## **SECTION 4 - FIRST AID MEASURES**

Description of first aid measures:	O.
General advice:	Move out of dangerous area.  Show this safety data sheet to the doctor in attendance.  Do not leave the victim unattended.
In the event of skin contact:	If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.
In the event of eye contact:	Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
In the event of swallowing:	Clean mouth with water and drink afterwards plenty of water. Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.
In the event of exposure by inhalation:	Move to fresh air. Oxygen or artificial respiration if needed. If symptoms persist, call a physician.
Most important symptoms and effects, acute and delayed:	May cause an allergic skin reaction.
Notes to physician:	Treat symptomatically.

## **SECTION 5 - FIREFIGHTING MEASURES**

Suitable extinguishing media:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media:	High volume water jet.
Special hazards arising from the substance or mixture:	Do not allow run-off from fire fighting to enter drains or water courses. The pressure in sealed containers can increase under the influence of heat. Exposure to decomposition products may be a hazard to health.
Hazardous combustion products:	Carbon monoxide Carbon dioxide (CO <sub>2</sub> ) Nitrogen oxides (NO <sub>x</sub> ) Hydrofluoric acid
Specific extinguishing methods:	No data is available on the product itself.
Further information:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Advice for fire fighters:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

# SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:	Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe areas.
Methods and material for containment and clean up:	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.
Environmental procedures:	Try to prevent the material from entering drains or water courses.  Do not flush into surface water or sanitary sewer system.

# SECTION 7 - HANDLING AND STORAGE

Advice on protection against fire and explosion:	Normal measures for preventive fire protection. To avoid thermal decomposition, do not overheat. Thermal decomposition can lead to release of irritating gases and vapours.
Advice on safe handling:	Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Conditions for safe storage including any incompatibilities:	Recommended storage temperature: 5-30°C Stable under recommended storage conditions. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Electrical installations / working materials must comply with the technological safety standards.
