do have a shelf life of approx. 6 months when stored in cool DARK place. Reacts with light! Keep away from light sources until ready to use! Directions & info on our website.

SIMPLEXITY SCREEN INKS

USE FOR: SCREEN PRINTING, HAND PAINTING, BLOCK PRINTING, STENCILING, STAMPING

USE ON: ALL NATURAL & MOST SYNTHETIC FABRICS, PAPER

From the maker of our awesome Pigment dyes comes a new line of screen inks! SimpleXity is a water based, artist grade screen printing ink intended for serigraphy. These inks have a long screen open time & are perfect for use on fabric as well as water color papers to create beautiful prints. On textiles it will need light heat setting with a household iron to achieve the best wash fastness. Made in the USA! Sizes: 8 oz. or 16 oz. See our website for color swatches.

VERSATEX PRINTING INK

USE TO: SCREEN PRINT, PAINT, BLOCK PRINT, STENCIL.

USE ON: MOST FABRICS.

Used by professional printers because of strength of color, permanency & softness. Thick & creamy consistency. Heavily pigmented but won't change texture & softness of fabric. Colors are intermixable, water soluble, somewhat transparent, & work best on light fabric. Colors are deepest when applied at packaged strength & become permanent when heatset (see pg. 31). Add Extender for pastels & translucent overlays. Mix colors with white for opaque pastels. Will effectively print over light tones but won't hide dark tones. Even softer & easier when used with our fabulous No-Heat Fixative! (#VFIX - see pg 31). Lots more info on our website.

JACQUARD PROFESSIONAL SCREEN PRINTING INKS

Best extended open screen time! Has good body & screens beautifully with excellent resolution. Slightly stiffer hand than Versatex, but many benefits! You can use the Softening Additive below to solve that. Especially well suited to commercial applications. Inks designed for all surfaces & are permanent on most. Sticks to almost anything - even linoleum, which is great for block printing! Choose from a nice assortment of regular, metallic, opaque & "process" colors.

JACQUARD SOFTENING ADDITIVE

Used to soften the hand of waterbased screen inks on fabric. When printing on lightweight fabrics, a softer print may be desirable; Jacquard Softening Additive can make that happen. As it may affect the viscosity of the ink, please be sure to test! Add 5 - 7.5% by weight of Softening Additive to Jacquard Professional Screen Inks (2.5 - 4.5 teaspoons additive per 8 oz. ink), mix, & let rest for 5 - 10 minutes before printing. Two sizes: 8 oz. & 32 oz.

MARBLING & MARBLING INKS

Marbling looks like the veins of color in natural marble stone. An art form around for a long time - old books have marbled endpapers. Float fabric paints on surface of prepared thick liquid ("Size"). Concept of "oil on water". Floating paints can be swirled & mixed into patterns. Lay a treated shirt or piece of fabric down on top of the paint, & paint adheres to fabric exactly where it touches. Swirly patterns of colored paint are transferred to shirt or fabric. Rinse, dry & heatset if the paint being used calls for it. Each design is unique & can never be repeated. Easy to do, great fun for kids & safe. Results improve as you gain experience with each project.

MARBLING SUPPLIES:

CARRAGEENAN (Blender type): **#CGN**
 8 oz. 1.5 cups (makes about 12 Gal.) 32.85
 1 lb. 3 cups (about 24 Gal.) 59.95
 5 lb. 15 cups (about 120 Gal.) 279.99

 25 lbs. (about 45 cups) 53.95

METHOCEL (Methyl Cellulose): **#METH**
 8 oz. 15.95
 1 lb. 23.50
 5 lb. 105.57
 25 lbs. (about 45 cups) 424.95

SYNTHETIC GALL

#JMC2: 2 oz. **#JMC8:** 8 oz. **#JMC8:** gallon (see prices below)

HOW MUCH YOU'LL NEED:

For fabric 36" x 36" you'll need a frame 38" x 38" filled 2" deep which requires about 7 gallons of size. 2 tablespoons of carrageenan makes a gallon of size. To do fabric that's 18" x 72" you'll need a frame 20" x 74" also using 7 Gal. of size. A roasting pan filled 2" deep uses less than a gallon. You'll have to change the Size periodically. Use about 3 tablespoons of Alum per quart of water to presoak fabric. Estimate how many quarts you need to soak your items & you'll know how much Alum you need. Adding dispersant and water will help non-floating paints float.

THE "GIVE IT A TRY" MARBLING STARTER SET

Contains: • 4 oz. of Carrageenan
 • 8 oz. of Alum
 • 4 - 2 oz. jars of NEW Jacquard Marbling Colors (Your choice of any 4 colors BELOW).
 • 2 oz. Synthetic Gall • Instruction leaflet.
 List: 40.77 / Dharma: \$27.80 New lower price! **#MSS**

WHAT YOU'LL NEED:

- **Alum** (Aluminum sulfate)
For preparing your fabric.
- **Carrageenan**
For making the jelly-like solution that the paints float on.
- **Methocel** (Methyl Cellulose)
Same - A bit harder to use but lasts longer in hot weather
- **Dispersant**
Help paint float better.
- **Large, flat, shallow tray.**
Should be big enough to lay your fabric, scarf or clothing down flat onto the surface.
- **Straws, sticks, toothpicks, combs, hairpicks, etc.**
To swirl colors around with, and comb out patterns.
- **Eye Droppers**
To apply the paint or ink. One for each color.
- **Fabric Paints:** any of the following: Jacquard Marbling Colors - BEST, Setacolor Transparent, Pigment Dyes, or Dr. Ph. Martin's Spectralite. Within each brand some colors float better than others. Test, test, test!
- **Book or a class**
Some way to learn how to do it. We have a great DVD that is a fun way to learn!

CAUTION!

Alum + Heat = Rotted Fabric
 Too much Alum or Alum left on the fabric too long will cause your fabric to rot. Refer to an instruction book for definition of "too much" and "too long".

DISPOSABLE PIPETTES

Pack of 10 soft plastic dropper disposable pipettes. For accurate or repeat measures & to prevent spills & precisely place even the thinnest amount of liquids. Great for marbling! **#PIP10:** $\frac{1-4}{\$2.89}$ $\frac{5+}{\$2.52}$

NEW & IMPROVED JACQUARD MARBLING COLORS

Jacquard has been working diligently to improve your marbling experience! The NEW Jacquard Marbling Colors are formulated for ease of use & professional results. All colors spread equally (except black, which spreads more deliberately, & is usually used first) on the marbling size & have good adhesion on any porous or semi-porous substrate. No more problems with some colors sinking & some spreading too much! All colors can be mixed to create new colors. Use on paper, natural & synthetic fabrics, wood, leather, canvas & more! Synthetic Gall (use instead of the older Versatex Dispersing Agent) gives marblers total control of their colors & allows for adjustments in how much one color spreads in relation to another. On fabric, colors are soft, permanent & washfast after heatsetting. 2 oz, 8 oz. bottles or drop-shipped gallon size for serious marblers. See Color Card pg. 5 or our website for color swatches!

JACQUARD MINI MARBLING KIT

If you've ever wanted to try marbling, this mini kit with it's excellent instructions walks you through the process to produce beautiful results on fabric or paper with ease. Everything you'll need is included to use on your own fabric.

Kit includes:
 6 - 1/2 oz. Jacquard Marbling colors (Red, Yellow, Violet, Blue, Black, White)
 1/2 oz. ml Synthetic Gall
 4 oz. Alum (mordant)
 1 oz. Carrageenan
 Complete Instructions

As of June 2015, Jacquard's Marbling Kit has been improved in the following ways:
 Replaced Methocel with Carrageenan, which produces finer marbling lines & allows the paints to perform better. Balanced all colors to produce even spreading & maximum depth of color. Replaced Green (easy to mix with provided colors) with a vivid Violet (difficult to mix with provided colors). Included Synthetic Gall for greater control & special effects. **Improved floating of every color.**

JACQUARD AIR BRUSH INK

USE TO: AIR BRUSH, FAUX TIE-DYE, SPRAY, CUSTOMIZE SNEAKERS
 USE ON: MOST FABRICS, MOST SNEAKERS, WOOD, LEATHER, ETC.

Inks developed specifically for airbrush applications. Available in Transparent, Opaque & Metallic colors, all are water based & intermixable. Colors will work on almost all fabrics, leather, wood, plastic, & metal. For use on non-porous surfaces, light sanding may be required, & bare metal may need a base coat of primer. Heat setting with a heat gun, dry iron or heatpress is recommended for permanency. All colors are non-toxic & pigment dense. These inks are dancing the light fantastic on some pretty amazing sneaker transformations out there - try it!!!

NON-TOXIC

JACQUARD AIR BRUSH CLEAR VARNISH

Protect paint on metal, plastic, ceramic & other hard surfaces. As topcoat on nonporous surfaces for added durability. Spray varnish onto completely dry, painted surfaces using approximately 40 psi & a nib size no smaller than 0.5 mm. Thin with water if necessary. To accelerate drying & for a more durable finish, carefully apply light heat with a heat gun. Clean up with water.
#JAB1V: List: 10.49 / Dharma: 7.95

DR. PH. MARTIN'S SPECTRALITE PAINTS

USE TO: AIRBRUSH, MARBLING, PAINTING, ILLUSTRATION
 USE ON: MOST FABRICS, PAPER, CANVAS, LEATHER, WOOD, METAL

An excellent ink for painting, airbrushing, marbling & airbrushing. Leaves no "feel" on silk. Use on fabric, leather & more. Has more pigment than other paints so it covers better & faster. Gives knock-out colors. Water based, non-toxic & very fast drying. High quality pigments make it usable in mechanical pens. Highly resistant to fading from light with no fixative needed. For artwork that won't be washed, it's lightfast & water-resistant when dry. Made in the USA!

NON-TOXIC

TSUKINEKO ALL-PURPOSE INK SETS

NON-TOXIC

USE TO: DRAW OR PAINT, STAMP, AIR BRUSH, SPRAY, SHAVING CREAM MARBLING
 USE ON: MOST NATURAL FABRICS AND OTHER POROUS SURFACES

Tiny bottle full of powerful color! Blendability, washability & versatility have made this quick drying craft ink a fast favorite among fabric artists. Use on fabric, leather, wood, paper & other porous surfaces. All-Purpose Inks are waterbased & non-toxic, making it fun for artists of all ages. Archival & acid free. When used on fabrics, heatset between color applications to prevent bleeding or layer colors to achieve a blended "watercolor" effect. For permanence: when finished with your design, heatset the inks with a hot iron (as hot as the fabric will withstand) for approximately 2 minutes per side. Then **let it sit for a week** to cure before washing. Following these few steps, you'll be able to wash the material multiple times & not experience any fading. For best results we recommend using 100% cotton or silk. 6 different sets available with different color combinations. Every set includes: four 15 ml bottles of Tsukineko's All-Purpose Ink, 4 Pointed tip & 4 Round tip Foam Core Dye Pens, 2 ink wells, 1 ink dropper, & a stand for the foam core dye pens.

4 COLOR SET SELECTION:

SPEEDBALL FABRIC BLOCK PRINTING SET 6 COLORS

Print on a range of fabrics with bold, opaque color that dry to the touch overnight. Excellent on cotton, polyester blends, linen, rayon, other synthetic fibers as well as paper & wood. After letting it dry, wait 4-7 days for curing & they are ready for the wash & will remain permanent, with no heat set required. Ink won't crack or peel over time. Designs will remain soft on fabric as ink penetrates fibers rather than just sitting on top. No crusty, flaky old printing inks here! 6 piece set includes one 1.25 oz (37 ml) tube of each of the following colors: Red, Blue, Yellow, Green, Black, White

GELLI ARTS GEL PRINTING PLATES

Use it over & over again! Has a very sensitive surface & will imprint any texture it's covered with. For waterbased fabric paints for fabric. See demo video on our website! Not recommended for use with dyes (such as rubber stamp inks, spray inks & fabric dyes) as the gel will absorb some of the dye & become permanently stained. However, stains will not affect printing performance. 6 sizes available.

#GAPP	List	1-4	5+

EASY CUT PRINTING PLATE

Synthetic, rubber-like printing plates with a soft, smooth, easy-to-cut surface that will not slip or crease while cutting or marking thanks to its tacky, adhesive backing. With a thickness of approximately 1/8" you won't find it hard to cut & carve your designs out. Come in 4" x 6" & can be cut easily with a pair of scissors into any shape! Peel off backing, stick plate to a flat surface (like an acrylic or wooden block), trace your pattern, carve it out & start stampin'!

#ECPP	1-4	5+
4" x 6"	3.99	3.59

SPEEDY STAMP KIT

Make your own personalized stamps. Make stamps from photos, drawings or computer artwork. Contains: 4" x 6" Speedy Stamp block, Lino handle, No.2 & No.4 cutters, tracing paper & detailed instructions. Makes 1 stamp.

#SSKIT	List	\$13.99	/	Dharma: \$10.95
---------------	------	---------	---	-----------------

SPEEDY STAMP BLOCKS

Eraser like material makes these blocks faster, easier & safer to carve using linoleum or other carving tools. Use to make your own stamps or blocks.

3" x 4"	\$2.99 / 10+	2.45	#SSCB3
4" x 6"	\$4.99 / 10+	4.09	#SSCB4
6" x 12"	\$14.99 / 10+	11.95	#SSCB6

MOUNTED LINOLEUM BLOCKS

Smooth, lino surface for sharp, crisp edges gives excellent reproductions. Quality mounting block resists warping when exposed to water. Use to carve into printing blocks. Scuffing up surface allows fabric paints to adhere better.

3" x 4"	\$1.85 / 10+	1.55	#MLB3
4" x 6"	\$2.95 / 10+	2.49	#MLB4
6" x 8"	\$5.49 / 10+	4.47	#MLB6

ECO KARVE PRINTING PLATE

RECYCLED! NON-TOXIC! LATEX FREE!

Eco Karve Printing Plates are made of 100% recycled rubber material, like an eraser & are completely non-toxic & latex free. Each block is smooth & pliable & will remain that way indefinitely! It has a similar feel to a giant, flat eraser - so you can imagine how well it holds onto a flat, smooth surface while you carve or print your designs. The 4"x6" Eco blocks have enough give to be easily carved & they're so thick (3/8") - that both sides of the block can be used! Eco Karve blocks are environmentally friendly & a great alternative to conventional printing plates.

#ECO4 4" X 6"	: \$2.79 each / 5+:	2.57

FABRIC STAMPING & PRINTING

MOLDABLE FOAM STAMPS

Heat foam with heat gun or hair dryer, press on a textured object like a twig or shell, & the image will be "engraved" & is ready to use as a stamp. Will hold image until reheated. Use over & over. Can be "engraved" with a pencil by just drawing on it. Use with fabric markers, ink pads & paint pads. Economical, easy to use, fast, & can produce incredible results with practice.

#MFSP: 10 Shapes: \$8.95

#MFSS: (8"x10") 3 sheets: \$8.95

#MFSB: (2.75 x 3.75 x 1") 10 Blocks: \$8.95

CLEAR ACRYLIC STAMP BLOCK

See-through acrylic blocks are an excellent choice when you find you are having trouble lining up your stamping projects when using the old clunky wooden blocks. Great for use with both translucent stamps and unmounted rubber stamps. These crystal-clear blocks are .5" thick and have laser polished, rounded corners and beveled edges.

Speedball

LINOLEUM CUTTER SET

Handle with 5 blades. Use to carve linoleum or "Speedy Cut" blocks. \$9.39 **#LCS**

HEAT TOOL

For drying & heat setting inks & paints. Use for quick drying dyes or paints as you use them to speed up your work. Very useful when painting on silk hoops & earrings, and other items that can't stay wet for long. Good for drying guttas and resists.

List 27.99 / Dharma 24.95 **#HEAT2**

FLEXIBLE PRINTING PLATE

Easy stamp making! Has a peel off sticky backing. Draw or trace on your design, cut out the design with scissors, remove paper backing, press on to a piece of wood & then use like a rubber stamp with fabric paints. 9" x 12" sheets

#SURE	1-9	10+
	4.96	4.46

SURE GRIP BLANK STAMPING HANDLES

Lightweight hard plastic handles come in a pack of three & make perfect base for your homemade stamps or stamps that might need a little reinforcement. Circular base has a diameter of 3", the tapered handle is 1-1/2" long & softly textured. Easy to use for kids & adults. Small amount of texture on the handle insures you'll have a firm grip if your project gets a little messy. Use with our Sure Stamp Flexible Printing Plates #SURE or with our Easy-Cut Printing Plate #ECP. Package of 3 handles.

#SGSH Dharma price: \$4.59 / 5+: 4.19

TACK 'N PEEL REUSABLE CLING SHEET

Reusable clear sheet designed for creating a stamping block. Adhesive layer provides strong bond for sticking unmounted rubber stamps to a block. Also adheres any design objects to stamp!

#TNP
List: \$9.99
Dharma: \$8.99

KNIFE SET

Comes with a handle and 6 different blades. Interchangeable blades are standard sizes 1, 3, 4, 10, 11 & 12. No better way to cut detailed stencils or stamps.

#HKS 1-4: 1.99 5+: 1.89

COMPRESSED SPONGES

Flat & thin to start. Compressed. Just cut out your design with scissors. Expands to a normal sponge when placed in water. Use to apply fabric paints or inks in the shapes you have cut out. Works well, creates nice effects!

TIPS FOR STAMPING ON FABRIC

- Cut stamps evenly & deeply.
- Don't rock the stamp.
- Don't apply too much pressure.
- Fabric paints will not stick to linoleum.
- Be sure to wash & press fabric first.
- Use sponge applicator bottles & foam tip swabs for inking.
- Use anti-diffusants or "stop-flow" to limit spreading on silk.
- Most fabric paints with glitter don't stamp well.
- Don't use fabric softeners in the wash or dry cycles.
- ALWAYS DO A TEST FIRST.

PRIMARY COLOR WHEEL: CYAN-MAGENTA-YELLOW

Color Wheel based on primaries of Cyan, Magenta & Yellow. Primary colors used when mixing light. Dye is transparent & therefore mixes much like light. This color wheel is more useful for mixing dyes than opaque paints.

List \$7.29 / Dharma: \$5.89

3 IN 1 COLOR TOOL

BY JOEN WOLFROM

Create perfect color combinations with this tool for quilters, textile artists & crafters. 24 color cards, each featuring 1 pure color along with a selection of its tints, shades & tones. Attached together at one corner. Back of each card has a "color 'plan'": shows complementary, analogous, split complementary & triadic colors. For quilters, 2 extra features: a value finder for determining contrast without distraction of color; & 3 fabric preview windows to "audition" your fabrics.

List \$19.95 Dharma \$15.39 **#CTOOL**

FABRIC PAINT

SETACOLOR FLOWABLE FABRIC PAINTS BY PEBEO

USE TO: HELIOGRAPHIC (SUN) PAINT, HANDPAINT, SERTI TECHNIQUE, TIE-DYE, BATIK

USE ON: MOST FABRICS, LEATHER

“Light Fabrics Paint” colors, formerly called Transparent, are used for hand painting on white or light colored fabrics. Thinned with water they’re used for the Serti Technique on silk. Great for simulated tie-dye, spray bottle effects, batik, splatter techniques. “Light Fabrics Paint” have a super soft hand on fabrics, better than most fabric paints! Also for **Heliographic fabric SUN ART!** Lay your fabric down outside and sponge on diluted (2 parts water to 1 part paint) Setacolor “Light Fabrics Paint” in whatever color patterns you like. Then lay feathers, lace, netting, leaves, precut cardboard, flowers, shells, or any object on the fabric and let the sun do the rest! Let dry completely & objects placed on fabric will leave their impressions. Great fun for working with children & creative adults. Instructions are on our website. Setacolor can also be used for silk screening when thickened with 2 to 5% thickener. Heat set with an iron or use with No-Heat Fixative (**#VFIX**: pg. 31) which makes the “hand” softer yet!

LIGHT FABRICS PAINT: #SETT (PREVIOUSLY KNOWN AS TRANSPARENT COLORS)

With their light texture LIGHT FABRICS PAINTS hardly alter the flexibility & fineness of fabrics. Water-based, ready to use, intense & concentrated. Use straight from the bottle or dilute with warm water to obtain watercolor effects.

GLITTER COLORS: #SETT

New! Super fine flecks of colored glitters embedded in a matching colored base paint. Dynamite on dark fabrics too!

FLUORESCENT: #SETT

5 fluorescent transparent colors, for use on light colored fabrics. These really pop, and glow in ultraviolet light!

LIGHT FABRICS & FLUORESCENT: #SETT

DARK FABRICS PAINT: #SETOP (PREVIOUSLY KNOWN AS OPAQUE COLORS)

Collection of 23 water-based, opaque, intense, concentrated & vivid contemporary colors. Ready to use & mixable with each other. Softer on fabric than most other opaque brands. Have excellent light fastness & are machine washable in cool temps after heat setting. Suitable for decorating either fine or heavy fabrics - light or dark.

SHIMMER COLORS: #SETOP

SHIMMER colors offer rich & deep metallic shades. They have a subtle pearlescent, metallic looking, finish with changing effects under different angles of light. Soft on fabric.

PEARL COLORS: #SETOP

New Pearl colors glisten with changing color effects while always retaining the same pearlescent base color. Mimics the nacre coating of real pearls. Soft white pearl look with a color undertone. The “blue” looks white when painted on. When you move the fabric under the light, you will see the blue translucent undertones. Subtle.

FABRIC PAINT

JACQUARD TEXTILE COLORS

USE FOR: HANDPAINTING, AIRBRUSHING, & PRINTING.
USE ON: ALMOST ALL FABRICS.

Fabric paint that delivers good value for your money. Soft feel! Heatset with an iron or use Versatex Fixative (#VFIX) or Airfix (#JACAF2) below to set without heat. Colors are very soft, clear & mix easily. Paints airbrush exceptionally well when thinned 20% with water. Cover well on light colored fabrics. Mix with Opaque White for more opaque pastels.

- Washable • Drycleanable • Permanent
- Water-soluble • Leaves fabric soft
- Colors are rich in pigment = excellent coverage.
- Packaged in wide mouth jars for easy use.
- Economical! Same qualities as more expensive imports!

JACQUARD AIRFIX™

LOVE PAINTING BUT HATE IRONING? MEET AIRFIX!

Don't have the time or patience to iron or heat press your fabrics after painting them with Jacquard textile paints? You don't have to iron! AirFix™ is great when you just want to paint & go. This product is used INSTEAD of ironing, to fix the paint & make it washfast. AirFix™ is an additive for Jacquard's textile paints: Textile Colors, Neopaque, & Dye-Na-Flow (as well as most other acrylic fabric paints). AirFix™ is very similar to Versatex "No Heat" Fixative™; the difference being that AirFix™ is much more concentrated making it useful on large projects. More info is on our website.

List: \$34.99 / Dharma: \$28.19

VERSATEX FABRIC PAINT/ INK NO-HEAT FIXATIVE

REMARKABLE FIXATIVE REALLY WORKS!

Prefer not to or can't heatset your fabric paints? Instead add a small amount (1-3 %) of this fixative to your paint. Just add 1/2 to 1 & 1/2 tsp. per 8 oz. of paint. Apply paints as usual & let sit for 4 - 6 days. Tests results were comparable to heat setting & fabric is left softer. Developed for Versatex, but works well with all fabric paints. Run wash tests yourself before using on important projects. Paint must be used within 4 - 6 hours after adding fixative.

#VFIX NEW 2 oz. SIZE!
Size List Dharma

HEAT SETTING INSTRUCTIONS FOR FABRIC PAINTS THAT REQUIRE IT:

ALLOW PAINTED / PRINTED FABRIC TO DRY THOROUGHLY. HEAT SETTING LOCKS COLOR INTO FIBERS ALLOWING FOR NORMAL LAUNDERING.

Home dryers: DO NOT WORK.
Commercial Dryer: 250° minimum temp for 45 minutes. Be sure to preheat dryer.
Home Iron: Temps vary iron to iron. Preheat your iron at maximum temp for your fabric. To increase heat, place aluminum foil on ironing board & painted side of fabric down. Press against backside at least 20-30 seconds per sq. ft.
Commercial Conveyor Type Oven: 350° for 3 minutes, 2 passes if necessary. Fabric should be hot to the touch to set colors.

Heat Press on page 54 of our catalog: 350° for 20-30 seconds.

NOTES: Optimum time & temps required to properly heatset will vary depending on fabric, coverage & equipment.

CHANGE YOUR LIFE: Get a Laundry Steam Press! Use without steam on optimal fabric setting - Pg. 56.

JACQUARD PINATA™ INK COLORS

USE TO: PAINT, STAMP, PRINT, ROLL & "DYE".
USE ON: GLASS, LEATHER, METAL, WOOD, PAPER, PLASTICS (ANY NONPOROUS SURFACE)

ALCOHOL BASED INKS • WATER-RESISTANT • TRANSPARENT

Beautiful, color saturated, acid-free, transparent inks. Have an alcohol base which makes them indelible & moisture resistant when dry. Paint on almost any surface & let dry. Done! Highly versatile & can be used in variety of applications; rubber stamping, fine art, leather art, scrapbooking, calligraphy, faux finishing techniques, graphic, airbrush applications, for wood & leather. Great for leather but NOT FOR FABRICS.

FABRIC PAINT

LUMIERE™ (METALLIC) & NEOPAQUE™ (OPAQUE) FABRIC PAINTS

USE FOR: STAMPING, STENCILLING, HANDPAINTING, AIRBRUSHING, SILKSCREENING

USE ON: NATURAL FABRICS AND MOST SYNTHETICS AND BLENDS, WOOD, PAPER, LEATHER

One of the highest quality fabric paints available! Contains more pigment than other paints. Lumiere is **truly** metallic, not just metallic colored & Neopaque is very opaque. Both cover dark fabrics well. Fantastic paints! Estimate an 8 oz. jar will cover 12 sq. ft. when painting & 24 sq. feet when stamping. Easy clean up with soap & water. Excellent washfastness & drycleanability after heat setting with an iron. Silk painters love Lumiere for metallic highlights on their finished pieces, & it's more washfast than metal leaf. Great for stamping, stencilling & leafprinting. Produces clear prints with fine detail. Paint on leather without heat setting. Fantastic for customizing & repurposing shoes, boots, purses & more!

DECOART SO-SOFT OPAQUE FABRIC PAINT

Super soft opaque fabric paints give excellent coverage! Washable without heat setting! Softer than many opaque & metallic fabric paints. Works on black fabric. Doesn't require addition of fabric medium or heat setting. Permanent & can be brushed, stamped, sponged, or stencilled on. Handy squeeze bottle makes these great for class situations & kid's events!

BACK IN THE USA! - MARABU FABRIC PAINTS

MARABU FABRIC PAINT

MARABU TEXTIL FABRIC PAINT 50ML

USE ON: LIGHT COLORED NATURAL FABRICS & SYNTHETIC BLENDED FABRICS WITH UP TO 20% MAN-MADE FIBERS

18 COLORS! Waterbased multi-purpose fabric painting & printing color for light-colored fabrics. Ideal for school, craft, leisure & artisan use. Colors are very lightfast, & can be mixed & also diluted with water. Provides very good coverage on light colored fabrics. Suitable for all cotton, linen, jute, silk & mixed fabrics with maximum 20% manmade fibers without finishes, but not for knit fabrics. Marabu Textil is easy to apply & particularly soft to the touch. After fixing Marabu Textil, the fabric can be washed in a washing machine up to 140°F.

SEE COLOR CHART: COLOR CARD PG. 5 IN BACK OF THE CATALOG.

List: 4.99 1-9: 2.99 10+: 2.69

SEE COLOR CHART: COLOR CARD PG. 4 IN BACK OF THE CATALOG.

MARABU LINER APPLICATOR 25 ML

Empty version of Marabu Contours & Effects pens.

Similar to soft gutta pen

#SGP - soft, & easy to squeeze. What makes these so special? Tube, base to top of black cap, is 5" long & about 3/4 inches wide, & holds approx. 25ml of waterbased paint or waterbased gutta. Large mouth opening fits most small & medium funnels - filling is clean & easy. Opening on tip is approx. .8mm (18 gauge), so you can make perfect little embellishments or fine lines on your project. We really like using these with Marabu's creamy Textil & Textil Plus paints, but these pens aren't picky. You can put just about any kind of waterbased paint or waterbased gutta in them. Comes in a pack of 3.

SEE COLOR CHART ON OUR WEBSITE.

PEARL-EX PIGMENTS

GORGEOUS METALLIC POWERED PIGMENTS!

Very fine powdered pearlescent pigments. Non-toxic, inert, & can be mixed into any viscous non-opaque liquid such as any transparent fabric paint or colorless fabric paint medium, glue, oil paint, gouache, varnish, or polymer clay. Results range from a fine, smooth, pearly luster to a highly metallic sheen. Can be added to silk painting resists, to fabric paints, airbrush inks, oil & waterbased paints. Transform plain clay into luminous art objects & ordinary candles into poured metallic looking antique candles. Add luminosity to your encaustic mixed media. As with all powders, wear a dust mask when working with these & have good ventilation. Metallic colors with various particle sizes. Different particle sizes give different effects. Interference colors - pigments which appear different depending how you use them. Duo colors - which change color depending on light angle. Remaining are colored pearlescents in chromatic & "fashion" colors. Use our Neopaque Clear Extender as a base to mix with the pigments or any clear medium. Try it with polyurethane to paint walls or furniture. Mix with Gum Arabic or clear glue & stick to anything! Use it with varnish for a high gloss look! Possibilities are endless!

PREP, CLEANERS, FINISHES:

ANGELUS LEATHER DYE REDUCER/SOLVENT

#ADR 4 oz. bottle: \$2.95

Formulated for use with Leather Dye for diluting, mixing colors & cleaning. By using a combo of Dye colors with Leather Dye Reducer/Solvent, an infinite amount of colors can be achieved. Add Dye sparingly to Solvent until desired color is obtained.

ANGELUS 5" WOOL DAUBERS (PACK OF 5):

#AWD \$0.99

Use to apply Angelus leather dye directly onto leather.

ANGELUS EASY CLEANER

USE FOR: PREPARING, CLEANING

USE ON: SUEDE, NUBUCK, LEATHER, VINYL, STRAW, CANVAS, & CARPET

#AEC 8 oz. bottle: \$4.95

Will remove most stains such as dirt, salt, food, perspiration, grease & cosmetics. Can also be used on cuff & collar stains, straw, mesh & most synthetics. Will clean all leathers. Test first!

ANGELUS LEATHER PREPARER/DEGLAZER

#ALPD 4 oz.: \$3.95 **16 oz. size:** \$11.40

All-purpose cleaner & stripper for leather articles. Can be used to deglaze factory finishes from shoes, purses, holsters, saddles, etc. Will strip color from leather articles only. Not for plastic or vinyl.

ANGELUS ACRYLIC FINISHER: 4 oz. #AAF \$4.07

USE FOR: WATER RESISTANT FLEXIBLE TOP FINISH

USE ON: LEATHER

3 different finishes: 605: Satin / 610: High Gloss / 620: Matte
Used on all smooth leathers. Apply with sponge, rag, sheep's wool, or spray gun. No buffing is needed. Waterbased product. Water resistant after drying.

ANGELUS LEATHER CONDITIONER

For smooth, exotic & naked leathers. Penetrates leather restoring natural oils while cleaning. Creates thin film of waxes: can be buffed to satin finish. Will clean, soften, preserve, polish, prevent cracking, & restore natural beauty to smooth leather. Contains no solvents. DO NOT USE ON SUEDE, NUBUCK OR NAPPY LEATHERS. **#ALC 8 fl. oz.** \$4.03

ANGELUS 100% PURE NEATSFOOT OIL

Material preserver & water repellent for leather. Waterproofs, softens, lubricates & preserves. Ideal dressing for boots, shoes, harnesses, saddles, holsters, baseball gloves & other leather goods. Adds longer life to leather & will prevent cracking & drying. NOT INTENDED FOR USE ON SUEDE OR NAPPY LEATHER. **#ANFO 8 fl. oz.** \$4.95

ANGELUS WATER AND STAIN REPELLANT

Invisible protective coating repels water & stains to keep shoes clean & dry. Use on all suede, leather, Gore-tex, fabric shoes, boots, hats & jackets. Safe for most "Dry Clean Only" fabrics. Applied properly, will give most water-resistant properties possible. Allows items to breathe, but blocks out water & helps prevent stains. **#AWSR 5.5 oz.** \$4.77

ANGELUS DRY CLEANER & SPOT REMOVER

Professional grade spot remover for leather, wool, vinyl, clothing, etc. Ideal for preparing leather surface for redyeing & finishing. Very good for removing dirt & grease from carpets, sofas, etc. Use with care on synthetics. With all cleaners, test on a small unseen area before regular use.

#ADCSR4

4 oz. \$2.75

ANGELUS DYELINER REFILLABLE DYE PENS

In 2 sizes - fine tip & broad tip. Fill with your choice of Angelus leather dye color & apply dye with precision. Work great & are easy to use when applying a fine line design. Made for use with Leather Dyes only (not for Angelus paints).

PAINTING ON SILK

Done for centuries in Asia, big in Europe for years & now painting on silk is very popular in the U.S. Partly it's because silk is such a cool fabric & more available now than ever before. Much of the interest is due to the French Serti Technique for applying dye to silk. It has everything going for it - it's easy, it's clean, it's fun, & you get startlingly beautiful results. It has a "stained glass" look, luminescent & rich looking.

THE SERTI TECHNIQUE

When dye or thin paint is applied to silk it begins to spread, like grape juice on a table cloth. This may be the effect you choose, however in most cases, most artists want more precise control of their design - hard lines and distinct shapes. The traditional French approach to controlling the flow of the dye is called the serti (enclosing or fence) technique. In the serti technique you draw a design with either water-based resist or a rubbery resist called gutta. The dye spreads up to the resist fence and is halted, thus filling in the area with color. In other words, the dye is applied within enclosed areas created beforehand with the resist - the design is made with the resist rather than by the dye. The effect, especially if held up to the light, is indeed like stained glass.

1. Stretch & secure the fabric to a frame with pins or suspend it in the center with silk clips or hooks & rubber bands (like a trampoline). Hold the applicator bottle of gutta or gutta-like resist vertically with the tip firmly against the fabric and squeeze gently while drawing the outlines of your pattern. Be sure that each shape is a unit, a completely enclosed shape with no gaps or skips in the line (even the smallest break in the line can let some of the dye escape). Make sure it has penetrated to the other side of the fabric. Let the resist dry.

2. Using a soft brush, foam brush or applicator nib apply the dye sparingly to the middle of the outlined areas, allowing the fabric to absorb the dye from the brush. Do not make brushstrokes, but slowly and firmly guide the dye toward the resist lines. Even the most carefully applied resist lines can be "jumped" if you get too close or load your brush too full.

3. Allow to dry and then fix by the method prescribed for the dye or paint you are using.

That's the basic idea. There's lots more to say, different techniques for different effects, tricks, tips and variations depending upon the specific dye and fabric chosen. That's why we have books and DVDs on pgs. 142 & 143.

STEAM SETTING SILK DYES

Quick and easy method for a small quantity of silk, 2 to 4 scarves or under 2 yds. of fabric. On work surface lay 2-3 layers of clean newsprint. Next lay the fabric on the paper with 2" allowance all around. Be sure to smooth out any wrinkles. Then place 2-3 more sheets of paper on top of the fabric. If placing fabrics side by side be sure they don't touch each other (at least 2" apart). Start rolling into a tube. This is easier using a small diameter pole (broom handle). When completely rolled, tape everywhere you think it could come unrolled. Remove pole. Roll tube into a coil, tape or tie with string. Place on a sheet of aluminum

foil and tent another sheet over it, (this eliminates condensation or water dripping on the bundle). Add enough hot water to any big pot (a canning pot is ideal) that has a rack in it to hold the bundle up out of the water, (veggie steamer holder, or even a can with the top and bottom cut off and an aluminum pie plate set on top). Cover the inside of the lid with a towel, use clips, cloths pins or rubber bands to hold it, so the condensation is absorbed into the towel. Once the water is boiling and everything is inside you can turn the temperature down to medium and keep it at a slow low boil. The amount of time needed to steam fix the dyes varies

depending on the dye used, the weight of the fabric & the amount of yardage. This can be anywhere from 30 min to 3 hr. Follow dye manufacturer's suggestions. Try to have enough water so that you don't need to add any but if it's necessary, do so with boiling water so you don't lose as much time and temperature. After steaming, remove and unwrap the roll carefully - it's hot. Hang fabrics laundry style so that the fabrics don't touch each other, wait 24 hours, then wash with something like Synthrapol, blot with a clean towel, and iron dry with a cool iron. **VOILA!**

COMPLETE INSTRUCTIONS FOR BUILDING A STEAMER ON OUR WEBSITE!

JACQUARD SILK COLORS STARTER KIT

Contains:

- 4-60 ml. bottles of silk dye (magenta, cyan, yellow and black),
- 1-200 ml. DyeSet,
- 1-60 ml. bottle of colorless gutta or resist
- 1 -Applicator bottle and thin line metal tip,
- 1 Chinese Sumi brush
- Instruction sheet including a color mixing guide .

List: \$29.99 1-4: \$23.49 10+: \$18.95

#JACSS

COMPLETE KIT! EASY WAY TO GET ACQUAINTED WITH THIS PRODUCT.

SILK PAINTING STARTER KIT

We put together a kit for the beginner to make it easy to get started in painting on silk. After practicing, you can create your own 8x54 silk scarf as a "keeper"!

CONTENTS :

- 1 Silk Hankie 11x11
- 2 Hobotai 8x54 scarves
- 3 Dye-na-Flow 2.25 oz paints
- 14 Stainless Steel Pushpins
- Sumi Brush #1
- Sumi Brush #2
- Foam Brush 1"
- Clear Water-based resist
- Applicator Bottle/metal tip #7
- Silk Salt 2 oz

Dharma price: \$32.55

Instructions included.

#SPSK

CHOOSING SILK DYES/PAINTS

We have 9 types of silk dyes and paints, with several brands within each type. All are liquids. All work well and have devoted fan clubs. Different strokes for different folks! See pgs. 36-45 for complete listings and information. Keep in mind that the powdered Acid Dyes, Lanaset Dyes and Fiber Reactive dyes can also be used for silk painting, also the Pigment dyes on pg. 18.

Type 1. Dyes that must be fixed (set) using steam. These give brightest, most vivid and most washfast results. They leave no “feel” on silk, (you don’t feel anything different where the dye is). Most are French and contain some alcohol. Dupont is an example. Professionals usually use these types. We have professional steamers for these or you can make one - see our Dharma website for details. If painting with Acid Dyes or Lanaset Dye mixtures, steaming is the way to go with these also.

Type 2. Dyes that can be fixed using a liquid fixative, either by dipping painted silk into fixative bath or brushing fixative onto silk. Colors are not as intense or deep as Type 1 when used this way. These can also be steam set and then are almost as bright and washfast as those above. They also leave no “feel” on the silk. Jacquard Silk Green Label is an example. Great introduction to using dyes!

Type 3. Paints for fabric that are very thin, almost like dyes. They are fixed by ironing with a hot iron. Waterbased, non-toxic, and very easy to work with. Colors may not be as bright as either of the above. They leave some slight “feel” on the silk. Setasilk & Dye-na-Flow are examples. Dye-na-Flow is excellent for beginners and children! Non-toxic!

Type 4. Dyes or pigments that don’t need “fixing”. The new Colorhue Instant-set dyes and Dharma Pigment Dye - just dilute, paint on and air dry for 24 hours. No fixatives, ironing, or steaming required. Colorhue is a true dye and leaves no feel. It gives good pastels & medium shades. Dharma Pigment Dye is a concentrated liquid pigment that you dilute with water and leaves an almost undetectable feel on the silk, plus colors are more concentrated than Type 3 paints depending on how much you dilute them. It does benefit from going into a hot dryer. See pages 18 & 43. These are both non-toxic. Great for beginners & classes where you need instant results!

ABOUT RESISTS

The subject of resists can be confusing. What’s gutta? What’s a resist? Can this brand of resist be used with that brand of dye? What sound does gutta make when it’s alone at night in its bottle? Etc. etc.

What we know for sure is: A resist is anything that prevents dye from reaching the fabric; it resists the dye. Also, because real Gutta is flammable, has a short shelf life and smells bad, more and more companies are discontinuing it altogether.

GUTTA

Gutta is a thick substance made from latex (supposedly derived from Indonesian rubber trees called Gutta Percha). It’s used for the French Serti Technique of painting on silk which looks like stained glass. Gutta comes in clear, black, gold & silver metallics. Clean up or carefully thin with Gutta Solvent. This Gutta has a rubbery feel to it in contrast to the smooth drape of silk. For clothing, like scarves, Clear Gutta should be removed when the scarf is finished. For hangings, it doesn’t matter. When a project is done & you want to remove the gutta from the fabric, you can only do so by dry cleaning. Not all dry cleaners will do it, & some of the new fluids they are using these days may not work, so ask first. Use good ventilation when working with Gutta! Gutta is flammable & can only be shipped UPS ground to the 48 states, excluding AK & HI. Gutta is also getting harder and harder to get. Clear Gutta has a max 6 month shelf life, max, colored guttas, less.

BLACK GUTTA

Colored guttas avoid having a white border around every shape you draw. The Black Gutta must be left in the fabric - drycleaning takes the color out along with the gutta. Use the black only where drycleaning is not required. If you want the color to remain when drycleaning, use a water based resist that is heatset. Does have a softer hand than water resists.

METALLIC GUTTA

Gutta also comes in metallic gold & silver. Gold & silver gutta should not be dry cleaned! Dry cleaning will remove the gold and silver color right along with the gutta. The metal is held onto the fabric by the gutta. Use them when the gutta can remain on the fabric. Metallics can flake off over time in some cases. Has a softer hand on the fabric than water based ones.

WATER SOLUBLE (GUTTA-LIKE) RESISTS

Water based resists come out with warm water (you have to work a little to get it out. If it was too easy to remove it, it wouldn’t work as a resist), aren’t flammable and have no bad fumes. These resists work almost as well as gutta in every other respect and can also be colored with dyes. Some can be steamed, while others get too gummy. Steaming too long can make them harder to remove, especially with hard water.

Of all the products Dharma carries, guttas & resists are the most technically difficult to use successfully. Guttas also have a short shelf life and must be stored in a cool DARK place. You must be aware that applying gutta or resist successfully takes practice & experimentation with different products to learn which one will work best for you. With art, one can’t expect perfect results without practice. We suggest you buy gutta & resists in small experimental quantities until you find the ones that work for you in your particular circumstance. Take classes, buy books, talk to other silk painters. There is a learning curve!

GOLD & SILVER METALLIC AND BLACK & COLORED WATER SOLUBLE (GUTTA-LIKE) RESISTS

The big plus with these water based pigmented resists is that they can be dry cleaned and the color will not come out. As mentioned earlier, colored guttas can not be drycleaned because the black or gold & silver will come out with the gutta. The downside here is that the metallic resists are not as “metallic” as the metallic guttas. In both cases, the material which holds the glittery substance is never removed and therefore it will be felt on the fabric. Must be heat set with an iron or steamed - this depends on the brand, so read the instructions..

WAX

Wax is primarily used for batik and batik variations. Wax is melted and applied hot to the fabric with a brush, a tool called a tjanting or a Tjap (copper stamp). When the fabric is submerged in the dye bath no color reaches the areas covered with wax. Thus the colors and design can be controlled by a succession of waxing and dyeing. Or you can just outline for a Serti-like effect. Work with good ventilation!!!

Beeswax by itself will produce a solid resist (no dye will get through). It is generally mixed with paraffin to produce that distinctive “crackle” effect characteristic of batik. That is because paraffin is more brittle and when it cools it cracks to make branch-like crevices through which dye seeps.

Paraffin by itself is too brittle to use because it cracks and falls right off the fabric. Mix with Bee’s or Sticky Wax to control. **Sticky Wax** is a low cost synthetic substitute for beeswax. Does the same thing as bees at half the cost.

Soy Wax crackles a little, submersible in cooler dyebaths, and washes out in hot water and Synthrapol! Non-toxic, no fumes!!

WAX SUBSTITUTES

We used to carry one called Inko Resist that was a non-toxic casava paste that you could paint onto the fabric kind of like wax but it washed out with water and kids could use it. Unfortunately, the company that made it has gone out of business. Jacquard Products has reformulated its Clear Waterbased Resist to be thicker, and it is also non-toxic, and can be used in a similar way. You can get faux batik effects with no heat, and using a non-toxic paint like Dye-na-flow.

*Which brings us to this: if you’re having trouble with your gutta or resist it doesn’t mean it’s bad, old or no good. All the resists we sell have been in use by artists for years & are considered the best choice by those who like that particular brand. **Which means we can’t accept returns of guttas & resists because “it did not work”.** Nor can we accept responsibility for your choice of materials - while we always try to be helpful, every person’s choices, skill level & situation are unique. We cannot guarantee success in your particular circumstance. Please understand.*

GUTTA RESISTS & APPLICATORS

Generally, any brand or type of **resist or gutta** can be used with any brand or kind of dye. Except for this one caution! Most water soluble resists should not be dipped into fixatives like Jacquard DyeSet. They turn gooey and get hard to remove. You can use them together, but you have to paint the fixative on. Water based resists can be thinned, a drop at a time, with water if necessary. Gutta can be thinned. Gutta is often thicker than it needs to be to penetrate the fabric properly. It also takes a long time to dry; in fact, sometimes it simply refuses to dry at all. Even if the gutta seems thin enough you might want to thin it a little - 1 drop of thinner at a time. Test small amounts!

This will improve the consistency and helps it to dry more rapidly. There's a solvent that we sell for thinning gutta & cleaning your applicators. We hear that white gas (the stuff that's used in camp stoves) also works but we do NOT recommend it because it is very flammable with nasty fumes.

Gutta & gutta-like resists are generally applied to the fabric with small squeeze bottles called **gutta applicators**. They're the "brush" of the Serti silk painter since in the serti technique the design is made with the resist rather than with the dye. We have several kinds of applicators and some of them have choices of tip sizes. So make sure you buy them together, the same type. Tips and bottles are not all interchangeable with each other.

SHIPPING GUTTA!!!

Due to Federal fire regulations Gutta can only ship by UPS Ground (by truck, not by plane - no Fedex, no U.S. Mail) and only a quart (liter)(1000ml) or less per package per order and only to the 48 mainland states. It's not our fault! Sorry!

GUTTA RESISTS

JACQUARD AMERICAN GUTTA - CLEAR

Made locally so we can sell it at a very attractive price. The real deal, solvent based, and the only one left. DRYCLEAN TO REMOVE THE GUTTA.

FABRIC PRIMERS

NO-FLOW PRIMER, STOP-FLOW, ANTI-DIFFUSANT, ANTI-FUSANT:

Painted onto silk before dye or paints. Keeps dye from spreading when it touches silk. Allows for freehand painting without gutta. Useful for drawing or writing with dye filled felt tip markers or fabric pens. Some artists use primers like this so they can paint their signature in a corner of their piece. It's a starch-like sizing to prep silk with. Washes out at the end. Important: May permanently change the hand of the fabric if steamed, especially with hard water.

JACQUARD NO-FLO (STOP-FLOW)

DUPONT ANTI-FUSANT 250 ML

NEW!

Closes the pores of the silk & allows you to paint it like a canvas. Your paint or dye will stay where they are put! If you prefer to work freehand but need to control the spread of the dye or paint, this is the product for you! Brushed details remain crisp, allowing you to paint distinct images & shapes without the use of a gutta or traditional resist! If you use fine point fabric markers on your silk to sign your name (or to create Zentangle-type designs) you can draw crisp, clean lines without that "feathering" created by the wicking of the ink, paint or dye. This product will not change your colors. More info on our website. Made in France!

#DAF DHARMA: \$13.79

GUTTA/RESIST APPLICATORS

PROFESSIONAL METAL TIP FOR GUTTA APPLICATORS (THE SCREW-ON VERSION)

#PGAS

Screws onto the squeeze bottle or tube tips. Also comes with its own little plastic case & wire "hole cleaner".

Available in #4, 6, 8

Tip: \$ 4.79ea

Fits #GAB, #PGAB & #DGT only. Buy 3 or more: \$4.39 each

EXTRA BOTTLES:

For bottles, cut off end of spout 1/8" below first joint & then insert tip from the inside so end pokes out. Use a ballpoint pen to gently push tip in so tip protrudes a little and stays there. Easy does it, if you push too hard, you'll split the plastic. Big advantage here is that tip can't possibly come off unexpectedly, and it gives you better control over resist lines. VIDEO INSTRUCTIONS ON OUR WEBSITE!

Extra bottles \$2.35 ea #PGAB

SOFT GUTTA PEN

Soft, easy to squeeze, refillable. Makes drawing lines on silk quick & effortless. Works well with waterbased resist. Measures 3.5" long & holds approx. 10ml. Fill with pipettes (pg. 41).

#SGP: 1-4: 1.59 / 10+: 1.32

WATER SOLUBLE RESISTS & APPLICATORS

NEW SIZES!

JACQUARD'S RESISTAD SIMPLY PUT, THE BEST RESIST THERE IS!

"I already have water-based & gutta-based resists. What makes Resistad any different?"

World's top performing waterbased gutta resist! Medium Viscosity, concentrated formula should be thinned with water or liquid dye to desired consistency. Because it's a concentrate, it's cheaper to ship! Mix resist with dye instead of water to create crisp colored lines instead of white ones. Steaming or dye fixative makes the color permanent, & resist washes out. Resists better than any other waterbased resist. If it's heat set, it becomes so resistant to water that you can even brush color over it. Heat setting activates the gutta's water repellent properties, changing it from water mixable to water resistant. The more heat, the more water resistant it will be. Also for screen printing, block printing, stamping & sponging. Holds fine detail extremely well. Line work may be achieved with much higher precision than hand applied lines & in a fraction of the time, making it great for commercial artists & production runs. Washes out of silk quickly & easily & does not change feel, drape or luster of fabric. Resists as well or better than permanent & water based resists, but does not change hand of fabric the way a permanent resist does. Utensils are easily cleaned with water, & there are no noxious fumes (like with Guttas) when using Resistad.

JACQUARD REMOVABLE WATER BASED RESIST

NEW FORMULA! Replaces "Clear Water Based Resist". Brand NEW, superior resist that easily washes out with warm water (even after steaming or setting). Holds a crisp line without spreading & doesn't shrink or pucker when dry. You can paint, stamp or print it on too, like the old discontinued Inko Resist. Paint dye or paint on after the resist is dry. Never submerge in a dye bath. Removable Resist may be tinted with any water based dye for colored lines & is screenable, odorless, alcohol free & non-toxic. Steaming will set any dye used to color the resist. Comes in sizes: 2 oz., 8 oz., 32 oz.

JACQUARD PERMANENT METALLIC & BLACK WATER-BASED RESIST

DRY-CLEANABLE & WASHABLE

Metallic guttas (rubber based products with metal flakes in them) look fantastic but are hard to use - they separate, dry up, flake off the silk, & can't be drycleaned. This is one of the best alternatives. Based on Lumiere fabric paint, this resist has a good metallic look & is a breeze to use. Stir well before using. Apply with an applicator as usual & heatset with an iron before silk painting. Also can be silk screened on. Doesn't spread & holds the line well. No fumes. Stir well.

WAXES & BATIK SUPPLIES

Important Safety Tip! Don't overheat your waxes! 220°-230°F is ideal for oil based wax. If it gets above 250°F,

WAXES

wax can burst into flame &/or give off extremely hazardous fumes. If it starts smoking, cool it. ALWAYS work with good ventilation! If fire occurs, smother it, don't use water. Heat Soy Wax in a double boiler - 212°F max. Soy does not have fumes.

There are 5 ways to remove wax from fabric.

1. Boil the fabric and skim the wax off the surface after cool.
2. Iron it out between layers of absorbent paper - leaves residue.
3. Dryclean it out: best, but iffy these days with the new drycleaning chemicals. Check with your drycleaner.
4. Steam it in a steamer between layers of absorbent paper.
5. Our new Soy wax, just wash in hot water and Synthrapol!

BEESWAX: YELLOW REFINED

Purer than yellow. Add Paraffin if you want batik crackle effects. Melts at 142 - 149°F.

Approx. 1 Lb. block: 15.89 5 or more: 14.59
10+blocks: 13.45 20+: 12.49 **#BEW**

STICKY WAX:

DUPONT LIQUID COLD WAX 250ML

NEW!

Produces Batik-like effects but does not need to be heated. It's a WAX that you don't need to melt! Right out of the bottle & at room temperature, can be applied like a traditional wax, with a brush, pipette or any of your favorite methods to create very fine & delicate details. When fully dry, the wax will resist exposure to liquid dyes or paints, whether by immersion or direct application. It cannot be immersed in hot water but will easily repel dyes or paints applied at room temperature. Ideal for use with steam set dyes, as much of the wax will dissipate into the wrapping material during steaming. More info on our website.

#DLCW DHARMA: \$18.35

WAX THERMOMETER

No more guessing if your wax is too hot! This heavy duty glass, mercury free thermometer comes with a metal scale for accurate readings. This thermometer is so useful you might need one for deep frying and making candy!
#WXTH: List: \$7.99 / Dharmas: \$6.15

ELECTRIC TJANTING TOOL & TEMPERATURE REGULATOR

Tired of constantly rewarming your tjanting when you're doing batik? Try this! You still melt the wax in a pot, but this tool keeps the wax temp constant. A pin in the tip controls the wax flow. Regulator allows you to adjust & maintain the correct temp for the fabric you are working on. Without it, you have to unplug the Electric tjanting to cool it down. Demo video is on our website!

GOOD TO THE LAST DROP! \$88.99: with Regulator: **#ETJ**
\$58.39: without Regulator: **#ETJNR**
\$29.46: Temperature Regulator: **#RHE**

DELUXE TJANTING (BATIK TOOL)

Our best tjanting from Indonesia, the home of Batik. Handmade with all copper parts and teak wood handles. Copper conducts heat best. Easier to heat than a brass tipped tool.

#1 = 1mm, #2 = 1.5mm, #3 = 2mm.
Also in Double spout (for parallel lines & filling larger areas). Size #2

Single \$6.25 or 3 for \$5.35 ea **#DTJ**
Double \$6.75 **#DDTJ**

BATIK TJANTING TOOL SETS

Set of 4 different sizes in a batik cloth covered box. These are "rustic": not sturdy bullet proof tools. May need to be worked over a bit - bent, squeezed, or fixed. Please buy them only with that understanding.

Box set of 4: \$7.29 **#TJSET**

TJANTING (BATIK TOOL)

For applying wax lines in batik. Made exclusively for Dharmas in Bali.

Sizes #1, #2 & #3; small to large : \$3.95 ea.
Set of all three: \$3.65 ea. for 3+ **#TJ**

BATIK DROPPER PEN

Metal dropper is very useful in batik. Allows you to do fine design work with hot wax. Use like an eye dropper. \$4.55 **#BDP**

ELMERS WASHABLE GEL GLUE

Washable, no-run, easy, kid friendly faux batik resist. Works for writing right on fabric, no need for small gutta bottle. Bold lines are great for clear text or designs. Apply your dyes or paints, set your color and then the glue washes out with soap and hot water. Not really submersible in a dye bath.

4 oz. bottle. **#EWGG** List 1-4 5+ 10+
2.49 1.99 1.85 1.73

MELTING SKILLET

Whether your project is big or small, and you're using either glue or wax, we have just what you need. The small 4" skillet is great for quick & easy projects - great for beginners. **#MS4: 4 in.**
List: \$10.49 / Dharmas: \$9.29

DAMAR RESIN CRYSTALS

Used for hardening Beeswax (makes it more resistant to marring) & raising its melting temperature when used in Encaustic painting applications (painting with melted wax). In combination with beeswax produces a wax paint that makes color appear luminous. Can be mixed with dry pigments. Info on our website.
8 oz. bag. **#JACDR:** \$7.55

ENCAUSTIC MEDIUM 1LB.

An 8:1 blend of white filtered Beeswax & Damar Resin, for Encaustic applications. Can be used alone for collage techniques or can be mixed with any dry pigments or used to lighten other Encaustic paints. 1 lb. bag: **#JACEM:** \$22.49

DORLAND'S WAX MEDIUM

Translucent compound of waxes & resin to be mixed with oil paint, powdered pigments, powdered metals, Pearl Ex Pigments, colored sands, dyes, & other compatible fine art materials. For cold wax painting & mixed media. Info on our website.
#JACDW : 4 oz: \$6.35, 16 oz (pint): \$15.95, Gal: \$79.95

TOOLS FOR SILK PAINTING

ARTY'S® EASY FIX FABRIC STRETCHER FRAMES & HOOKS

Versatile, durable, intelligent & inexpensive silk painting frame system! Made of hard, strong plastic which can be simply wiped clean after use. Allows maximum & continuously adjustable tension. Works with hemmed or unhemmed fabrics. Comes with a nylon storage/carrying case. System is made of 4 plastic bars with corner connectors that allow for size adjustments. Bars are riddled with holes into which fit special pegs. Suspension hooks are attached to pegs with or without rubber bands as needed. See our website for more info on setting these up - it's easy!

Basic stretcher system. Takes fabric up to 37" on a side. Includes **24** claw hooks.
#SF1: \$66.95 / buy 10+: \$55.85

Small stretcher system. Takes fabric up to 22" on a side. Includes **16** claw hooks.
#SF2: \$42.95 / buy 10+: \$35.79

Extension stretcher for basic system. Added onto basic stretcher system above, takes fabric up to 45" on a side or 18"x 77". Includes **12** claw hooks. **#SF4:** \$52.45

**GREAT FOR TRAVELING!
 COMES WITH A CARRYING BAG!**

SUSPENSION PEG/CLAW HOOKS

Suspension Hooks are designed specifically to work with Arty's® Easy Fix Fabric Stretcher Frames:

#SFH: Pack of 24: \$9.95 / buy 10+: \$8.99

SILK CLIPS

Perfect for clipping onto your silk when using rubber bands to stretch silk on a frame. Avoids the pin holes made by tacks.

#CLIPS

Pack of 12 \$4.76
 5+ packs \$4.33

CHINESE SUSPENSION HOOKS:

For stretching silk in place. 3 fine prongs hook onto silk & a rubber band is used to stretch between the other end & your frame.

#HOOKS

12 for \$ 9.49
 24 for \$18.82

SILK THUMB TACKS FOR SILK PAINTING

Special 3 prong, metal, round tacks best for holding silk onto a wood frame. If wet they can stain the silk. They're not stainless steel.

Box of 100.

FRENCH SILK DYES

DUPONT FRENCH DYES

USE TO: HAND PAINT, SERTI SILK TECHNIQUE, SALT EFFECTS, AIRBRUSH, TIE-DYE & BATIK.
 USE ON: SILK & WOOL.

Dupont silk dyes are very popular throughout the world and are used by a lot of professional silk artists. They're considered by some to be the best silk dyes in the world. Everyone else thinks one of our other brands is the best. It's a personal preference thing.

Dupont dyes have been made in France for 60 years and are the dye of choice for many silk painters because of the wide range and intensity of colors offered, the permanence of the dye and the superior way they lend themselves to salt & watercolor techniques.

These are very concentrated dyes which should always be diluted before use. For silk, dilute with a dilutant, for wool, use an alcohol & water mixture. Depending on the shade desired, dilute from 10% to as much as 50%. When you realize how concentrated they are, they become quite reasonable in price.

Some colors do contain some Alcohol as a preservative. All products that contain alcohol must be labeled in California with a Prop 65 Warning.

Dupont dyes must be set by steaming, and once set, can be washed, drycleaned and are light resistant.

DUPONT MICROWAVE DYEING KIT

NEW!

Dupont French Silk Dyes are very popular throughout the world & are used by many professional silk artists because of the wide color range & intensity of colors offered, the permanence of the dye, & the superior way they lend themselves to salt & watercolor techniques. These dyes are very concentrated, so for best results be sure to read the included pamphlet. This is a great way to yield amazing results without much effort. So easy to use. Perfect gift idea for yourself or for the artist in your life!

Kit is designed for the microwave dyeing method & does not need steam setting to fix. Included in this kit:

- 4 - 50 ml H. Dupont steam set dyes: (#100 Noir, #221 Cyan, #460 Magenta, #717 Jaune Primaire)
- 1 - 50 ml White Vinegar
- 1 - 3 ml Pipette
- 1 - Instruction Pamphlet

JACQUARD SILK COLORS: (GREEN LABEL)

USE TO: HANDPAINT, SERTI TECHNIQUE, WATER COLOR TECHNIQUE, TIE-DYE, BATIK, ETC.
USE ON: SILK & WOOL

To steam or not to steam - with Jacquard dyes you can do whichever you prefer. Use this dye straight out of the bottle (not a concentrate), and then steam-set in a steamer (not a steam iron!) - for more than 212° and for more than 30 minutes. Nothing else to add or do.

Don't like to steam? O.K. Use dye full strength out of the bottle and let dry. Next step: paint on or soak it in the DyeSet Fixative as described below, rinse, and you're done!

To get the strongest colors, allow the dye to dry for 24 hours before either of the above fixing methods. Jacquard Dye colors do not need dilution; you can use dye straight out of the bottle. Yellow, Magenta & Cyan are the primaries. You can mix any of the colors together to create your own colors. Easy, affordable product for beginning silk painters!

TWO WAYS TO USE:

1. Paint the dye on, let dry, and then immerse in or paint on the Dye Set Fixative mixed with cold water - 2 TBS/Gallon of water. Wait for 30 seconds to a minute, rinse in cold water with a little Synthrapol, and that's it.
2. Paint the dye on, dry and steam set 1 hour for more intense colors and best washfastness.

Caution: Do not dip waterbased resists into the DyeSet - they get gummy & hard to remove. If using waterbased, then paint the DyeSet on.

JACQUARD SILK COLORS: (RED LABEL)

USE TO: HANDPAINT, SERTI TECHNIQUE, WATER COLOR TECHNIQUE, TIE-DYE, BATIK, AIRBRUSH, PRINTING, ETC.

USE ON: SILK & WOOL

FIXING: STEAM SET ONLY

We now carry Jacquard's Red Label silk dyes as a stock item in addition to the dyes above. It's geared toward professional artists & production studios, or the Green Label user who wants to take the next step. With today's prices on importing French Dyes, the value of the dollar, etc., this gives you an economical alternative. Red Label silk colors are modified liquid reactive dyes that are twice as concentrated as the Green label dyes; the catch is, they **MUST BE STEAMED** (1 hour). **STEAM SET ONLY.** Cannot be used with Dyeset Fixative. Can be thickened for printing with our Alginate Thickener. Comes in the same colors as the Jacquard Green Label.

Size	List Price	Dharma	buy 10+

1 Quart : (makes a quart) \$4.95 **#PBKQT** **1 Gallon:** (makes a gallon) \$12.75 **#PBKGL**

DYES RECOMMENDED FOR CELLULOSE & PROTEIN BLENDED FABRICS LIKE RAYON/SILK & HEMP/SILK:

ALTER EGO DYES: pg 44: The best & are made exactly for dyeing this particular combination of fibers in woven fabrics.
FIBER REACTIVE: pgs. 5-11: For painting or tub dyeing. Dyes the cellulose (cotton/hemp) like the color chart. The protein (silk) comes out a different color, especially colors with blue in them (most of the blue will be absent on the silk). Example: with #18 deep purple, you'd get purple pile (the rayon) & raspberry backing (the silk) on devore velvet. Careful, soda ash is hard on the silk. Limit time of exposure, or use baking soda instead, & steam, microwave or simmer on the stove.
VINYL SULPHON: pg. 44: For painting. Dyes the cellulose & the protein the same color. Use baking soda & steam.
ACID DYE FOR WOOL & SILK: pg. 19, 20: For tub dyeing. Dyes the silk really well, stains the cellulose a much lighter shade.

DHARMA PIGMENT DYE

JUST PAINT IT ON AND LET DRY! NO STEAMERS, IRONING, OR FIXATIVES.

NON-TOXIC WATERBASED NO CHEMICALS

#PDYE

Here's a really exciting product! The big thing is that you can get washfast, permanent results on silk without the use of steamers, irons, or fixatives. Just paint it on and let it air-dry for 24 or more hours, put in dryer on high for 20-30 minutes, wash, that's it. Has that unique "stonewashed" look typical of pigment dyeing.

ALL THE DETAILS ON PAGE 18 !

SILK DYES

VINYL SULPHON LIQUID REACTIVE DYE CONCENTRATE

USE FOR: SILK PAINTING, DYEING, DEVORE DYEING, SILK SCREENING/PRINTING (THICKENED), SHIBORI, TIE-DYE, SCRUNCH DYE, ETC.

USE ON: ALL NATURAL FIBERS (ESPECIALLY SILK AND WOOL, BUT ALSO COTTON)

Jacquard's come through with a better & economical replacement for Procion H liquid Fiber Reactive dyes (discontinued as ingredients are no longer available). Jacquard's Concentrated Vinyl Sulphon Dyes are permanent liquid Fiber Reactive dyes for hand painting or printing on any natural fibers. Can also be used in a hot dye bath, or batched on cotton or other cellulose fibers with Soda Ash as long as they're kept warm. They work even better on wool than Procion H did, so they're great for warp painting, etc. Exhaust better so there's less wash out, & they're even more stable than liquid H was over time. These dyes are very concentrated (same concentrations as Procion H was) & should be diluted. Since they are way less expensive than Procion H was, they can be quite economical for the production artist! Steam setting of color for 30-45 minutes on fabric is required. Thicken dye if desired with sodium alginate. Conforms to ASTM D4236. **Not intended for use by children.** Check out our website for more information & instructions.

COLORHUE INSTANT-SET SILK DYES

USE FOR: SILK PAINTING, DIP DYEING, CRINKLE DYEING, SHIBORI, BATIK & MUCH MORE

USE ON: SILK & OTHER PROTEIN FIBERS, DEVORE' (CUT SILK/RAYON BLEND) SATINS & VELVETS.

ALSO SEEMS TO WORK ON SEVERAL CELLULOSE FIBERS, BUT WE RECOMMEND TESTING!

Want instant gratification? Don't have a lot of time? New at silk painting? Easy! Instant results! Folks have been asking us to carry this, so here it is! Using COLORHUE dyes is easy, fast & efficient because they require no setting procedures, such as timing prerequisites or heat processes in order to complete the coloring. This dye does not require mixing powders or any additional chemical additives to augment the liquid dye. The only additive needed is plain tap water to dilute the concentrated liquid colors to the desired shade. COLORHUE is a concentrated dye; approximately 15 to 20 drops of the concentrated dye in a 1/2 cup of water will make a medium color. But do not expect to achieve the results that artists achieve with professional silk dyes & steaming. Black is the most difficult color. Great for beginners & classes, & quick projects.

ALTER EGO DYES

USE FOR: DYEING 2 TONES ON DUO FIBER FABRICS (SILK WITH RAYON BLENDED WEAVES)

USE ON: DEVORE' SATINS & VELVETS (CUT SILK/RAYON BLEND FABRICS)

Specifically for dyeing patterned Silk/Rayon blends, like Devore' Satin where the backing is silk & pattern overlay is rayon, or silk velvet where pile is rayon & backing is silk. Alter Ego dyes provide colors for rayon fibers & Dupont dyes provide the colors for silk fibers. You choose one of each, and pour them both into ONE dye bath with your fabric or scarf, vinegar, salt & fixative, and shazam! Beautifully dyed in the 2 colors you chose. The silk dye only dyes the silk fibers & the rayon dye only dyes the rayon fibers. See pages 71, 74 & 75 for select blended silk/rayon fabrics, scarves & accessories to use this dye on. Check out the website to see examples. Absolutely fabulous results, and so easy to use even a blindfolded crazy man in a straight jacket could do it! Just throw everything into a pot on the stove, simmer and stir for about 30 minutes and booyah! Like cut silk/rayon velvet or devore satin goods, in any form? Then you have to try these dyes! Results are fantastic! So easy to use that you are sure to love them like we love them here at Dharma.

DYE-NA-FLOW FREE-FLOWING LIQUID COLOR FOR NATURAL OR SYNTHETIC FABRICS

USE TO: SILK PAINT, AIRBRUSH, SPRAY, SPONGE PRINT, SUNPAINT, TIE-DYE, FAUX BATIK & MORE
 USE ON: MOST ALL NATURAL & SYNTHETIC FABRICS

Easy to use! Non-toxic. Economical. Waterbased. Blendable. This paint from *Jacquard* is very thin, so thin, it's about the consistency of a dye. It's great for **silk painting**; either the serti resist method (using water soluble resists) or for watercolor techniques. You can intermix it with Seta Silk on the same project since they're all heatset with an iron. Use salt & other silk painting techniques used with dyes. Iron for 3 minutes to make it washfast & drycleanable. Always good to cure 48 hours after fixing before exposing to water. It doesn't stiffen fabric like thicker paints tend to do. It can be used in other ways as well: You can **hand paint** or **airbrush** with it on just about any fabric. You can dilute it with water and **tie-dye** using squirt bottles! Then set the paint in a commercial dryer or with an iron. Get interesting original effects using silk salt! Try the Sunpainting Technique for fun! Fast & easy! A very versatile paint in beautiful colors!

SETASILK: HEATSET FRENCH SILK PAINT

NON-TOXIC

USE TO: SILKPAINT, AIRBRUSH, TIE-DYE, SPRAY, SPONGE, SUNPAINT, WATERCOLOR
 USE ON: SILK, COTTON AND MOST ALL FABRICS

Technically this is a paint, but a paint so thin it acts very much like a dye. In other words, when you touch your paint loaded brush to the fabric, it spreads out - perfect for the serti technique on silk. Also great for water color technique, tie-dye, etc., on other fabrics. Just iron to fix: 3 to 4 minutes on the reverse side of the fabric with a hot iron. 48 hours after fixing, colorfast for hand washing and dry cleaning. Great for beginners - no chemicals or steaming. Colors are bright, intermixable and can be lightened with Setasilk Extender. Works great with waterbased resists that wash out after heatsetting or the colored resists that are also ironed. SetaSilk is also light-reactive, just like SetaColor. Use full strength for "Sun Painting".

STEAMERS

All silk dyes, even those that can be fixed chemically, look better with steamfixing.

Steamed colors are more vibrant, more brilliant and more permanent. If you're doing one or two scarves, you can get by with a homemade steamer - see instructions on our website. But if you do larger quantities - long lengths of yardage or a large numbers of scarves, then a steamer can quickly pay for itself in efficiency, time saved, and improved results.

WE DROPSHIP STEAMERS FROM MANUFACTURER. MAY TAKE AN EXTRA DAY TO SHIP TO YOU.

THE VERTICAL ELECTRIC STEAMER

American made, heavy duty, double-wall, stainless steel construction. Made to last! Tube is in two sections for easy handling. This unit contains it's own 2000 watt, 16 amp 120 volt heat source with safety cutoff. It can also be special ordered in a 240 volt/8 amp Euro version. It will accommodate fabrics up to 54" wide and, depending on the thickness, more than 20 yards long. Exterior is 11". Interior is 9" and 74" high. You provide a piece of plastic pipe from the hardware store to wrap the silk around or order the #STEAMCORE woven metal core shown below (sold separately). 30 day warranty on electrical and 1 year on structural parts. Ships via UPS in three boxes of 24, 26, & 29 lbs. Shipping is less, the closer you live to California.

#STEAME List: \$1600.00 / Dharma: \$1500.00

STAINLESS STEEL MESH CORE FOR VERTICAL ELECTRIC STEAMER

#STEAMCORE
 Dharma price:
 \$308.75

Steamer Core: 60" long woven stainless steel wire tube for use with our vertical steamer. Allows for heat & steam to get to fabric from inside as well as outside of the roll. It's easy to load, it simply hangs from the top of the steamer.

THE STOVE TOP STEAMER

Stainless steel steam cabinet sits on top of burners on gas or electric stove. Heat water in a compartment at bottom of steamer, bring to a boil to produce steam which will fix dyes on the fabric. Silk fabric is rolled up with unprinted newsprint on a provided metal rod & suspended above the simmering water. Steaming time depends on type of dyes & amount of fabric on the roll. Generally, steam time will range from 20 minutes to 2 hours depending on size of roll. Takes up to 19 yards of 36" wide fabric or approx. 12 yards of 45" or 55" wide fabric. For wider silks you'll need to fold silk to fit onto the rod making sure to place unprinted newsprint between folds. Steamer: 39.5" long x 6 wide" x 8.5 deep" & weighs 26 lbs. Shipping is less, the closer you live to California.

List price: \$399.00 / Dharma price: \$375.00

FOILS & GLUES

iCRAFT DECOFOIL

ANYTHING YOU CAN LAY FOIL GLUE ON,
YOU CAN FOIL OVER!

When we heard the news that Jones Tones would no longer carry their foils, we took it real hard. We set out on a mission to find a replacement with the same great quality & came up with - nothing. One day when we were down on our luck & were about to give up our search, the good people at Craft DecoFoil reached out to us! They were like our "Knight in Shiny Foil"! We couldn't have been happier. Just like the Jones Tones Foil - all you do is apply your glue, let glue dry, & then foil! (Color side up). Adds a touch of class to any project. We, of course, love it on fabric, but don't forget it can be applied to other surfaces such as wood, paper, glass, plastic, ceramic, or leather! Lots of fun colors! 5 sheets in a pack. Each sheet is 6" x 12". Or the new 12.5" by 25 foot roll!

E6000™ ADHESIVES

NO ODOR, NON-TOXIC, WASHABLE!

(SIMILAR TO JONES TONES)

USE FOR: APPLYING GLITTER, BEADS, SEQUINS, RHINESTONES, APPLIQUE, MENDING, PATCHES, USE ON: FABRICS INCLUDING KNITS, LEATHER, PAPER, WOOD, FOAM, ETC.

Glue technology has come a long way! E6000™ brings you a line of "3-D" glue paint to meet every crafting need because one glue really can't do it all. Water cleanup, washable - (inside out, gentle cycle, line dry). Nothing dresses up & adds value to a product like glitter, rhinestones or beads! Glueing shiny stuff to clothes with these non-toxic glues is a fantastic party activity. Squeeze, brush, stencil or stamp on. More info on pg 32 & on our website. LOTS of colors!

#JT2, JT4, JTP2, JTP4 FABRIFUSE GLUE

(FABRIC GLUE & BEAD BOND) 40Z

More generic fabric glue, but works well & is more washable than other fabric glues we've tried. Dries fast. Soft & stretchy, so it's great on knits. 4oz: \$5.25 #JTG4

iCRAFT DECO FOIL GLUE

Add some excitement, bling and dimension to your projects with this iCraft Deco Foil adhesive! It is identical to the popular Jones Tones Foil glue that we sold tons of - but has since been discontinued. iCraft Deco Foil Glue can be used on any porous surface and is washable on fabric projects. Easy instructions are on our website. 2 oz. size.

#IDFG	List	1-9	10+	20+
	5.99	4.95	4.19	3.89

EXTREME TACK (PLEXI GLUE) 408

Really strong to adhere beads, sequins, & rhinestones. Thick so it won't run. Great for theatrical costumes! Embellish your tie-dyes, handbags, wall hangings, hats, costumes, or dancewear!

#JTG4 4oz: \$5.25

HOTFIX CRYSTALS & NAILHEADS

BRING ON THE BLING!

The ultimate embellishment! HotFix Swarovski® Austrian Crystal Rhinestones & Nailheads! ALL can be EASILY & permanently HEATSET on fabric. Swarovski® Austrian Crystals are the best HotFix Rhinestones on the market, with most facets, best sparkle & clearest crystal. Cheaper ones look exactly that - cheap. We found affordable packs so you're not stuck buying in expensive bulk quantities, the way they're usually sold. Heat melts the glue on the backs & sets them permanently. Can be easily set individually with our **Applicator Tool**, with an iron, or our Geo Knight Heat Presses or our Steam Press (using dry heat). Totally washable! (We aren't sure about dry cleaning - could melt the glue?) Make your garments more fun, more creative, more unique, & therefore, more valuable! Combine with our Foil from the previous page for some really fabulous eye catching garment art!

SEE THE STEP BY STEP TUTORIAL ON THE DRAGON SHIRT ON OUR WEBSITE!

SWAROVSKI® XIRIUS AUSTRIAN CRYSTAL HOTFIX RHINESTONE PACKS

The good folks at Swarovski have introduced a new cut. The Xirius cut has more facets to allow for even more sparkle, next best thing to diamonds! Swarovski already had the market cornered on sparkle, so imagine how beautiful these new ones look! 4mm are the most popular, so they come in many colors. Can only be combined for the discount within each code group. The best news of all: Swarovski is gradually taking the lead out! Now, are all the new lead free ones, which means they can be safely used on older kid's clothing (not infant & toddler) - these have copper colored backs, so easy to tell from the older "lead crystal" ones. These are every bit as brilliant too.

SHIVA PAINTSTIKS

“PAINTSTIKS”® are real oil paint in a solid stick form. Quality pigments are mixed with special drying oils in a highly refined wax base. Can be used on a wide variety of surfaces like wood, metal, paper, & most fabrics including natural or synthetics, leather or suede. Great for rubbings, like with your copper Tjaps! Allow to dry (3-5 days), then iron to make the paint washfast. Not drycleanable. **Not for use on products for/ or by children under 12 years.**

USE FOR: EMBELLISHING, IRIDESCENT ACCENTS, FABRIC RUBBINGS, STENCILING, STAMPING, USE INSTEAD OF PAINT.
USE ON: MOST FABRICS, CANVAS, PAPER, WOOD, PLASTIC, EVEN METAL.

BLANK FABRIC MARKERS

SILK PAINTERS! DYE USERS!

Super idea for anyone using dyes on fabric. Empty fabric markers especially made for silk & fabric art. Have a long lasting fiber nib. To use, unscrew head, fill fiber filling with silk or fabric dye, replace head, & begin painting or drawing. Set the dye you are using as recommended. No mess, no fuss. When dye is used up, refill with same color. Procion Dye users take note; this is a terrific way to apply Procion dye when doing detailed designs. Use with any dye, but NOT with paints!

SETASKRIB+ PENS (BRUSH TIP)

Pebeo of France felt tips for drawing & writing on fabrics. Permanent & washfast after heat setting. Colors can be blended by using one on top of another while wet for mixed shades. Try transparent effects by using fresh colors over dry colors. Use as an outliner for silk, or with stencils.

FABRICMATE MARKERS:

BEST MARKERS FOR ALL TYPES OF FABRIC WE'VE EVER SEEN!

- Non-toxic pens contain fabric **DYES** that are permanent without heat setting.
- Colors mix together just like dyes.
- Come in a fabulous array of colors!
- Contain no toxic ingredients & conform to ASTM D-4236.

SUPERFINE: For linear & fine detail work.

Have a unique tip that tapers to superfine point so you can vary thickness of your line by altering the angle of the tip.

CHISEL TIPS: great for filling in larger areas or when needing thicker lines.

FINE LINER	\$3.09	2.35	2.15	#TJF
	\$3.09	2.35	2.15	

SUPER JUICY fabric markers great for almost any fabric: natural or synthetic! Full of pigment! Acid-free. Archival. Lightfast. Washable. Dry Cleanable. Heatset with an iron. Easy, Non-Toxic, fun for kids!

Broad Point: Squeezable tube with wide flat sponge head. Harder you squeeze, more ink comes out! Great for absorbent fabrics like T-shirts.

Medium Point: Versatile tip shape lets you achieve different line widths by changing the angle of the tip against fabric.

Fineline: Great for finishing touches & detail work.

ART-C WATERBRUSH

Used with water paints on paper. Also for calligraphy & other fine work on silks & cottons. Work well with thin dyes & paints like Dye-na-flow, silk paints, & marbling inks. Performs well with thinned paints: Lumiere & Neopaque. Pen has round, brush tip so it looks & feels like a sumi brush. Durable nylon bristles keep their shape after use. Fill with your choice of paint, dye, or water, squeeze the pen & liquid is forced into the bristles.

List	1-9	10+	#WBM
	4.99	4.49	4.15

JACQUARD REFILLABLE MARKERS

45ml empty markers can be filled with any fluid medium for easy application. Barrel of marker is soft & squeezable, allowing for total control of how much material leaves the pen. Smooth valve-tip glides across all surfaces with ease, allowing for quick & easy coverage. Same bodies as our popular T-Juice broad point markers. Tip size for broad lines & filling in large areas. Since the tip is large & a valve, you can use a lot more products in it than you can in any of our other refillable markers. Very easy to draw with for small children too! Made in the USA! Sold in packs of 2. Try 'em with a variety of dyes, paints, inks & mediums. See our website for more info!

LEONHARDY BRUSH LINERS

These German made brushes are made of synthetic fibers & have nickel plated brass ferrules. They come in four sizes & range between 16mm to 24mm. Priced per brush.

Here's the low down on these brushes: There's this guy we know named Dave. He's been around the block & has seen some things. When we told him our supplier for liner brushes discontinued almost every one we had, he set out on a mission. He took his expertise & brush knowledge to the streets & found us some liners. Turns out, all of our customer support staff/artists love them! Not to mention they are fairly inexpensive!

JACQUARD YOUCAN

Can be filled with ANY liquid & used over & over again. Looks & feels like a metal spray can! Fill the can with the medium of your choosing, pressurize with a bike pump or compressor, & spray!

When it runs out, start over & do it again! Great for spraying any liquid: Dye-Na-Flow, Airbrush Colors, Silk Colors, dyes, alum or soda ash solutions, SolarFast, varnishes, alcohol dyes, adhesives, primers, misting your screen between pulls when screen printing, or even when using household cleaning products! (We don't do windows.) Environmentally friendly! No propellants or solvents. No empty can disposal. Continuously reusable. Compatible with any male spray tip. The Adapt-Air coupling may also be used to rescue leftover material from normal aerosol cans that have lost pressure. Provides at least 1 to 1.5 minutes of continuous spraying. Not quite as controlled a spray as an airbrush, but a great option if you're not ready to invest in an expensive airbrush setup.

WHEN IN DOUBT, GIVE US A CALL!**

DELUXE RUBBER RESPIRATOR FILTERS DUSTS, FUMES, MISTS

Comfortable soft rubber. Better fit for easier breathing. Comes with easy to replace filters which are rated by NIOSH as N95 for dusts, fumes & mists. **Nothing available stops alcohol vapor!**

Mask & 2 filters: \$37.19 **#DDM**

Set of 2 replacement filters: \$13.26 **#DDMF**

MULTI GAS/VAPOR CARTRIDGES

Fits Deluxe Dust Mask (#DDM) shown above. NIOSH approved for ammonia, acid gases, chlorine & organic vapors. Recommended when discharging with bleach, discharge paste, Thiourea Dioxide & Bleach-Stop. Can be used instead of dust, fumes, mists cartridge that comes with #DDM above. Can also use both cartridges at same time for maximum protection, but to do so you also need to order the #MGCA adapter below.

2 Multi Gas/Vapor Cartridges: \$23.62 **#MGC**

2 Adaptors: \$6.89 **#MGCA**

DUST MASKS

Fine powdered dyes are unseen in air & you're breathing it. Wear a mask! Designed for protection against organic dusts. NIOSH rated & approved. Not the cheap paper type. Reusable!

\$2.50 ea. or Box of 20: \$41.60 (2.08 each) **#DM**

VENTILATION!

Have movement of air across work area & away from you. This draws any smells or fumes away before they go up your nose. Work outside in a light breeze, an open garage, or by having a box fan in an open window that's located on opposite side of table you're working on: point it outside so it sucks room air to the outside. Ideally, have a window open somewhere else opposite so fresh air comes in to replace the air the fan is pushing outside. This is almost as good as an "exhaust fan" that is built into an art studio.

SAFETY INFORMATION

In general, follow these precautions:

- Wear an approved dust mask when handling powders so you don't inhale dye or chemical dust.
- Wear protective goggles or safety glasses to keep dyes & chemicals out of your eyes.
- Wear rubber gloves so that you don't wreck your skin or bring colored hands to your day job.
- Have adequate ventilation if fumes or dust are present. Use cross ventilation or an exhaust fan.
- Don't breathe fumes. Dust masks don't help with fumes, only ventilation or deluxe respirators.
- Don't use cooking or eating utensils. Keep surfaces clean, use good housekeeping procedures.
- If you're going to store anything in the fridge, tape the container closed & label it clearly.
- Keep the dyes away from unsupervised little children. The colors look like food to them.
- Keep dyes & chemicals away and out of reach of unsupervised children & pets, period.
- Pregnant women must be particularly alert. Discuss the use of any chemical with your doctor.
- If you experience an adverse reaction from using any product, stop using it at once.
- Use your common sense & pay attention to what you are doing. Don't work when you're tired.

VINYL APRON

Protect your clothing from water slosh overs, dye spills, dye drips, and paint dribbles! Heavy duty 6 mil vinyl apron measures 35" wide x 45" long. Nice long length for you tall folks! Edges are die-cut. Each apron includes 3 ties for the neck loop and sides. Hose it off to clean up and you're done!

TRANSFERRING DESIGNS 1 OF 3

Putting photos & artwork onto fabric is becoming ever more popular & easier to do. Now anyone can do it - young or old. Choices:

- Option 1** • Print on Transfer Paper with a computer & Inkjet or Bubble Jet printer & transfer to fabric:
= Use Soft or Regular Inkjet Printer Transfer paper or Opaque Inkjet Transfer Paper
- Option 2** • Print directly on fabric:
= Use Professional or FabriSign Print on Silk or Print on Cotton.

INKJET OPAQUE TRANSFER PAPER

Put images on **black or dark fabrics**. Other papers allow fabric color to show through blank or light areas of your image. This paper has an opaque white background so nothing shows through. Any area of your image that is not printed upon with remains white. Therefore, it's best to trim your print close to the image. Easy to use. Just print, peel, iron. Much better, apply with one of the **Heat Presses** below - if you're in production, it'll **change your life!**

8.5" x 11" sheets: #IJOP8

package of 10:	\$11.30	(.13 ea.)
package of 50:	\$49.84	(.98 ea.)
package of 100:	\$87.36	(.87 ea.)
package of 500:	\$404.15	(.79 ea.)

11" x 17" sheets: #IJOP11

package of 10:	\$22.75	(2.27 ea.)
package of 50:	\$98.40	(1.97 ea.)
package of 100:	\$176.55	(1.76 ea.)
package of 500:	\$799.69	(1.59 ea.)

IT KEEPS GETTING LESS EXPENSIVE PER SHEET AS THE QUANTITY ORDERED GOES UP.

TRY OUR OPAQUE TRANSFER PAPER ON OUR BLACK T-SHIRTS!

HOT OR COLD PEEL!

PROFESSIONAL INKJET TRANSFER PAPER

USE ANY PHOTO OR ARTWORK! PRINT ON AN INKJET OR BUBBLEJET PRINTER! TRANSFER THE IMAGE TO FABRIC WITH HOME IRON!

Anyone with a computer & an Inkjet printer should try this. Put the paper into the printer & print. Iron onto **white or light colored** cotton or cotton/poly fabric. Even better, apply with one of the **Heat Presses** below - if you're in production it'll **change your life!** Makes it washable & permanent. Use on T-shirts, clothing, memory quilts, team uniforms or sports stuff (like caps) - wherever silkscreening is not practical.

PRINT ON SILK - PRINT ON COTTON "FABRISIGN" - NO STEAMING REQUIRED

Any photo or design can be printed directly onto fabric using a computer & an InkJet printer! Specially treated, paper backed silk & cotton fabrics run smoothly through most brands of Inkjet printers - home & office models as well as commercial wide format models. If your printer prints banners, as many do, you can make scarves & pennants. Fabric is treated so the results are permanent & water resistant no matter what kind of ink you use. Cannot be washed or drycleaned. Fabrics remain soft with no "feel" to the printed area.

ART FELT PAPERS

New felting technique that combines aspects of needle felting, wet felting, & fulling with new patented paper developed to ease & speed up felting process. Allows you to felt incredibly simple or complex pieces with minimal space & effort. Allows you to create a felted material that can be thick or thin, precise or abstract, & it can all be accomplished with little to no experience & in a short amount of time. Four basic steps to the process. First step is to design your project & cut your paper to the appropriate size. Second step is to create that design by attaching roving to the paper. Third step is to felt the piece, & the fourth step is to dissolve the paper. Check out the info videos on our website! Made in the USA. 3 sizes: 16" x 118" - Medium Scarf
5" x 10" - Large Rectangle
88" x 88" x 124" - Triangle

DELUXE FELTING STONE

Please keep in mind these are handmade so no two are alike. Felting is our jam! If you're reading this, odds are it's your jam too. And while we love our original felting stone, our wet hands didn't really agree with us. They were all like, "There's gotta be a better way!" And then there was... Introducing in this corner, coming in looking somewhat like a mushroom, standing at a whopping 2 in. tall with a tapered 2.5 in. handle & approx. a 4 in. felting surface...Deluxe Felting Stone! And the crowd goes wild! Handmade in the USA! List: \$20.00 / Dharma: \$18.50

YARN WINDING TOOLS / HOTFIX ANGELINA FIBERS

We've sold knitting supplies in our "brick & mortar" Dharma Trading Company store in Berkeley & San Rafael, California for years! Now we're offering them online on our website & in our catalog! See our website for all our offerings, color photos, & more information!

LARGE UMBRELLA SWIFT YARN WINDER

Unsuspecting friends are now safe from being trapped into helping you wind yarn! Wind yarn from hanks to balls or from balls to hanks. \$73.95: **#LUS**

YARN BALL WINDER

Hand operated yarn/fiber winder for making pull thread balls without tubes or cones. Comes with a clamp to attach it to your work table & includes complete instructions. \$29.41 **#YBW**

ASHFORD STANDARD NIDDY NODDY

Take hand spun yarn right from wheel bobbin & wind into a skein. Shaped crossbars allow yarn to slide off easily. Silver Beech hardwood. Includes instructions. \$21.85 **#ASNN**

BO-NASH BONDING AGENT STARTER KIT

Make invisible repairs; repair tears & holes in garments. Use for appliques, applying labels, surface embellishments, & craft projects. Baste quilts! Stays soft - no pins needed! Starter pack: One 1 oz. container of Bo-Nash Bonding Powder, Bo-Nash Non-stick Ironing & Craft Pressing Sheet 12" x 9.5", instructions. See demo video on our website.

Dharma: \$23.99 / 10+: 21.89

HOT FIX ANGELINA!

Available in Straight, Crimped or Metallic! Fantastically fun, shimmery or sparkly, all "Hot-Fix" Angelina is heat bondable - bonds when heat & pressure are applied. Place between 2 sheets of paper towels or pressing sheets, use silk setting on your iron for 3 seconds & it becomes a shiny sheet of polyester fabric that can be stamped, stitched, glued, bonded, or embellished! Machine washable! Add bits to your regular roving to give some pizzazz when spinning or felting! To adhere Angelina to fabric, use our Bo-Nash Bondable Agent. Watch video on our website. Weave into other fibers or yarns to make beautiful glittery customized yarns for knitting. Add texture, depth & color to any mixed media or scrapbooking project. Made in the USA!

MAKE FABRIC SCULPTURES FOR THEATER OR FUN!

JACQUARD FABRIC SCULPTING MEDIUM

Economical alternative to Paverpol. Used to make fabric sculptures, lamp shades, collages & more. Also used as a fabric glue. Drape, wrap or lay material around wire figure, armature or object & allow it to dry. Matte finish after hardening.

#JACSM: 16 oz.:
List price: \$23.99 / Dharma price: \$18.55

INTRODUCTORY INFO TO ALL DHARMA FABRICS BY THE YARD

Thread count & oz./sq yd are based on the best info we have. 10 oz./sq yd means a square yard (36" wide by 36" long) weighs 10 ounces. Width measurements may vary slightly. Bolt yardage on fabrics does vary. We will charge for what is actually on the bolt shipped to you. Regretably, returns of fabric invoke a 20% restocking charge. We can only cut & sell full yards - we cannot cut fractions of a yard or half yards. Fabrics are NOT pre-shrunk. Shrink before cutting patterns!

MOST OF OUR FABRICS ARE WHITE, PFD WHITE, UNBLEACHED, OR BLACK (AS NOTED WHEN BLACK IS AVAILABLE).

WE ARE NOW OFFERING SILKS IN AN ARRAY OF COLORS ON PG. 69

WE'LL MAIL YOU A SAMPLE OF ANY OF OUR FABRICS FOR 25 CENTS! NO POSTAGE! WHAT A DEAL!

NO SHIPPING FOR FABRIC SAMPLES BY MAIL. NUMBER OF SAMPLES SENT SUBJECT TO CURRENT AVAILABILITY.

YOUR LOCAL FABRIC STORE VS. DHARMA FABRICS: ABOUT FABRICS INTENDED FOR DYEING!

Fabric you use for dyeing or painting is very important to the outcome of your project. If it's been treated in any way (for crease resistance, permanent press finish, water proofing finish, preservatives, anti-mold finish, etc.) these will resist dye entirely or reduce effectiveness of any dye adhering to the fiber molecule. All the fabrics we carry are intended to be without such treatments & unless otherwise noted, are ready to dye as is. Prewashing is ALWAYS suggested to remove soil, hand oils, & other dye resistant oils from production, for even dyeing, and to pre-shrink fabric before cutting out your pattern pieces!

COTTON FABRICS

HEMP (CANNABIS SATIVA) FABRICS

Best Hemp fabrics we can find! Certified! Dye, batik, paint them!

■ **55% HEMP / 45% COTTON JERSEY 61" WIDE**
55% Hemp / 45% Cotton Jersey Knit with 2 way stretch. Natural color. Soft to the touch. 5 oz/sq yd. Priced per yard.
1-9 yds: 9.58 10 yds+: 8.62 30 yd bag: 7.84 **#HCJ**

■ **PURE 100% HEMP CANVAS 53" WIDE**
Bleached & optically whitened. 11.45 oz/sq yd. Beautiful heavy weight canvas with the slightly slubby texture of a linen. Durable yet soft. Nice drape. Priced per yard.
1-9 yds: 18.45 10 yds+: 16.89 30 yd bag: 15.59 **#PHC**

■ **100% HEMP WOVEN MIDWEIGHT 53" WIDE**
Nice midweight, flat woven hemp with a slightly slubby 'linen' look. Bleached & optically whitened - not a dark cream like most hemp fabrics. Durable. 5.48 oz/sq yd. Priced per yard.
1-9 yds: 11.92 10 yds+: 10.84 30 yd bag: 9.93 **#HWM**

■ **100% HEMP SUMMER CLOTH/NATURAL: 53" WIDE**
Soft textured fabric the weight of heavy muslin. Clothing, theater, pillows, & curtains. 30 x 30, 7 oz/sq yd. PFD. Priced per yard.
1-9 yds: 11.25 10 yds+: 9.98 30 yd Bolt: 8.98 **#HM**

■ **60% HEMP / 40% SILK - NATURAL - 57" WIDE**
Beautiful, soft & interesting. Elegant silk & strong like hemp. Vertical textured grain. 2.6 oz/sq yd. PFD. Priced per yard.
1-9 yds: 21.85 10 yds+: 19.99 33 yd Bolt: 18.49 **#HS**

■ **55% HEMP / 45% RAYON - NATURAL - 59" WIDE**
We love this fabric! Soft and smooth, great for dresses & clothing items. It washes well. 5.5 oz/sq yd. PFD. Priced per yard.
1-9 yds: 8.49 10 yds+: 7.65 33 yd Bolt: 6.95 **#HR**

■ **HEMP MUSLIN: 55% HEMP/45% COTTON: 53" WIDE**
Natural. Nice muslin, 58x58, 4.15 oz/sq yd. Use it wherever muslin would be utilized. Try it for sportswear. Priced per yard.
1-9 yds: 7.32 10 yds+: 6.59 30 yd bag: 5.99 **#HCM**

USE FIRE RETARDANT ON LIGHTWEIGHT FABRICS (LESS THAN 2.6 OZ/SQ YD) WHEN USING FOR DRAPERY, PUBLIC INSTALLATIONS OR ANY KIND OF DECORATIONS! NOT RECOMMENDED FOR CLOTHING EXCEPT AS LININGS.

RAYON, LINEN, BAMBOO, SPECIALTY FABRICS

RAYON FABRICS

■ 80% RAYON 20% NYLON VELVET 45" WIDE

80% Rayon / 20% Nylon. Pile is rayon, backing is nylon. Can be dyed with the same dyes as our Silk / Rayon Velvet, & retains the soft hand & drape as the pile is essentially the same. 4.2 oz/sq yd. Cut yardage or 33 yard bolts. Prices per yard. **#NVEL**
1-9 yds: 11.15 yd 10yd +: 10.25 yd 33 yd Bolt: 9.45 yd

■ RAYON VOILE 55" WIDE

This 100% rayon voile is gorgeous. Rayon lends a lustrous sheen & a very soft, smooth hand. The voile weave is loose, somewhat sheer, & drapes just wonderfully. Perfect for any project needing a soft, slippery, semi-sheer fabric. This is the same fabric as our last Rayon Voile just 10" wider. 2.1 oz/sq yd. Optically whitened. Not recommended for clothing or accessories. Priced per yard. **#RVO55**
1-9 yds: 6.79 yd 10yd +: 6.19 yd 33 yd Bolt: 5.69 yd
IMPORTANT: Use Fire Retardant on lightweight fabrics (less than 2.6 oz/sq yd) when using for drapery, public installations or any kind of decorations!

■ RAYON LAWN 54/55" WIDE

100% Rayon Lawn. Soft, smooth, fine. 2.5 oz/sq yd. 90 x 88 thread count. 38 yard bolts. Prices are per yard. **#RL55**
1-9 yds: 5.36 yd 10yd +: 4.87 yd 33 yd Bolt: 4.47 yd

■ RAYON CRINKLE 62" WIDE

Beautiful, light crinkled rayon. Perfect for floaty clothing that drapes. Dresses & blouses. 88 x 44, 4.5 oz/sq yd., approx 33 yd bolts. Priced per yard. **#RCK**
1-9 yds: 8.32 yd 10yd +: 7.40 yd 40 yd Bolt: 6.65 yd

■ VISCOSE RAYON LIGHT, 45" WIDE

Same fabric as our Light Rayon clothing! Lightweight & semi-sheer when undyed. Opaque after dyeing. Resists wrinkles. For flowing garments. 2.65 oz/sq yd. 64 x 38. Priced per yard. **#VRL**
Cut yds: 4.25 yd 10+ yds: 3.69 yd 33 yd bolt: 3.36 yd.

■ VISCOSE RAYON CHALLIS (IMPORT) 55" WIDE

Made as Hawaiian shirts & women's dresses. Drapes well, ideal for clothing, soft to the skin after washing. Pure cellulose, takes Fiber Reactive dyes very well - very brilliant colors! 4 oz/sq yd. 98 x 61 threads. Approx. 40 yd bolts. Priced per yard. **#VCI**
1-9 yds: 6.99 yd 10yd +: 6.53 yd 30 yd Bolt: 5.88 yd

■ BLACK RAYON CHALLIS 58" WIDE

The rayon we make our BLACK rayon clothing from. 86 x 44, 4.5 oz/sq yd., approx 30 yd bolts. Priced per yard. **#BVCI**
1-9 yds: 9.95 yd 10yd +: 8.99 yd 35 yd Bolt: 8.46 yd **BLACK**

■ RAYON SATIN 45" WIDE

Satin is a weave: very solid, tightly woven look. Woven with lustrous yarns to give fabric a shiny, almost reflective surface. 3.7 oz/sq yd. Priced per yard. **#RSAT45**
1-9 yds: 10.95 yd 10yd +: 9.95 yd 35 yd Bolt: 8.95 yd

■ RAYON TWILL 55"

Nicest drape of any of our fabrics. So soft & smooth you will think it is silk, but with a strong twill weave. Perfect for all kinds of garments. 7.3 oz per linear yd. Priced per yard. **#RT55**
1-9 yds: 10.59 yd 10yd +: 9.55 yd 40 yd Bolt: 8.67 yd

■ MODAL RAYON JERSEY, 60" WIDE

95% Rayon, 5% Lycra. Beautiful, soft & luxurious. Dyes perfectly with Dharma Fiber Reactive dyes. For clothing that drapes like liquid. Tops, dresses, & loungewear. 7 oz/sq yd. Priced per yard. **#MJ60**
Cut yds: 8.72 yd 10yd+: 7.95 yd 25+: 7.27 55yd bolt: 6.71

■ BLACK MODAL RAYON JERSEY 60" WIDE

Same soft & luxurious fabric as white Modal Rayon #MJ60. 95% Modal Rayon, 5% Lycra. 7 oz/sq yd. Tops, dresses, skirts & loungewear. 55yd bolt. Prices are per yard. **#BMJ60**
1-9yds: 9.75yd 10yd +: 8.95yd 25yd+: 8.25 65 yd bolt: 7.65 yd **BLACK**

SPECIALTY FABRICS

■ PUPPET SKIN FLEECE 54" WIDE

100% Nylon Fleece, aka "Puppet Skin", is so nice & soft, you'll just want to stuff it & hug it. Hugging side has a very soft nap & puppet's "inside" side has a nice woven texture. Dyes with our Acid Dyes. Create something fuzzy, vibrant & magical! 12 oz. per linear yd. Uses: costumes, puppet construction & kid's projects. Prices per yard. **#NPF**
1-9yds: 21.43yd 10yd +: 19.78yd 43 yd bolt: 18.37 yd

LINEN

■ HEAVY WEIGHT 55% LINEN/45% RAYON BLEND 60"

Twice as heavy as our Linen Rayon blend. Has a subtle plaid type of weave. Bottom weight. 15.5 oz per linear yard. Uses: jackets, pants, shirts, skirts, window draperies, theater costuming for items needing a linen look. Prices per yard. **#HWLR**
1-9 yds: 8.59 yd 10yd +: 7.89 yd 30 yd Bolt: 7.29 yd

■ LINEN 100% BLEACHED LINEN 54" WIDE

Medium weave linen. Beautiful, soft, white fabric. Dyes great with Fiber Reactive dyes. Make all your summer clothing & stay cool! 4.7 oz/sq yd. 50 x 54. 30yd bolts. Priced per yard. **#LIN**
1-9 yds: 7.99 yd 10yd +: 7.25 yd 30 yd Bolt: 6.59 yd

■ LINEN 100% BLEACHED LINEN 54" WIDE

Finer weave than #LIN. Dyes beautifully with Fiber Reactive dyes. Perfect for summer shirts & lightweight dresses. 52 x 53, 3.8 oz/sq yd, 30yd bolts. Priced per yard. **#LIN21**
1-9 yds: 8.97 yd 10yd +: 8.12 yd 30 yd Bolt: 7.39 yd

■ LINEN 100% BLEACHED LINEN 54" WIDE

Coarser weave than #LIN. Sportswear weight for jackets. Dyes with Fiber Reactive dyes. 36x36, 6.8 oz/sq yd, Priced per yard. 1-9 yds: 10.29yd 10yd +: 9.26 yd 30 yd Bolt: 8.42 yd **#LIN6**

■ ESSEX 55% LINEN /45% COTTON BLEND 52" WIDE PFD WHITE

Slightly textured fabric with that linen look. Dyes great with Fiber Reactive dyes. 6 oz. 30 yd bolts. Priced per yard. **#ESS**
1-9 yds: 5.79 yd 10yd +: 5.19 yd 30 yd bag: 4.75 yd

■ 55% LINEN/45% RAYON 52" WIDE - PFD WHITE

Soft drape of rayon & cool comfort of linen. Linen-look is heavy enough for pants & soft enough for tops or dresses. Dyes beautifully! 44x38, 5.6 oz/sq yd. Priced per yard. **#LR**
1-9 yds: 5.49 yd 10yd +: 4.95 yd 30 yd Bolt: 4.49 yd

BAMBOO & ORGANICS

■ BAMBOO COTTON 54" WIDE

It's back! Our vendor decided to bring back to life the popular Bamboo Cotton. Soft quality midweight sheeting. 4 oz/sq yd. 50% bamboo & 50% cotton, bleached. 130x70 thread count. Shirts, dresses, summer trousers, lightweight jackets, & baby clothing. Nice for pillowcases. Priced per yard.
1-9yds 15 yd bolts
5.95 5.49 **#BAMC** **NEW!**

COTTON SCARVES, SHAWLS, SARONGS, BANDANAS, TOWELS & GOODS

COTTON SCARVES & SARONGS

100% lightweight cotton. Tightly hemmed all around with cotton thread. Dye brilliantly & are good for hand painting (as an alternative to silk). Light as a feather, less transparent when dyed, there are dozens of ways to use & wear them. Sarongs are particularly nice as beach cover-ups, as tablecloths or as wall coverings. Tie-dye or dye in solid colors to match your tops.

SILK FABRICS

- WE HAVE THE BEST PRICES IN THE NATION ON MOST SILKS!
- THAT SAID, PRICES ON SILK HAVE GONE UP STEADILY LATELY. THE VALUE OF THE YUAN AFFECTS IT. CHINA IS ALSO PAYING THEIR WORKERS MORE. THAT'S A GOOD THING WE SUPPORT. WE KEEP PRICES AS LOW AS WE CAN - FOR THE MOST CURRENT PRICING, CHECK OUR WEBSITE!
- BUYING PRE-PACKAGED BOLTS IS THE BEST DEAL FOR YOU. IF WE HAVE TO CUT IT, IT COSTS YOU & US MORE.
- IT'S NATURAL FOR SILK TO HAVE SOME IRREGULARITIES - IT'S THE NATURE OF SILK FABRIC. SURFACE VARIATIONS ARE TO BE EXPECTED & ARE NOT CONSIDERED DEFECTS.
- WIDTH MEASUREMENTS ARE ALWAYS APPROXIMATE -

ALL PRICES ARE PER YARD

SILK GAUZE

■ SILK GAUZE 3MM

36", 45", 55", BLACK 45" WIDE

Very light, very sheer, very beautiful. Practically floats! 3mm silk gauze is about as light and floaty a fabric as exists! One of the most popular backing fabrics for nuno-felting. Priced per yd.

	1-9 yds	10+	55 yd bolt	
36"	3.89	3.62	3.39	#SG36
45"	4.93	4.57	4.27	#SG45

BLACK 45"	5.75	5.36	5.05	#BSG45 BLACK

■ SILK GAUZE 4.5MM / 45" WIDE

Still a sheer gauze, but just slightly heavier and more robust than above. Priced per yard.

1-9 yds	10+yds	55 yd bolt	
5.77	5.36	4.99	#SG4545

SILK ORGANZA

■ ORGANZA 5.5 MM / 45", 55" WIDE

Very sheer, transparent, stiff, gauze-like fabric. Priced per yard.

	1-9 yds	10+ yds	55 yd bolt	
45"	6.52	6.05	5.65	#ORG45
55"	8.43	7.83	7.31	#ORG55
45"	7.15	6.64	6.20	#BORG45 BLACK

SILK HABOTAI

Flat weave with a moderate sheen. Known as "China Silk". Lightweight & sheer. 5mm is lightest weight, used for our dancing veils which float on air. 8mm is most popular weight for these, and very economical for learning to Silk Paint. Silk is heavier as the "momme" (mm) number gets higher. 16mm is the heaviest Habotai.

■ SILK HABOTAI 5 MM / 36", 45", 55" WIDE

BLACK 45"	19.75	18.31	17.09	#BCBSS45 BLACK

■ SANDWASHED (SUEDED) CHARMEUSE 19.5MM 45"

If Charmeuse is the Ferrari, this fabric is the Lamborghini!! Sinuous & desirable! Addictive! Soft sueded finish so less sheen than regular charmeuse. Perfect weight for clothing. Priced per yd. #SWSC 1-9yds: 23.05 10yds+: 21.29 55yd Bolt: 19.76

TEXTURED SILK

■ RAW SILK LIGHTWEIGHT 22MM 45" WIDE

100% raw Silk Noil. Nubby fabric. Natural off-white color. Soft gentle drape. 2.8 oz/sq yd. Uses: garments, dresses, skirts, shirts, historical re-enactment clothing, Ren Faire clothing, Star Wars costumes, home decor, & curtains. Priced per yard. 1-9yds.: 7.79 10+: 7.29 57 yd. bolt: 6.95 #RSL45

■ SMOOTH RAW SILK 31.5MM 45" WIDE

100% raw Silk Noil. Less nubby than our raw silk fabric. Natural off-white color. Soft gentle drape. 4.2 oz/sq yd. Uses: same as above for #RSL45. Priced per yard. #SRS45 1-9yds.: 8.99 10+: 8.40 52 yd. bolt: 7.88

■ SILK TWILL 12MM 45" WIDE

Very utilitarian durable silk. Great for handkerchiefs, pillow cases, lampshades, screens, etc. Priced per yard. #ST45 1-9yds.: 12.41 10+: 11.52 55 yd. bolt: 10.75

■ SILK DUPION 19MM 45" WIDE

Shimmery silk with texture - raised silk slubs - intermittent shiny threads - kind of a lightweight Shantung. Make jazzy shirts, jackets, suits, vests, etc. Priced per yard. #SD 1-9yds.: 16.25 10+: 15.16 55 yd. bolt: 14.21

■ RAW SILK (SILK NOIL) 35MM 45", 55", BLACK 45" WIDE

Sometimes called Silk Noil. Natural, off-white, nubby textured fabric with brown specks throughout. Suiting weight, jacket weight. Very soft with a good gentle drape to it. Priced per yard.

	1-9 yds	10 yds+	55 yd bolt

SILK THAT STRETCHES!

■ STRETCH CHARMEUSE 12MM 45" WIDE

95% silk, 5% Spandex. Sumptuous! Sensuous! Pamper yourself! All the softness & sheen of silk Charmeuse with the comfort of a stretch fabric. Dyes perfectly! Priced per yard. #STCHARM 1-9yds.: 18.15 10+: 16.83 55 yd. bolt: 15.71

■ SILK JERSEY KNIT 44" WIDE / 22" TUBE

Luxurious 100% Silk Jersey Knit. Fluid supple hand & drape. Same fabric our silk knit underwear garments (semi-sheer). Approx. 100 grams per sq. meter. Priced per yd. #SK45 1-9yds.: 20.39 10+: 18.99 50 yd. bag: 17.83

ALL PRICES ARE PER YARD

SILK BLEND FABRICS

■ DEVORE' SATIN 19MM / 30% SILK, 70% RAYON 45" WIDE

Silky, shiny beautiful fabric for "burn-out". Apply Fiber-Etch to remove the rayon threads in a design leaving a lace of the remaining silk threads. Priced per yard.

1-9 yds	10 yds+	55 yd bolt	
10.19	9.38	8.71	#DSAT45

■ VELVET: SILK 18% / RAYON 82%:

(ALSO KNOWN AS RAYON SILK VELVET)

Fantastic! Luxurious! Standard 18% silk, 82% rayon. 5.4 oz. per sq. yd. Dyes up gorgeously in any color! Fall in love with this stuff! Also can be used for the Devore' technique. See it elsewhere for \$20 - \$40 a yard! Priced per yard.

	1-9 yds	10 yds+	35 yd bolt

45" BLACK:	16.49	15.40	14.44	#BSVEL BLACK

■ SILK 63%/WOOL 37% 12.5MM 55" WIDE

Some time ago we found this lovely 63% silk/37% wool blend fabric. We had it made into hand hemmed scarves (see pg. 72) & wanted to offer it in yardage as well. Well, something happened & we never got the fabric, until now. 12.5 mm, about the weight of 12 mm Crepe de Chine & a diagonal weave. Softer than wool, warmer than silk! Priced per yard.

1-9 yds	10 yds+	55 yd bolt	
14.75	13.68	12.77	#SWF

■ VISCOSE RAYON / SILK BLEND 58" WIDE

75% Viscose Rayon / 25% Silk blend fabrics. Weight equiv. to 18mm, this fabric has a nice luxurious feel & a beautiful rayon drape. Although the fabric is semi-sheer when white, when dyed it is mostly opaque. You can dye this with our Fiber Reactive Dyes. Depending on the color, the silk & rayon can dye differently. Fun! Machine wash in any temperature water. Priced per yard.

1-9 yds	10 yds+	55 yd bolt	
7.95	7.24	6.73	#VRS

■ HEMP SILK CHARMEUSE 60% HEMP/40% SILK 57" WIDE

Silk lends a beautiful lustrous shine to one side, while the hemp lends strength & body. One shiny side & one matte side. Both sides show slubbiness of hemp fabric, giving a nice texture as well as an interesting look. 52x57 thread count, available in cut yardage. 4.7 oz/sq yd. Priced per yard.

1-9 yds	10 + yds	25+ yds	
23.85	21.87	20.19	#HSCH

WOOL FABRICS

■ PURE WOOL FABRIC 45" WIDE

100% Wool, twill weave, slightly open weave. For custom dyeing, scarves, shawls, dresses, blouses, cardigan type loose jackets. 3.9 oz per linear yd. Priced per yard.

1-9 yds: 24.49 10 yds+: 22.44 22 yd Bolt: 20.71 #PWFD

■ 100% VIRGIN WOOL FELT, 36" WIDE

Great for custom dyeing, applique work, kid's crafts, quilting, steaming into shapes (hat making), & making those boiled wool looking Tyrolean jackets for Oktoberfest! Makes a great base fabric for needle felters. 7 oz/sq yd.

Cut yds: 19.69 yd 10 yd. bolt per yard: 17.99 yd #VWF

■ PURE WOOL FABRIC 45" WIDE

100% Wool. 3.6 oz per linear yard. Light & gauzy, semi-sheer & yet warm as wool can be. Makes a great base for nuno felting or needle felting, & dyes well. 22 yd bolts. Prices are per yard. 1-9yds.: 20.27 10+: 18.59 22 yd. bolt: 17.15 #PWFA

■ PURE WOOL GAUZE TWILL FABRIC 45" WIDE 100%

Wool. Subtle twill weave for strength. Very light & gauzy. Great base for nuno felting or needle felting, & is fantastic all by itself. 3.2 per linear yd. 22 yd bolts. Prices are per yard. #PWFC

1-9yds: 21.49 10yds+: 19.69 22yd Bolt: 18.19

REMEMBER! FABRIC WIDTHS & BOLT LENGTHS ARE APPROXIMATE! IF SPECIFIC WIDTH OR LENGTH IS IMPORTANT, ASK US ABOUT CURRENT STOCK! WE'RE HAPPY TO CHECK FOR YOU! AND WE ONLY CHARGE YOU FOR THE AMOUNT OF FABRIC ON THE ROLL LEAVING THE WAREHOUSE!

SILK SCARVES

SILK SATIN SCARVES

■ SILK SATIN 12MM

Beautiful drape & flow. Has a lustrous shine. Lighter weight choice when the 19.5mm Charmeuse below is too heavy.

55" x 108"	27.90	25.61
45" x 104" Semi circle	19.04	17.44

#HV5

■ SILK VEILS 8MM HABOTAI (PAJ) DANCING VEILS

Beautiful habotai silk veils perfect for dancing. These 8mm veils are slightly heavier weight than our 5mm silk veils. All are made with rolled hems hand sewn with silk thread for even dyeing. Dye & paint them, spin & twirl them! Wrap the large ones around your body! Stronger than the 5 mm veils; 8mm is not as transparent as 5mm.

Stonewash CdC 16.5mm 42"x72"	41.70	38.72	#SSARSW

MACHINE HEMMED SILK SCARVES

The days of hand rolled scarf hems are numbered. The number of workers that have the skill & willingness to hand hem thousands of scarves is decreasing (they're getting older & young folks in China don't want to do it). These days scarves can be hemmed faster & cleaner with machines. Here are our most popular styles, in the most popular sizes.

■ 8MM HABOTAI (MACHINE HEMMED)

	1-11	12+	
8" x 54"	2.96	2.79	#MH8

FLAT CREPE SCARVES

■ FLAT CREPE 8MM

Popular fabric for scarves. Like a hybrid of Habotai & Crepe de Chine, with a loose crepe weave that has been flattened. Good surface for painting. Nice sheen. Pretty.

	1-11	12+	
6" x 24"	2.15	1.99	#FC6
8" x 54"	4.60	4.29	#FC8
11" x 60"	5.95	5.55	#FC11
14" x 72"	10.81	10.08	#FC14
15" x 60"	8.95	8.29	#FC15
21.5" x 21.5"	4.49	4.19	#FC22
22" x 90"	15.79	14.59	#FC2290
35" x 35"	9.71	9.07	#FC35

All silk scarves are not created equal. We can find less expensive scarves but there are just too many problems with them. We offer only the best quality available & have no problems & happy customers. All of our scarves are #1 quality "firsts"-grown, woven & sewn in mainland China. The hems on all 4 sides are hand rolled & sewn with 100% silk thread (unless they are the new machine hemmed ones). Although the silks are untreated & are ostensibly "ready-to-dye", we have found that with silk in general, occasionally small amounts of silk gum - Sericin, (the stuff left by the moths) is still in the fabric. Where there is gum, finger prints or other oils, the fabric will dye lighter. Look for shiny areas in your silk - we recommend pre-washing all silk if you want to be really safe, in HOT water and Synthrapol or our new Professional Textile Detergent. Also, Milsoft, the industrial fabric softener we sell is highly recommended for returning the soft "hand" to your silk after dyeing or painting.

It's natural for silk to have irregularities. It's the nature of silk fabric. They are expected & not considered defects.

SEE OUR WEBSITE FOR LOTS OF EXTRA INFO & TUTORIALS ON PAINTING, DYEING, & STEAMING SILK. WE ALSO HAVE LOTS OF COLOR PHOTOS OF SILK SCARF PROJECTS & PHOTOS OF FINISHED SCARVES MADE BY FEATURED ARTISTS!

SILK CUT VELVET SCARVES WITH 4" RAYON FRINGE

They're all the rage now! You can see them in high end stores for \$60-\$90. For us it's just another beautiful scarf & we can sell them as inexpensively as all our scarves. Silk cut velvet has a rayon pile on a silk background. It's 18% silk & 82% rayon. The rayon pile is in patterns & there is a rayon fringe on some of the styles. The big thing here is that just dyeing them a solid color with either silk or cotton dyes, yields a fabulous result. The rayon & silk dye in different shades on the same scarf - fun!

USE WITH ALTER EGO DYES FOR ABSOLUTE FABULOSITY! SEE PAGE 44.

SOLID SILK VELVET SCARVES WITH RAYON FRINGE

3 SIZES: 9" X 54", 11" X 60", 14" X 72" WITH A 4" FRINGE OR WITHOUT FRINGE

Beautiful solid UNCUT silk/rayon velvet with rayon fringe. Dyes beautifully as it is or create your own outwork designs using the DEVORE' TECHNIQUE. Just draw on your design with Fiber Etch (page 13), dissolve the fibers that are rayon, then wash away the rayon pile. Dye your creation in your choice of gorgeous colors that you won't ever find in ready to wear retail stores!

SILK FAN

Made in China of silk & bamboo. Silk is ready to be painted using any kind of paints, inks, markers or pens. These make a fun kid's or group project with non-toxic silk paint like Dye-na-flow. Nice gifts for Mom or Grandma. Bamboo frame is "lace cutout" on spines. 8.25" closed length. Fan yourself off in your booth on a hot day!

1-9: \$4.95 ea. 10+: \$3.95 ea. #FAN

MEN'S SILK NECKTIES LUXURIOUS!

**PAINTS, RATHER
THAN DYES WORK
BEST WITH TIES.**

Beautifully made in China & sewn with 100% silk thread. Made extra long with a synthetic insert which is an advantage for painting. Better to dryclean rather than wash silk ties, so they don't lose their shape. For this reason, artists often choose to work on these with paints, like Dy-na-flow or Setasilk instead of dyes. Paint, dry, iron, & you're done! If you choose to use dyes, it must be HAND washed. Then blot carefully until totally dry. Never machine wash or machine dry!

CREATE YOUR OWN SILK JEWELRY

Transform your silk paintings into beautiful jewelry with these easy to use findings. Just place a small piece of silk over the grey insert & drop it into the backing, then bend in the four little 'claws' to hold in place. With these pieces you can get even more out of any silk painting! You can even use them to salvage paintings that have flaws by cutting smaller sections out to make pendants, clasps & brooches. The perfect accessory for any fiber artists' wardrobe! Made in France!

SILK DO-DADS FOR PAINTING & DYEING

A REALLY GREAT IDEA!

SILK FOLDING SUN HATS!

Take it out of it's pouch & "Pop", it springs open into a 24.5" sun hat. Then with a simple twist it becomes a 6 inch disk that goes back into a matching pouch. The bag & hat are 8mm Silk Habotai & can be dyed or painted. Careful, though, as the inside rim is metal & will rust if wet for too long. Use silk paints like Dy-na-flow or Setasilk & heatset. Or use a dye like Jaquard or Tinfix painted on and fixed w/fixative (also painted on) rather than submersing. Imagine the possibilities! For promotions, vacations, keep one in your purse, leave one in the car! Give-a-ways at weddings! Sell them at outdoor concerts, sports events, beaches, wherever there's sun!

DEVORE' TECHNIQUE

MAKE YOUR OWN DEVORE PATTERNS!
USE OUR SOLID SILK/RAYON COMBO WOVEN FIBER FABRICS & SCARVES!

■ FIBER ETCH

Fiber Etch dissolves plant fibers like cotton, hemp, rayon & linen. Use on blends like cotton/poly or silk/rayon. Draw a design on fabric with squeeze bottle, or print on, & then iron. The plant fiber is dissolved & washes away leaving a cutwork or reverse applique effect.

	1+	5+	
4 oz.	\$11.25	10.49	#ETCH4
32 oz.	\$54.52	49.56	#ETCH32

■ DEVORE' SATIN 19MM / 30% SILK, 70% RAYON FABRIC YARDAGE 45" WIDE

Silky, shiny beautiful fabric for "burn-out". Apply Fiber-Etch to remove the rayon threads in a design leaving a lace of the remaining silk threads. Priced per yard.

1-9 yds	10 yds+	50 yd bolt	
10.19	9.38	8.71	#DSAT45

■ SILK VELVET 45" WIDE (ALSO KNOWN AS RAYON SILK VELVET)

Fantastic! Luxurious! Standard 18% silk, 82% rayon. Dyes up gorgeously! Can get 2 toned dye effects with Procion or Alter Ego! Fall in love with this stuff! Also can be used for the Devore' technique. 25 to 35 yd bolts. See it elsewhere for \$20 - \$40 a yard! Priced per yard.

HABOTAI SILK GOOD LUCK BANNERS

Here's the Silk version of our best selling Good Luck Banners that we've been asked for. 8mm Habotai and ready to paint. We made these shorter - about 6 foot with a 2.5 foot tail for indoor use. For extended outdoor use it might be better to use the nylon or cotton which come in short and tall. They have a slot sewn along the edge to receive a pole. They make colorful accents on booths, in hallways and entries. Many uses when decorating a home or business.

#GLBHS

SEE PG. 139 FOR LOTS MORE BANNERS!

SILK CLIPS

Scarf Clip Blanks are made to hold your scarves in place. Covered with 100% Silk Charmeuse & ready to be painted with silk paints. Sturdy spring-loaded scarf ring on the backs. We recommend paints or markers only for use on these clips - steaming or submerging in dye (or washing off of excess dye) will cause the metal to rust & likely dissolve the glue holding the silk in place. Silk front of the clip is 1.5" diameter & the scarf ring on the back is 1" diameter. Made in the USA!

#SC	1 - 4:	5.50 each
	10+:	5.13 each
	20+:	4.81 each

BLACK OR WHITE

Blended protein and cellulose fabrics like Silk/Rayon, Hemp/Silk or Silk/Cotton, etc., can be really fun to dye, depending on what dye you use. Acid dye will ONLY dye the silk, and maybe stain the other portion a pale pastel. Procion, if it is a mix that has blue in it, like green, purple, etc., because blue doesn't strike well on silk, can dye the silk one color, the other fiber another. Alter Ego (pgs.15 & 44) can give even more dramatic results, because you can choose the colors each type of fabric will be! With Devore', the results can be truly striking!

SILK UNDERWEAR

SILK KNIT UNDERWEAR FOR MEN & WOMEN!

Semi-sheer 100% Silk Knit underwear! This is the soft slinky stuff you wear next to your skin for warmth or layering. Silk knit 100 grams or 75 grams per sq. meter. #SCHEM

SILK ISLAND SHIRT

LIKE A CLASSIC "HAWAIIAN SHIRT"

Made for us in China in 10mm Habetai in a Hawaiian shirt pattern with a better collar. Expertly tailored, correctly proportioned & sized. Sewn with silk thread. **This is one killer, fantastic silk shirt at a great price!** Cut big - buy the size you normally wear. Women can wear them, too! Also a great option for maternity wear. Now combinable with the silk clothing on pages 77-79 to get the 12+ discount!!

4 Men's Sizes: M, L, XL, 2XL
(not available in size small)

33.82 31.40

#SIS

FOR MEN OR WOMEN!

Wear the #SIS shirt with the #SBSH Boxer Shorts for a comfy lounge set!

It is important to wash all silk before dyeing if you want to be really safe! We recommend Synthrapol or our Dharma Prof.

Textile Detergent (pg. 13). A capful of one of these in a sinkfull of HOT water or a 1/4 cup to a standard washing machine. Keep in mind, all silk is better off hand washed & air dried - reduces shrinkage and abrasion. Although our silks are untreated & are "ready-to-dye", we find that with silk in general, occasionally small amounts of silk gum (the stuff left by the moths) is still in the fabric. Where there is gum, the fabric will dye lighter. Finger prints & oils from the factory or just handling can cause splotchy dyeing as well. Once silk is dyed, wash in cool water.

It's natural for silk to have irregularities. It's the nature of silk fabric. They are expected and not considered defects.

SEE OUR WEBSITE FOR LOTS OF EXTRA INFO & TUTORIALS ON PAINTING, DYEING, & STEAMING SILK. WE ALSO HAVE LOTS OF COLOR PHOTOS!

"mm" stands for "momme", NOT millimeter, and is a Japanese unit of measure for the

weight of silk that is also used in China. It sounds like "mummy". One momme = 3.75g of a 25 yd X 1.49 inch strip of silk, or 3.62 grams per sq. yd. The higher the mm, the heavier the silk. Ethereal see-through Gauze is about 3mm, heavy Charmeuse is 19.5mm, average Habetai (China Silk) is 8 or 10mm. Just in case you were wondering!

INFANT LAYETTES

FLEECE BUNTING

Soft cozy hooded bunting with elastic bottom & a snap at neck. Soft, cozy 100% cotton medium weight 6.1 oz. Fleece. One size - after washing it fits an average 20 month baby & younger. 24" from neck to hem before washing. Shrinks about 2" in length. Sewn with cotton thread for perfect dyeing.

LAP SHOULDER BABY RIB BUNTING

100% super soft 5.1 oz. cotton Baby Rib knit. Sewn with cotton thread for perfect dyeing. Easy on/off with the lap shoulders. Cuffs have slightly covered elasticized bottom. Cuffs can be folded over to cover baby's hands to prevent scratching. One size fits average sized babies up to about 20 months. About 20" long before shrinkage. A Dharma best seller!

HOODED FLEECE BUNTING WITH EARS

Cute, cozy and warm! Taking the world of newborns by storm! Made of the same soft 100% cotton medium weight 6.1 oz. Fleece as our #CH027. Adorable little ears on the hood. Rib cuffs on the sleeves instead of tape. Elastic in the bottom. See our website for color pics & ideas. One size only, fits up to about an average 20 month baby.

Cotton clothing is NOT recommended for sleepwear for children as it is not fire retardant. It does conform to normal flammability standards.

NATURAL MUSLIN PRE-STUFFED DOLL

These doll forms are covered in a natural muslin fabric, perfect for coloring with fabric markers & paints, adding rhinestones & googly eyes. Paint on a face, add yarn or roving for hair, give them (tie-dyed!) clothes (don't want a bunch of naked dolls traipsing about) and have a tea party. Just be careful the Mad Hatter doesn't shrink you! For best results hand dye, hand wash and air dry only. Fun party activity!

100% COTTON STUFFED TOYS

Decorate your own stuffed animals! These adorable already stuffed critters are covered in a white 100% cotton Muslin fabric, perfect for markers & paints! Great idea for classes, kid's camps, birthday parties or just rainy days at home. Use our Jacquard Tee Juice Markers or any of our other markers or fabric paints to color customize your animal your way. Paint or draw faces, patterns, designs, rainbows, polka dots, stripes, messages, autographs - you name it! Embellish with our Craftsafetm Crystalina Hot-Fix Rhinestones to really bling up your pet! Not recommended for machine washing or tub dyeing (getting the excess dye out of the stuffing would be a challenge). 100% white cotton Muslin outer fabric. 100% polyester inner stuffing.

KID'S PARTIES! SUMMER CAMPS!
SCHOOL EVENTS! BOY & GIRL SCOUTS!

INFO TIPS FOR STAMPING ON FABRIC

- Cut stamps evenly & deeply.
- Don't rock the stamp.
- Don't apply too much pressure.
- Fabric paints will not stick to linoleum.
- Be sure to wash & press fabric first.
- Use sponge applicator bottles & foam tip swabs for "inking" stamps.
- Use anti-diffusants or "stop-flow" to limit spreading on silk.
- Most fabric paints with glitter don't stamp well.
- Don't use fabric softeners in the wash or the dry cycles.
- ALWAYS DO A TEST FIRST.

THIS ICON MEANS THAT THE GARMENT WAS SEWN WITH COTTON THREAD SO THAT THE THREAD WILL DYE THE SAME COLOR AS THE GARMENT!

16.48 14.99 13.75 12.49	8 - 12

DRESS THAT TURNS INTO A SKIRT

How many skirts can say they can turn into a dress? Or vice versa? Is this cool or what? 100% Cotton Jersey. Shoulder straps have button holes and buttons to adjust for growth. When this is worn as a skirt, just tuck the straps inside to go into "skirt mode". The smocked bodice (or waistband) is an easy fit for different shapes. 3 tiers total. Sewn with a stretchy stitch so the tiers will not pop. Double topstitched needle hem. Sewn with Cotton thread for perfect dyeing. (The size 12 will fit an adult size XS or S, but only as a skirt).

DRESS OR SKIRT, YOU DECIDE!

T-SHIRTS! We only carry brands we believe to be reliable. **First**, decide between **PFD (Prepared for Dyeing)**, **RTD (Ready to Dye)** or **Regular**. PFD and RTD are sewn with Cotton thread, so white stitching doesn't show on the dyed garment. Gildan, the Hemp, and both Organic brands are true PFD - off-white, unbleached, so with tie-dye or batik, the background won't be bright white, but they take dye like champs for solid color dyeing. All the LAT Apparel shirts (and their other garments) are sewn with Cotton thread so they dye great, but they are also bleached & optically whitened (neon!), hence we call them RTD. The "Regular" - other big Brand Names) dye just fine, are bleached & whitened, but sewn with poly thread (doesn't dye), are cut normally & are compacted to reduce shrinkage. If you dye the entire shirt, as in garment dyeing & batik, buy the tees sewn with cotton thread. If you tie-dye & leave white in your design, stamp, marble, or do transfers, then poly white thread in the tees might be ok for your project. Decide on the weight (thickness) you want. Heavier weights are sturdier, lighter weights more "in style" right now. Combed ringspun is softest. Look at the info & prices & decide which works for you. Big plus: Though made overseas, Bella/Canvas, Fruit-of-the-Loom, LAT Apparel, Hanes, & Gildan are now all made at WRAP Certified factories! ****We have added colors (drop-shipped) of some name brands - see our website!**

GILDAN **GILDAN**
ACTIVEWEAR

Gildan is a very popular shirt with tie dyers & screen printers - excellent quality & weight at a great price. True PFD (off white) tee is sewn with **Cotton thread**.

- 100% 6.1 oz. Compacted Carded Cotton Jersey
- Double needle cover stitched neck
- Taped neck & shoulders
- Double needle hems
- Ultra tight knit surface for printing
- Sewn with Cotton Thread for better dyeing
- Not bleached or whitened - off-white color.

NEW! GILDAN 6 OZ. HAMMER TEE

Substantial 6.0 oz. 100% super soft combed ringspun Cotton t-shirt in standard adult men's (or unisex) sizing. Very similar to Hanes Beefy-T. High quality fabric with double needle stitched sleeves & hem, with reinforced taped neck & shoulders. Has seamless NON-topstitched 7/8" collar, where the Beefy has a topstitched collar. When you dye the Beefy, the top stitching remains white - not everyone likes the top stitched collar for that reason. Gildan Hammer has popular tear away labels instead of being tagless. Quarter turned when cut to eliminate that center crease that a lot of t-shirts have. Biggest difference - the price! If you just can't give up your Beefies, don't worry, we will still be carrying them. But keep in mind, wearing a HAMMER is just as macho as wearing a BEEFY.

5.2 OZ BY Hanes®

SEE OUR WEBSITE!

An economy shirt by Hanes! This is a decent tee at a great price. 5.2 oz carded cotton Jersey. Double needle overstitched neck & hems, preshrunk. Taped shoulder to shoulder. Not cotton thread. Great value for large group tie-dye parties or team shirts. Screenprints fine. Although they may not last as long as the thicker tees, some tie-dyers say that thinner tees are easier to tie with their more intricate folds & designs. Tagless for comfort!

CERTIFIED ORGANIC! NATURAL COLOR COTTON PFD T-SHIRTS

TRUE "SEED TO WEAVE" NO CHEMICALS USED

There's this guy, Gary & his wife, down in Texas who grow cotton completely organically. They're certified organic by the Texas Dept of Agriculture. They also gin the cotton, spin the yarn, knit the cloth & sew the shirts!

#OCT

Washing is done with natural biodegradable soaps & softeners. No formaldehyde is used. We don't mean they do it all in their kitchen - they've created a textile industry around them. It's quite a thing to make a T-shirt from seed, sun & water - don't you think? Anyhow, the T-shirts are nice, 5.5 oz. Jersey, standard size to start, but shrink more than pre-shrunk brand-name shirts, sewn with cotton thread, double needle hems & neckline. These true PFD natural creamy color shirts take dyes very well. Because the cotton isn't bleached or whitened in any way, variation in the color, even within the same shirt, is perfectly normal. Support your (sort of) local organic farmer!

Men's Sizes: M, L, XL

Put on your dancing shoes, it's Play Dress time! Among our most popular dresses: Choose from **short, midcalf or long lengths, & sleeveless, short sleeved or long sleeved** in each length! Made of 100% 5.3 oz. Cotton Jersey & sewn with cotton thread. Nicely shaped flattering scooped neckline. Rolled hems at neck & armholes. Hemmed sleeves on the short & long sleeved versions. A plain blank canvas for you to dye, tie-dye, batik, paint, marble, stencil & stamp! ****Attention Playdress fans: Cotton & USA labor have both gone up considerably. A seam is going to be added in all styles down the center back to improve the yield to keep the prices down. There will be mixed stock for awhile.**

NEW COTTON GAUZE CLOTHING COLLECTION

NEW COTTON GAUZE CLOTHING COLLECTION

Fall in love! Fabulous soft fabric! Breezy & breathable, but with sturdy wash & wear, forgiving styling, excellent dye absorption, & no ironing out of the dryer! 100% Crinkle Cotton Gauze, 3.2 oz, fills a clothing niche for those of you who want something other than clingy knits, or who need a cooler fabric than cotton knits or rayon in those hot & humid climates from Hawaii to Florida. Folks have been asking for years, that's how long it took us to find the perfect fabric, not too thin & fragile, not too heavy but also not see through, & without excessive shrinkage. We think this is it, & worth the wait. Best of all, these are made in the USA! If these styles take off, we'll develop more! Try it, you'll like it!

CRINKLE COTTON GAUZE

GAUZE BUBBLE DRESS

Avant garde, artistic & dramatic. Shaped inverted Y seaming front & back. Loose, easy fitting & easy to wear dress with front V-neckline & 3/4 length "stovepipe" sleeves.

CRINKLE COTTON GAUZE

Asymmetric wide "box" design to the skirting of the dress. A conversation piece! Turned & stitched hems. Sewn with Cotton thread for perfect dyeing.

LIQUID RAYON JERSEY

DANCING AT GATSBY'S DRESS
RAYON SPANDEX JERSEY

Folks are loving our "Dancing at Gatsby's Dress". Kind of a 1920's or 1930's vibe, yet very modern for today. Romantic flowing asymmetric hems, & an easy fit that will flatter all figure types. A dream of a dress! Princess lines in the bodice & angled seams that shape above the hips. We are offering this dress in 2 choices of fabrics: Rayon Spandex or Cotton Jersey. Both styles sewn with cotton thread for perfect dyeing. Both styles look fantastic paired with the new Elegant Drape Jackets on pg. 128 in their corresponding fabrics!

RAYON SPANDEX JERSEY DRESS: (at left):

You will fall in love with this sinuous dress! Fabulous slinky fabric that drapes like liquid! 5.8 oz. rayon Jersey is 94% rayon & 6% Spandex for added stretch & durability.

COTTON JERSEY DRESS: (At right): Our great basic lighter weight 3.2 oz. 100% Cotton Jersey that you all love & is great for summer.

DANCING AT GATSBY'S DRESS
COTTON JERSEY

YOGA KNEE PANTS

Regular yoga pants might be too hot for Hot Yoga, or working out in the summer, or you hate shorts, or maybe you want to show off your entire calf tattoo, so... Classic roll waist style yoga pants cut off right below the knee. Roll waist usually is worn rolled halfway down, can also be worn straight up for an extended high waist effect, or folded down for a low waisted hip wrapped look. Soft stretchy 6.5 oz. 92% cotton/8% spandex. Nice fabric, comfy for everyday wear. Takes dye well. Sewn with cotton thread, by the same vendor who makes our best selling Women's Chakra Yoga Pants. Sized for real women (not teen or junior sizing).

ELEGANT DRAPE JACKET

COTTON JERSEY

This is the jacket you've been waiting for! Waterfall style front collar. Not as much fabric volume as our other jersey waterfall jacket. Just enough in this design to give you that popular draped waterfall look. Asymmetric front hemline. A smaller flat collar perfect for all seasons. Matches the Gatsby Dresses (pg. 117). We are offering this jacket in 2 choices of fabrics: Rayon Jersey Spandex or Cotton Jersey. Both styles sewn with cotton thread.

RAYON SPANDEX JERSEY JACKET: (at left)
Fabulous slinky fabric that drapes like liquid! 5.8 oz. rayon Jersey is 94% rayon & 6% Spandex for added stretch & durability.

COTTON JERSEY JACKET: (at right):
Our great basic lighter weight 3.2 oz. 100% cotton Jersey that you all love & is great for summer.

#DDC rectangle

#DDSS round insert

NEW!

#DDSS rectangle insert

Dyeable durable dog bed duvet covers & optional black mesh stuffing inserts! Covers are 100% 7.66 oz. cotton canvas with a zippered opening. Washable, comfy, & a great use for sustainable up-cycling. Inside the duvet you can use the optional black mesh stuff sack to contain old clothes, towels, & blankets to create a comfy mattress that smells like doggie's owner inside the duvet cover. When it's time to wash, the stuff sack & its contents go right into the wash, or you can just wash the cover. Or, these can be filled with regular pillow stuffing & make great, durable pillows for humans too! More info and measurements are on our website.

DOGGIE T-SHIRTS

Nicer than most dog tees you'll find out there. 100% Cotton Jersey dog tees have raglan style diagonal inset sleeves. Creates a gradual slope across the shoulder muscles of dogs, giving a better fit than a human tee. Rib knit taped neckline & armhole hems. Backpiece of t-shirt is sized larger than front (or chest) piece of tee so that your design will read better across dog's back. Bottom hem has a soft 2" rib knit edging & the hem is straight (not curved). Did you know it's a proven fact that dogs enjoy wearing tie-dye?

HOME DECOR

COTTON SHEETING PILLOW COVERS

NEW!

New shapes in our line of cotton muslin pillow covers.

Take Fiber Reactive dyes great!

Dye them just the right shade to go with your decor. Dye them, stamp them, paint them to make them pop on your sofa, lounge chair, or bed. There's nothing quite like cute, unique throw pillows to add that little bit of zing to your living space. Even though the stitching is poly thread it will only show along the zipper closure in the back. Pillows are sold flat & unstuffed. Zipper closures at backs.

COTTON CURTAIN PANEL 55" X 84"

Curtain panel or tapestry blank is 100% woven Cotton, measures approx. 84" tall x 55" wide, & has a 5" tall sleeve, or 'rod pocket' at the top. Cotton fabric is medium weight; light will shine through them, so you'll need something behind them to completely block out light (like a window shade). Dyed up & in front of a sunny window makes for some gorgeous window treatments! Like a stained glass effect! Tie-dye them, vat dye, batik, stamp, print, shibori - make yourself some exciting curtains! Not sewn with cotton thread. Prices are per panel:

SHIPPING INFORMATION

We offer lots of shipping options to make sure you get it when you need it:

Standard Ground - 1 to 6 working days - UPS (del. M-F) or FedEx (del Tue-Sat)

3 Day Economy Air - 3 working days

2 Day Air - 2 working days

1 Day Air - Overnight - Next working day

1 Day Air - Overnight AM - Next working day by noon (Most, addresses)

1st Class Mail (under 13 oz) or Priority Mail (over 13 oz) - Delivery time varies

UPS SurePost - Economy hybrid service - cheaper for 1-9 lbs than Ground;

UPS picks up, USPS delivers; **1 - 2 days longer than ground.**

Depending on where you live, & what time you call us, you can have your order the next morning, the next day, in two days, three days or longer. (The day you order doesn't count toward shipping times) Whatever you want. We are a service business with products.

We do not take advantage of our customers with our shipping rates. The cost of shipping your order is based on the weight & dimensions of the items you order. We negotiate with the shippers for the best deals we can get and we pass savings on to you. We cannot offer free shipping, like some gigantic companies, because we have low prices and margins, to keep prices low, so you can afford our stuff. With that, we are a small company and cannot afford to absorb the shipping in addition.

If you live in one of the USA's 48 mainland states, start here, otherwise see below:

GROUND

This is almost always the cheapest way to go. Delivery takes 1 to 6 working days for a package to reach you depending where you live. Not guaranteed! Counting starts the working day after we ship. Parts of California & Northern Nevada are usually one day. The Midwest & East Coast are usually 4 or 5 working days. Other areas are usually 2-4 days.

Order Monday morning from California & receive it Tuesday in many areas. Order Monday morning from New York & receive it the following Monday, sometimes sooner. Our new **UPS SurePost** is the least expensive for most orders weighing 9 lbs or less, but usually takes 1 to 2 days longer. For orders over 9 lbs, we are now also offering **FedEx Ground**, as they are sometimes less.

Dimensional weight - We can only quote shipping based on what it should weigh once packed. Now, UPS & FedEx are both charging by the size of the box in addition to the weight, & for bulkier light weight objects, this makes it more expensive than the charge would be by weight only. We cannot predict what size box, & on occasion we may have to contact you to collect the additional shipping that they're charging us. This will definitely affect things like bulk squeeze bottles, hoops, light bolts of fabric, etc.

Rural addresses may take longer!

Deliveries are not made every day to rural customers & shippers have begun adding a surcharge of up to \$3.75.

Where & how often is complex. If you live in an out of the way place, deliveries may take longer & cost up to an additional \$3.75.

If you are mailing in your order with payment, the following will help you to estimate shipping costs. You need not be exact.

Please over estimate! If you don't send enough to cover shipping, it can delay your order while we contact you & then wait for you to send the balance needed. How much you enclose for shipping with your order has absolutely no bearing on how much you will be charged for shipping. We refund the balance to you in cash or check. These rates don't include insurance of \$1 for the first \$20 subtotal, and \$1 for each additional \$100 for Post, and .50 for each \$100 after the 1st \$100 for UPS & FedEx.

The following are approximate GROUND Shipping & Handling rates. *Quotes for 1 & 5 lbs are for the new SurePost

	S.F. Bay area	40-600 miles	Rocky Mntn. states	East of the Rockies	East Coast
*1 LB	\$7.57	\$8.35	\$8.66	\$9.04	\$9.16
*5 LB	\$8.62	\$10.61	\$11.01	\$11.77	\$12.59
10 LB	\$14.67	\$14.67	\$16.42	\$18.21	\$19.52
15 LB	\$14.67	\$14.67	\$16.88	\$21.14	\$22.89
20 LB	\$14.67	\$16.62	\$18.74	\$24.25	\$26.60
25 LB	\$14.67	\$17.32	\$19.58	\$25.79	\$29.03
30 LB	\$18.53	\$19.35	\$21.83	\$28.97	\$33.11
40 LB	\$17.68	\$22.23	\$25.59	\$35.06	\$40.03

ECONOMY AIR OPTIONS: 3 DAY • 2 DAY • 1 DAY

Because of our large volume, we can offer **discounted rates for 1, 2 & 3 day service**. Economy Air 3 is useful for those living east of the Rocky Mts. A small increase in shipping cost gets your order to you in 3 days rather than 5-7 days. If you live in the boonies, then it might take an extra day. Depending on where you live, delivery can take an extra day, or occasionally more. The times quoted are for metro areas & are not guaranteed everywhere. **Allow a margin for error if you have a deadline.**

IF YOU LIVE IN HAWAII OR ALASKA, START HERE:

In Hawaii & Alaska, shippers charge different rates for metro & rural addresses. They vary in what they consider metro.

We offer UPS Ground service to Hawaii & Alaska. While Mail is less expensive for small orders, other carriers are more reliable. Costs include handling & .40 for Postal delivery confirmation. Insurance is added at \$1 for the first \$20 subtotal, & \$1 for each additional \$100 for post, & .50 for each \$100 after the 1st \$100 for UPS & FedEx.

IF YOU LIVE IN CANADA, START HERE:

There are a few ways to have your order shipped to Canada, depending on where in Canada you live.

1st Class Mail - Air Parcel Post - available to all areas, but not trackable. Priority US Mail offers tracking.

Fed-Ex/UPS Air Economy or Air Priority - faster, more expensive, also subject to additional brokerage, duties & taxes*.

TRANSIT TIMES ARE APPROXIMATELY:

First Class US Mail is 3-4 weeks. Air Priority is about 6-10 business days. Customs can add one or many more days.

Rural delivery adds days & extra charges for delivery to some remote areas. All orders are insured to guarantee replacement.

The cost of insurance is added at \$1 for the first \$100 subtotal, & .50 for each additional \$100 after the first.

*You are responsible for the shipping company's brokerage fees & Canadian import duties & taxes. These will be charged to you extra & are due & payable upon receipt of your order. We cannot give you an estimate of what those will be, nor are they part of our invoice. If your order is not huge & goes by mail, there is usually no brokerage, & duties & taxes seem random. However, if the Post misplaces your package, you have to wait 30 days for it to show up before we can file an insurance claim for you & you will have to wait to collect. Fed Ex is reliable & packages are easily tracked. If this all sounds crazy - join the club!

DELIVERY INSTRUCTIONS?

If you have a special request for the delivery driver, like "Leave without signature", or "Leave in backyard under red flower pot & don't worry about the dog cause he doesn't bite", **DON'T TELL US!** We can't make it happen. Shipping company policy is for drivers to look at their electronic manifests for the address, not at the shipping label. Special instructions cannot be keyed into the computer address fields anyway. Your very best bet is to leave a signed note where your driver will see it. He will use his judgment.

WE SHIP ALL OVER THE WORLD!

A couple of countries continue to give us problems, but otherwise there are no minimums or other restrictions. Visit our website for further details or call us directly. You are also urged to contact your local customs office regarding any import restrictions and/or duties & taxes.

While shipping costs are high, our low everyday prices & the falling value of the U.S. dollar often make us less expensive than buying in your locality! We also offer discounted bulk rates that save you a lot for packages 9 lbs & under, but it takes longer.

The Dharma Family

Dharma Trading Co. was started in 1969 by our father, Isaac, on the principle that it's possible to be involved in business while maintaining good ethical values. 50 years later, he still comes in each week to check in with me, my brother, and the General Manager, who have taken over the daily management. The company now employs a "family" of 60 to 70 folks, about half of whom have been with us more than 10 years,

and some 20, 25, and 35 years. They take your orders, mix your dyes, and pick and pack your orders with care. We continue each day trying to treat our customers, employees and suppliers as we would like to be treated. We must be doing something right, because this July is our 50th anniversary!
