<b><u>SECTION 3</u></b>	<b><u>COMPOSITION, INFORMATION ON INGREDIENTS</u></b>
-------------------------	---

Proprietary blend all components are listed in the TSCA inventory

<b><u>SECTION 4</u></b>	<b><u>FIRST AID MEASURES</u></b>
-------------------------	----------------------------------

Inhalation: Remove person to fresh air immediately while getting immediate medical attention. Use a bag valve mask or similar device to perform artificial respiration (rescue breathing) if needed.

Skin: Immediately wash skin with soap and plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Seek immediate medical attention.

Ingestion: Never give anything by mouth or induce vomiting to an unconscious or convulsing person. Have victim drink plenty of water for dilution effect. Do NOT induce vomiting without medical advice. Seek immediate medical attention.

Eye: Flush eyes with large amounts of water, occasionally lifting upper and lower lids, until no evidence of chemical remains at least 15 - 20 minutes. Get immediate medical attention.

Most Important Symptoms and Effects Both Acute and Delayed: See Section 2 and/or Section 11.

Indication of any Immediate Medical Attention and Special Treatment Needed: People with chronic respiratory problems should not work with dyestuff powders. If symptoms such as tightness in the chest or asthma occur while handling dyestuff powders, a physician should be consulted as soon as possible. If hypersensitivity is confirmed, all contact with dyestuff powders should cease immediately.

<b><u>SECTION 5</u></b>	<b><u>FIRE FIGHTING MEASURES</u></b>
-------------------------	--------------------------------------

Extinguishing Media: Water spray, alcohol resistant foam or dry chemical.

Unsuitable Extinguishing Media: CO<sub>2</sub> and high volume water jet as this may scatter and spread fire.

Special Protective Equipment and Precautions for Firefighters: Firefighters should wear self-contained breathing apparatus and full protective clothing. Use water spray to cool fire exposed containers. Move containers from fire area if you can do so without risk. Avoid inhalation of material or combustion by products. Stay upwind stay out of low areas.

Specific Hazards Arising from the Chemical: Like most materials in powder form, powder may be capable of creating dust explosions. Observe the usual precautionary measures required for chemicals with dust explosive properties. Decomposition can produce toxic and irritating fumes and gases of CO<sub>x</sub>, NO<sub>x</sub>, and SO<sub>x</sub>.

<b><u>SECTION 6</u></b>	<b><u>ACCIDENTAL RELEASE MEASURES</u></b>
-------------------------	---

Personal Precautions Protective Equipment and Emergency Procedures: Keep unnecessary and unprotected people away from area of spill. Cleanup personnel should wear appropriate protective clothing and equipment. Ensure proper ventilation spill site. Avoid formation and deposition of dust. Avoid inhalation of dust, vapors, mist and gas.

Environmental Precautions: Do not let spilled material enter floor drains, sewers or water sources or the environment.

Methods and Materials for Containment and Clean-up: Ensure proper ventilation. Collect spilled material, avoid generation and deposition of dust, and place in an appropriate waste disposal container. After clean-up is complete wash spill site. Do not allow material to enter floor drains, sewers or water sources of any kind.

<b><u>SECTION 7</u></b>	<b><u>HANDLING AND STORAGE</u></b>
-------------------------	------------------------------------

Precautions for Safe Handling: Use in a well ventilated area. Use necessary PPE's to prevent exposure by any route. Avoid inhalation and contact with skin and eyes. Keep container tightly closed. Keep away from food and drinks. Do not eat, drink or smoke at work. Wash hands before breaks and at the end of workday. Good personal hygiene is a must. Eyewash fountain and quick drench shower should be available in the immediate work area.

Conditions for Safe Storage Including Incompatibilities: Store in a cool, dry, well-ventilated place away from oxidizing and reducing agents. Keep container tightly closed. Store locked up. In filling operations take precautionary measures against static discharges. Avoid generation and deposition of dust.

<b><u>SECTION 8</u></b>	<b><u>EXPOSURE CONTROLS PERSONAL PROTECTION</u></b>
-------------------------	---

**SECTION 4****FIRST AID MEASURES**

- Inhalation: Remove person to fresh air. Use a bag valve mask or similar device to perform artificial respiration (rescue breathing) if needed. Seek immediate medical attention.
- Skin: Immediately wash affect areas with soap and plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash contaminated clothing before reuse. Seek immediate medical attention.
- Ingestion: If victim is conscious and alert, dilute with copious amount of water immediately. Never give anything by mouth or induce vomiting to an unconscious or convulsing person. Seek immediate medical attention.
- Eye: Immediately rinse eyes with large amounts of water, occasionally lifting upper and lower lids, until no evidence of chemical remains at least 15-20 minutes. Get immediate medical attention.
- Most Important Symptoms and Effects Both Acute & Delayed: See Section 2 and/or Section 11.
- Indication of any Immediate Medical Attention and Special Treatment Needed: People with chronic respiratory problems should not work with dyestuff powders. If symptoms such as tightness in the chest or asthma occur while handling dyestuff powders, a physician should be consulted as soon as possible. If hypersensitivity is confirmed, all contact with dyestuff powders should cease immediately.

**SECTION 5****FIRE FIGHTING MEASURES**

- Extinguishing Media: Water fog, foam, dry chemical powder, carbon dioxide.
- Unsuitable Extinguishing Media: Extinguishing media applied in solid streams may scatter and spread fire.

Use water spray to cool fire exposed containers. Move containers from fire area if you can do so without risk. Avoid inhalation of material or combustion by products. Stay upwind stay out of low areas.
- Specific Hazards Arising from the Chemical: Like most materials in powder form, powder may be capable of creating dust explosions. Observe the usual precautionary measures required for chemicals with dust explosive properties. Thermal decomposition can produce toxic and irritating fumes and gases of carbon, nitrogen, sulfur and chromium.

**SECTION 6****ACCIDENTAL RELEASE MEASURES**

- Personal Precautions Protective Equipment and Emergency Procedures: Keep unnecessary and unprotected people away from area of spill. Cleanup personnel should wear appropriate protective clothing and equipment. Ensure proper ventilation spill site. Avoid formation and deposition of dust. Avoid inhalation of dust, vapors, mist and gas.

Environmental Precautions: Do not let spilled material enter floor drains, sewers or water sources or the environment.

Methods and Materials for Containment and Cleaning-up: Ensure proper ventilation. Collect spilled material, avoid generation and deposition of dust, and place in an appropriate waste disposal container. After clean-up is complete wash spill site. Do not allow material to enter floor drains, sewers or water sources of any kind.

## **SECTION 7**

## **HANDLING AND STORAGE**

Precautions for Safe Handling: Use in a well ventilated area. Good hygienic practices should be observed. Avoid prolonged or repeated exposure. Work clothes should be washed separately at the end of each work day. Disposable clothing should be discarded with material. Avoid generating or breathing dust. Avoid contact with eyes, skin and clothing. Reclose containers of unused product. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Do not reuse this container.
