Fiber Reactive Procion Dye ICE DYE SPLIT CHART

The BEST dye for ice dye, tie-dye and so much more! Professional quality dye for all natural fabrics.

Our Dharma Fiber Reactive Dye is the dye of choice for ice dyeing all cellulose fibers, like cotton, rayon, etc. This is the dye you've seen on ice dyes and tie-dyes on the street, at fairs, festivals and concerts - the colors are brilliant and permanent. They are economical and easy to use. Superior to supermarket dyes in every way!

Swatches were done with the DOI (Dye Over Ice) technique, in the muck. Results can vary a lot depending on the technique you use, how much dye you use, how much ice, how fast it melts, etc. These are just samples to show you the amazing splits you can get.
